

Empower and protect your hybrid workforce with HP

All the devices, solutions, and services your government employees need

Creating a successful hybrid work model in your government agency means ensuring seamless collaboration, flexibility, and enhanced productivity and efficiency. With HP, you can do just that. Buying your printers, PCs, and services from HP is more than just efficiency. It is a chance to build a technology ecosystem with strong security and sustainability features that help reduce the need for IT support and brings your distributed workforce closer.

CONTENTS

REDUCE RISK

Create a secure foundation that puts protection first

The HP portfolio of endpoint security is hardware-enforced security and offers robust protection for your PCs, printers, employees and your business, no matter where work takes place.

IMPROVE PRODUCTIVITY

Boost workforce productivity

Providing your employees the flexibility to work from anywhere will not be fruitful until you empower them with devices and services that help them deliver their best work.

BETTER FLEXIBILITY

Easily manage flexible work and distributed devices

Whether it's overseeing remote access, solving new security issues, or updating aging or outdated PC hardware, managing flexible work and remote devices for your distributed workforce is easy with HP.

ENHANCED COLLABORATION

Enable truly effective collaboration from anywhere

HP helps government workers stay connected with devices that enable work from anywhere and solutions that break down barriers to information sharing.

MOST SUSTAINABLE AND JUST

Advance your sustainability goals

HP has earned the #1 spot as America's Most Responsible Company for 2022 according to Newsweek²⁷.

Conclusion

Create a secure foundation that puts protection first

HP Wolf Security

The HP portfolio of endpoint security is hardware-enforced security and offers robust protection for your PCs, printers, employees and your business, no matter where work takes place.¹

HP WOLF SECURITY

Whether or not you have a dedicated IT team, HP Wolf security solutions counter aggressive cyberattacks with powerful software and optional services^{2,3}. From self-healing firmware and in-memory breach detection to threat containment via isolation, HP Wolf Security enables remote recovery from firmware attacks. HP Wolf Security starts at the hardware level and extends across software and services, providing comprehensive endpoint protection and resiliency, rooted in Zero Trust principles.

Application isolation with HP Sure Click⁴

HP Secure Managed Print Services enable layered defenses and resiliency across agencies. An optimized set of hardware, software, and services help IT support to harness the power of improved security in printing and imaging environments with ease.

Application persistence with HP Sure Run⁵

Thwart all malware trying to shut your critical security processes by keeping them up and running with HP Sure Run⁵

Firmware administration with HP Sure Admin⁶

Create a digital signature that allows IT admins to securely manage BIOS over the network, with HP Sure Recover.⁷

Create a secure foundation that puts protection first

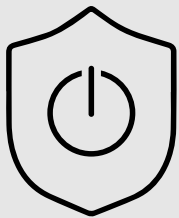

Proactive security that makes a difference

Government workers often handle sensitive data. Working from anywhere or in a hybrid environment can introduce many hidden risks and issues.

Why? Because many home-use printers and laptops lack built-in security features. Additionally, many home-based users have poor personal security habits, raising departmental vulnerabilities to cyber-attacks.

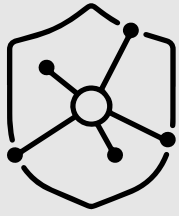

To protect your sensitive data, you can now equip your teams working from homes, offices, or on the go with hardware-embedded secure PCs and printers.

HP Elite Business PCs are engineered with hardware-embedded security features that not only detect and protect but also recover from cyberattacks before they can disrupt your distributed workforce and your business.

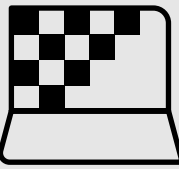

Firmware security and resiliency with HP Sure Start⁸

Automatically recover from firmware attacks or corruption with the world's first self-healing BIOS and restart with a safe copy with HP Sure Start.

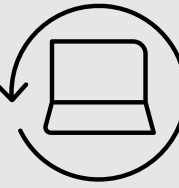

Get Next-gen antivirus with HP Sure Sense⁹

Find and neutralize malware and ransomware with HP Sure Sense⁹ that uses AI to create an intelligent threat defense.

Built-in privacy screen with HP Sure View¹⁰

Shield sensitive information from prying eyes with HP Sure View.

