

INNOVATIVE SOLUTIONS FOR THE RESOURCE SECTOR

CRGL.CA

Chartwell Resource Group Ltd. is a natural resource management services company, providing innovative and professional services to First Nations, Government and Industrial clients.

WHO WE ARE

Chartwell Resource Group Ltd. was formed by the merger of Hedberg and Associates and Chartwell Consultants in 2021. Our company is a leading resource consulting firm that offers a wide range of services to our clients, with a focus on delivering high-quality work and personalized solutions.

With four office locations across the south coast, and personnel across the province, we can serve clients from various industries and geographical regions. Our highly skilled professionals are committed to innovation, efficiency, and exceeding client expectations.

OUR MISSION

Our Mission is to be the most respected resource management consultants in our field by providing the best service possible to our clients and associates.

We do this by exceeding industry standards in on-time and on-budget delivery and being proactive in developing innovative solutions for the resource sector.

We provide mentorship and growth opportunities to all employees, and aspire to grow, but remain a small company at heart.

HOW WE DO IT

Chartwell Resource Group Ltd. has built a reputation of providing quality services to solve challenging issues. Our team strives to deliver solutions that are operationally practical, environmentally responsible and fit within our client's budget.

Our Team Includes:

Road & Bridge Engineers; Professional Biologist; Forestry Professionals; Cruisers; Arborist; GIS & Design Professionals; Project Managers; Design Technologists; Construction Supervisors

SILVICULTURE

CRUISING

FORESTRY - RECREATION - DEVELOPMENT

We excel by offering a comprehensive range of professional services that seamlessly integrate our Biology, Engineering, Silviculture, GIS, and Mapping departments to provide our clients with a superior service package. Our focus is on managing tenures for various forest licensees, including large and small operations such as Community Forests and Woodlots. Our clients are those who appreciate our values of quality, integrity, and innovation. We have a province-wide team of Registered Professional Foresters and Technologists with broad experience across the industry.

Our aim is to build strong relationships with our clients and their communities, fostering trust and understanding to achieve a balanced approach that considers the different stakeholder values and community objectives. Our natural resource management approach prioritizes balancing economic, social, and environmental considerations. We work closely with our clients and communities to ensure that forestry operations are sustainable and responsible while equitably distributing benefits among stakeholders.

We are committed to being part of a team that delivers key objectives or entire projects.

Some of our Clients:

Aspen Planers; BCTS; Whistler Community Forest; Sunshine Coast Community Forest; Lower Cascades Community Forests; Squamish First Nation; Sechelt First Nation; Polygon Homes

OIL & GAS - UTILITIES ENERGY - COMMUNICATION

Chartwell is a leader in developing and managing linear assets, serving private and public organizations. We offer practical solutions for projects that cover multiple jurisdictions, remote locations, and environmental constraints. Our Engineers, Foresters, and Biologists work collaboratively using experience and technology to provide cost-effective solutions to our clients. We specialize in solving complex problems related to timber clearing, road access, and permitting in the unique environment.

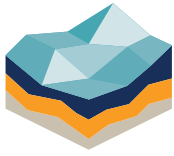

We are industry leaders in using LiDAR data to plan, develop, construct, and manage resource projects, resulting in significant cost savings. Our web mapping tool and data collection system, landPLANNER™, enhances our ability to provide effective solutions.

Chartwell has a proven track record of delivering cost-effective resource management expertise to the oil and gas sector, having contributed to some of BC's largest infrastructure projects. Whether designing and building a new project or maintaining an existing one, Chartwell's expertise in developing in the complex natural environment makes us the solution to your resource management needs.

Some of our Clients:

BC Hydro; Trans- Mountain; Innergex Power; Brookfield Renewable; Fortis; Corus; TELUS

TRACK YOUR ASSETS WITH landPLANNER™

landPLANNER.ca

landPLANNER™ is a secure, web-based, on and off-line productivity-enhancement system geared for resource managers and their teams in the office and in the field.

Any user with a PC, tablet or smartphone can connect and interact with maps and information. With everyone sharing the same data, productivity is vastly improved.

We developed landPLANNER™ to be versatile and scalable for any client in the natural resource sectors. landPLANNER™ for Forestry has been designed by foresters for foresters. As well, landPLANNER™ for Energy has been built based on our experience working with and for electrical transmission and pipeline clients. The functionality is easily customizable, allowing you to utilize the capabilities and tools that you need.
