

# LUCI

## original sizes

This guide will help you know what your LUCI size is.  
Scale this document so the guide below will fit a credit card size.  
Use a ring of your own to find what your size is.

Place your ring on top the circles and align the inner edge  
of your ring with the BLACK color to identify the size that best fits you.  
This method ensures the closest possible match to your size.

Note that there could be a deviation of up to 0.2  
due to the handcrafted process.