OS resilience with HP Sure Recover⁷

Automatically restore OS without the help of IT support, with HP Sure Recover.

Monitor vulnerabilities with HP Endpoint Security Controller¹¹

Quickly recover your PC from attacks with HP Security Controller that provides an isolated chip acting as a control center to monitor vulnerabilities.

Create a secure foundation that puts protection first

HP Wolf Enterprise Security for printer protection

Streamline your print fleet security policy, ensure compliance, and protect your workflows with HP Wolf Enterprise Security. It protects data and information both on government and personal networks., enabling real-time detection, automated monitoring, and ongoing validation to protect your employees' printers at every phase of operation.

From expert-led services to cloud-enabled workflows, HP Wolf Enterprise Security helps defend against and recover from cyber threats and frees your support staff to focus on critical strategic matters.

HP WOLF SECURITY

HP Print Security Advisory Services

HP's credentialed cyber security experts assess your vulnerabilities and compliance needs, then build a robust security plan to help secure your printers and data.

HP Secure Managed Print Services

HP Secure Managed Print Services enables layered, interdepartmental defenses and resiliency. An optimized set of hardware, software, and services helps government workers easily harness the power of improved security in printing and imaging environments.

HP Managed Print Cloud Services

HP Managed Print Cloud Services help you build a secure, agile workplace with smart, fast, more connected workers working from anywhere.

HP Secure Print and Insights

HP Secure Print and Insights help simplify the agency's print infrastructure with cloud-native architecture that supports zero-trust and internet-only environments, eliminating the need for support staff to manage on-premise servers, print queues, and print drivers. It delivers a simple, convenient, and secure printing to end-users no matter where they are.

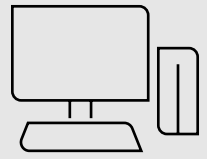

- Make print fleet management easy with comprehensive analytics from dashboards that track where and how print is produced.
- Get visibility into print costs and its environmental impact across the enterprise.
- Enable continual optimization of the print environment.

Boost workforce productivity

HP work from home solutions

Find your work from home flow with a suite of devices and solutions that keep you connected with your agency as you work apart, even in tight spaces, and with tools to help you focus.

Give your distributed employees a simple way to set-up:

Print from any device

Connecting with HP Smart app¹² lets you print right away from your smartphone, tablet, or laptop.

Turn any space into an office

With features like a built-in webcam¹³, collaboration keys, four convertible use modes and touch display, HP laptops can adapt to your requirements.

Connect with ease

For employees who need a flexible solution for easy docking and undocking to work from various spaces, HP's E-series monitors, USB-C¹⁴ docks, wireless mice, and wireless keyboards are the way to go. They can be easily plugged into a desktop or laptop, so you don't waste time connecting and start working immediately.

Boost workforce productivity

HP workforce solutions

90% of workers say they perform better in well-designed spaces¹⁵.

Your workforce has a mix of different employees and user groups: road warriors, power users, and office go-to staff. Each user group has different needs. HP's workforce solutions can help every kind of employee feel comfortable, connected, and supported, wherever they're working from¹⁶.

Mobile road warriors

Managers, team leaders, and those who need the flexibility to work from anywhere fit into this classic road warriors category. HP can help your mobile road warriors feel empowered with flexible solutions for easy docking and un-docking, such as HP EliteBook, HP Elite Monitor, HP Dock, and other wireless accessories.

Power users

Those working with huge amounts of data and running multiple programs simultaneously and pushing their workflow to achieve greater speed, faster iterations, and richer visualization are your power users. Equip them with powerful devices that perform in any location, such as Z by HP, whose mobile Workstation PCs help users excel with even their heaviest workloads.

Office staff

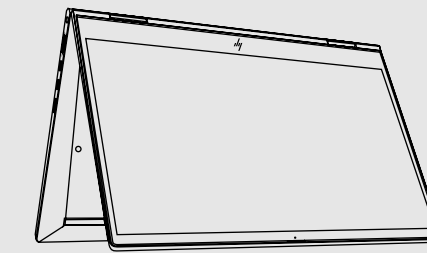

Your operational staff who need or prefer stationary workspace comprise your go-to, get-it-done office crew. Equip them with a comfortable workforce solution that addresses their work needs and personal well-being, such as HP EliteDesk Mini Desktop, HP Elite Monitor, and HP wireless accessories.

