# Questions During the Webinar

- Use the Questions box to type in your questions throughout the webinar.
- Please make the context of your question clear, as we will be answering questions covering a range of topics (feel free to reference live examples or slide numbers).
- In order to make this webinar useful for all attendees, we will not address site specific or individual problems during this session - please use ECHO's [Contact Us](#) page for help with those questions.

# Webinar Materials

A recording of the webinar and transcript, as well as the presentation slides will be posted on the [ECHO Training Page](#).

## Introduction

- The U.S. Environmental Protection Agency provides public access to its regulatory compliance and enforcement data via the Internet.
- The Enforcement and Compliance History Online (ECHO) website at <https://echo.epa.gov> integrates data from major EPA information systems for public use.

# What is ECHO?

- ECHO is EPA's public website that provides compliance information about regulated facilities.
  - How they are regulated
  - When they were inspected
  - Whether violations of environmental regulations were found
  - Whether an enforcement action was taken
- The website also provides dashboards with views of enforcement and compliance status trends and some bulk datasets for download.

# ECHO Content

## **Compliance history for more than 1,000,000 EPA-regulated facilities**

- Three-year compliance status and 10-year inspection and enforcement history
- EPA and state, local, and tribal environmental agency data for:
  - Clean Air Act stationary sources
  - Clean Water Act permitted dischargers
  - Safe Drinking Water Act public water systems
  - Resource Conservation and Recovery Act hazardous waste handlers

## ECHO Content (continued)

- EPA data for other statutes like Emergency Planning and Community Right-to-Know Act (EPCRA), Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and Toxic Substances Control Act (TSCA):
  - Inspections
  - Enforcement Action Details

## Sources of ECHO Data

ECHO extracts data from other EPA data systems, typically weekly:

- Integrated Compliance Information System (ICIS)
- Resource Conservation and Recovery Act Information System (RCRAInfo)
- Safe Drinking Water Information System (extracted quarterly)
- Facility Registry Service (links EPA-regulated facilities and permits under one ID number)
- Envirofacts: Toxics Release Inventory (TRI) and Greenhouse Gas (GHG) pollutant release data for context; EJScreen data

# Advanced ECHO: Hazardous Waste Webinar

- This webinar will give an overview of the hazardous waste searching capabilities of ECHO.
- We will demonstrate:
  - How to find hazardous waste compliance information for facilities located in areas with potential environmental justice concerns
  - How to keep track of compliance information about facilities
  - How to identify facilities with Toxics Release Inventory (TRI) land releases or waste transfers
  - How to use ECHO to view violations found through compliance monitoring activities
  - How to assess trends in compliance and enforcement activities

Please enter questions you have during the presentation. We will answer them soon.
