AVOCOR R SERIES DATASHEET

43" | 55"

OVERVIEW

Designed to support a variety of markets, including education, enterprise and SMB, the R Series reimagines traditional digital signage by combining a display, media player, and smart digital signage software, as well as product differentiating remote device management capabilities into one single ready-to-go solution.

With a vast library of customizable templates, emergency override, and the crucial remote management capability, this all-in-one solution ensures that organizations hold the reins of their communication tools firmly and effectively.

Purposefully designed to support education and small to enterprise sized companies.

SOLUTION
Highlights

Display, media player, software, and remote management all-in-one device.

Rise Vision, easy plug and play software included with professionally designed customizable templates, or pull in content from Google Slides, Canva, YouTube and more.

Set power cycles, update firmware and manage devices with FUSE - our free-of-charge cloud-based display & software management platform for AV/IT Managers.

Manage multiple displays from the cloud, customizing content in real-time to relate to different teams and regions.

Enhanced safety features including emergency override.