Boost workforce productivity

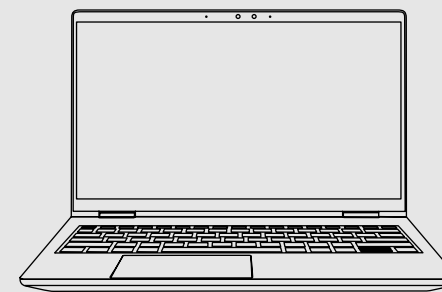

Today work happens from home, office, and even while on the go. Answer the technology needs of every government worker to ensure they deliver their best work wherever they need to be.

Devices to power your hybrid users

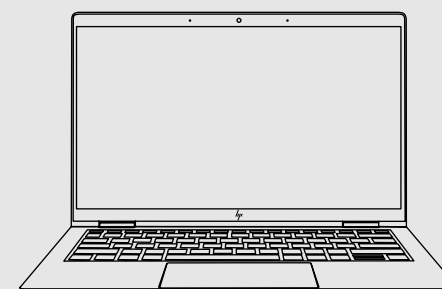

HP Elite Business PCs

The HP Elite laptops have powerful processors to empower your employees to take on the most demanding projects. These laptops are crafted with quality materials to match your work style and come with self-healing, hardware enforced security from HP Wolf Security¹⁶. Complement HP Elite laptops with HP Docks, Displays, and Accessories to help employees make any space a productive office.

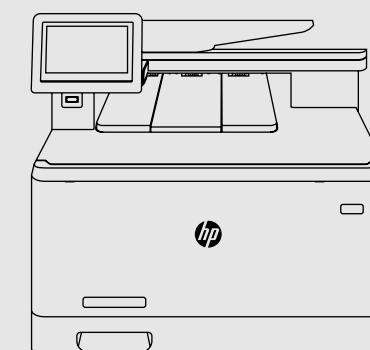

HP ZBook Mobile Workstation PC

Zbook laptops are designed to deliver competitive performance on-the-go for technical and creative professionals. Designed for modern working styles, these devices provide extreme performance for the most-demanding professional workflows, delivering the powerful processing and graphics, cutting-edge design and unrelenting reliability that all workers need to perform at their best.

HP Dragonfly Series

Government employees who work on the go from anywhere with a Wi-Fi connection, be it the airport or the coffee shop, need collaboration technology that enables them to work wherever they are. Weighing less than 1kg, the HP Dragonfly Series laptops have long battery life and enables smooth collaboration in any environment with crisp, clear audio by Bang & Olufsen.

HP LaserJet Enterprise 400 Series

Help employees make the most of their home workspaces with the HP LaserJet Enterprise 400 series. Despite the small size, printers from this series perform as well as any full-size MFP in your office. That's not all- HP LaserJet Enterprise 400 series printers seamlessly integrate with SharePoint[®], Dropbox[™], and Google Drive[™], ensuring you connect paper with digital workflows, ultimately conserving energy, paper-and workspace.

Easily manage flexible work and distributed devices

HP Manageability Services

HP Manageability Services helps simplify and improve end-user device management and deliver a better employee experience across endpoint devices and applications.¹⁸

- 1 Provide multi-vendor, multi-OS device monitoring and management solutions with HP TechPulse analytics platform
- 2 Address issues before they affect end users with the HP TechPulse analytics platform
- 3 Help with deploying apps and software in a consistent, scalable way
- 4 Improve employee experience and engagement
- 5 Reduce time spent on complicated tasks
- 6 Save money on the expenses of endpoint management software licensing

HP offers three Manageability Service offerings:

HP Proactive Insights¹⁹

HP Proactive Insights uses machine learning and AI to identify potential issues so they can be addressed before impacting employee productivity. Receive notifications, hardware inventory, incidents, and system health from the HP Proactive Insights' dashboard, powered by HP TechPulse²⁰.

HP Proactive Insights Experience Management²¹

Take your PC experience a step further with premium service expertise from HP that provides advanced analytics on devices, OS, business applications, networks, and employee sentiment. Easily measure and manage how employees engage with technology across your workplace. Proactively identify IT support roadblocks, and recommend remediations that make problem solving more efficient, optimize costs, and improve employee productivity and satisfaction—wherever they are.

HP Adaptive Endpoint Management²²

Adopt modern management at your own pace by working with our Service Experts to migrate your on-premises infrastructure, applications and existing endpoint management to the cloud. Experience protection that's always on with cloud-based patching for OS and apps.

Easily manage flexible work and distributed devices

HP Managed Print Services

Deliver a seamless printing and scanning experience, no matter where your employees are working with HP Managed Print Services (MPS).

- 1 Make it simple for employees to set up their office printers in any location
- 2 Ensure employees receive supplies replenishment, and print on the go²³
- 3 Enable users to print and digitize information from virtually anywhere on any device without compromising the security of your agency
- 4 Make hybrid print fleet management easier, with cloud-enabled solutions that enhance workflows and provide greater visibility

Easily manage flexible work and distributed devices

HP Managed Print Cloud Services

Transition your print ecosystem to the cloud with a fully managed experience across home, office, public, and shared spaces with HP Managed Print Cloud Services (MPCS).

- 1 HP Managed Print Cloud Services are globally managed
- 2 Delivers an always-on print environment with layered, HP Wolf Security, optimized for your unique needs
- 3 Lower the time, effort and money spent on legacy on-premise infrastructure as you entrust print management to HP Experts, allowing your support staff to focus on true priorities
- 4 HP MPCS print application modules are developed, automated, cost-optimized, and tested for scalability and performance

Easily manage flexible work and distributed devices

HP Managed Print
Cloud Services

HP Flexworker Service

Make managing remote printers as easy as if they were in the office with HP's Flexworker Service, so your workforce can do their best when working from home.

- 1** Provide an enterprise-grade print experience for remote workers
- 2** Get logistical support such as printer provisioning, delivery, and automatic supplies replenishment
- 3** Offer the reassurance of HP Wolf Security and remote manageability
- 4** Get more visibility over supplies, printer, and HP CarePack purchasing process
- 5** Manage supplies for your entire fleet through central billing and consolidated reporting

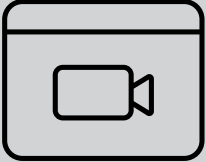

Enable truly effective collaboration from anywhere

HP Presence

HP Presence creates a better way to experience more genuine collaboration through end-to-end solutions, so your agency feels more connected even if they are not together^{5,22}. It provides a better way to see, hear, and share—whether in the same room or not.

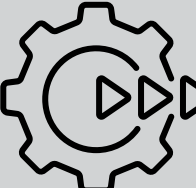

Works with Zoom and Microsoft Teams Rooms

Interacts intuitively with users to provide an intelligent meeting experience

Delivers useful real-time analytics

A suite of scalable, bundled options with hardware and services for meeting spaces of any size

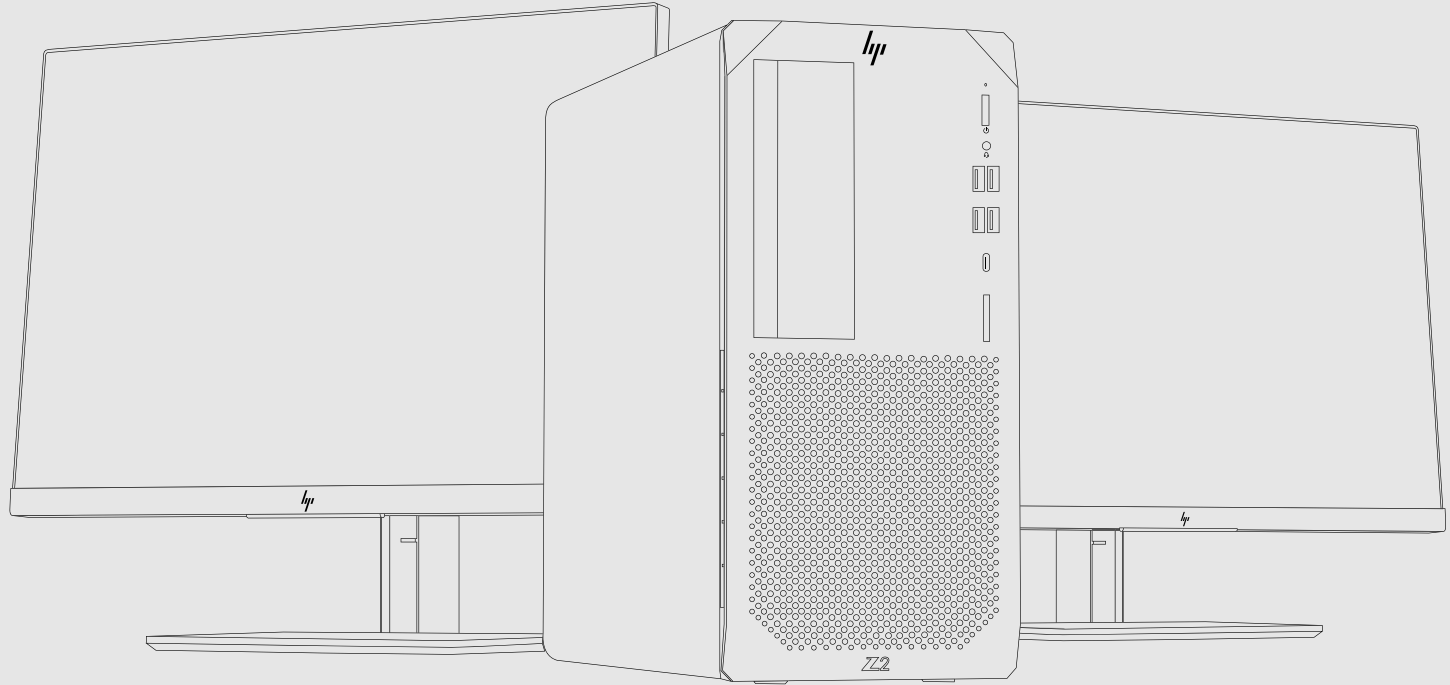

Ongoing enhancement of employee experience with HP Presence Insights¹⁹ by reconfiguring room configurations or relocating underutilized speakers or cameras analytics

Enable truly effective collaboration from anywhere

HP Remote Solutions

HP Remote Solutions is a complete hardware and software solution to power your remote workforce through their heaviest workloads with high-performance workstation laptops, desktops, displays and solutions.

HP Z Displays

Develop and share your projects with a high performance, color accurate conferencing display and experience extraordinary, true-to-life color and see all your projects at once, in stunning detail.

Z by HP Workstations

Z by HP Workstations powers your complex workflows and empowers you to get more done with extremely reliable devices designed for demanding projects²⁵. From data analysis and visualization to real-time rendering, 3D design and animation—Z Workstations drive the heaviest professional workflows. It allows your hybrid workforce to access the power of Z workstation by downloading the ZCentral Remote Boost Software.

Enable truly effective collaboration from anywhere

HP Document Workflow Cloud Solutions

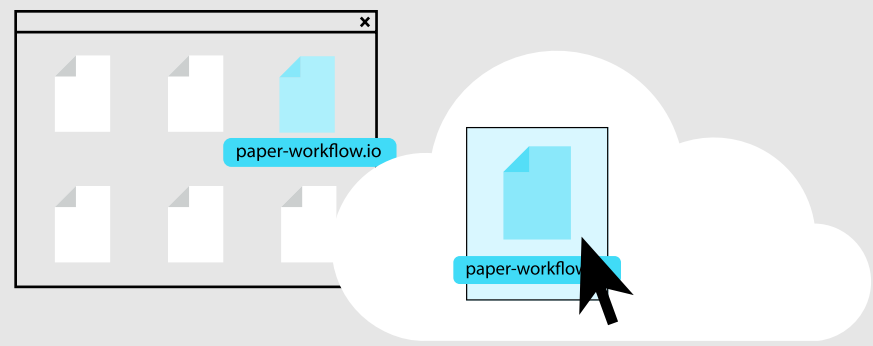

Empower your workforce with an integrated portfolio of digital workflow solutions and smart content management to improve productivity. HP Document Workflow Cloud solutions ensure information flows effortlessly across your agency and is instantly accessible from anywhere.

HP Intelligent Capture Software

HP Intelligent Capture gives your workforce the power to extract content from any physical or digital source using any device.

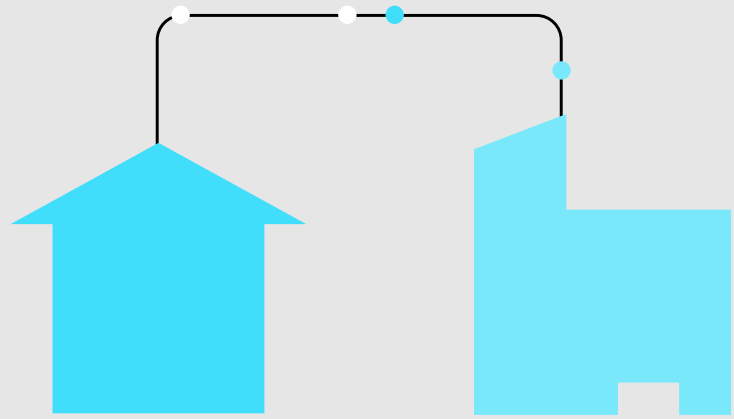

- Offers powerful data capture with easy integration into cloud workflows
- Allows instant data classification and routing via the cloud
- Store and integrate information into existing workflows or build new workflow solutions

HP Intelligent Workflows Software

HP Intelligent Workflows enable smart and secure content management that helps ensure the effortless flow of information across your agency.

- Helps make content accessible from anywhere, and users can easily design secure custom workflows to suit their needs
- Smart document management removes barriers from the flow of information
- Streamlines operational processes quickly to automate tedious tasks, saving time for both support staff and end-users

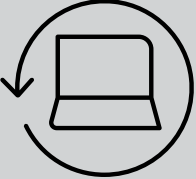

Advance your sustainability goals

HP is committed to combating climate change and works to reduce climate change impacts across its supply chain, operations, products, and solutions.

Two-thirds of Americans are eager to see the public sector embrace sustainable business practices. HP offers government departments and agencies end-of-use services for your devices, allowing you to phase out devices securely and responsibly and helping to reduce environmental impact.²⁶

In recognition of these efforts, HP has earned the #1 spot as America’s Most Responsible Company for 2023 according to Newsweek²⁷.

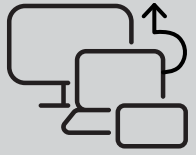

HP Device Recovery Service²⁸

This service securely retires your end-of-use devices with expert data erasure and device re-purposing that drives a more sustainable, circular economy.

HP Sanitization Service¹¹

Secure your information and get peace-of-mind by having HP completely erase data and destroy stored media from old PCs and devices in accordance with latest industry standards.

HP Deinstallation Service¹¹

This service helps with deinstallation tasks on old PCs and devices, before new ones are deployed.

HP Recycling Service³¹

This service ensures responsible recycling of your end-of-use devices by removing precious metals and plastics.

Advance your sustainability goals

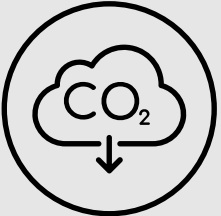

Print Sustainability Assessment Service

HP Carbon Neutral Managed Print Services³¹

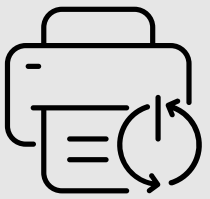

To assist your government agency in this regard, HP offers a unique platform called SIRA (Sustainable Impact Reporting & Analytics) that shows how your fleet is performing, allowing you to measure progress and unlock optimization opportunities.^{29,30}

With data from SIRA, you will get actionable insights into how you can take immediate steps towards lowering your carbon emissions.

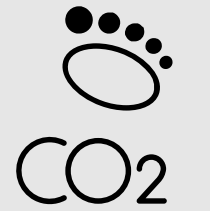

Insights on your fleet's total CO₂ emissions and QoQ emission reductions

An analysis of the reductions achieved with Instant On and duplex printing across your MPS printer fleet

An overview of your print carbon footprint and number of offsets purchased on your behalf to provide you with a carbon neutral print service

Recommendations on the actions to take to optimize your fleet and further reduce your printing carbon footprint

Advance your sustainability goals

HP Carbon Neutral Managed Print Services³¹

HP offers comprehensive carbon-neutral Managed Print Services, (MPS), making it simple for government agencies to advance sustainability goals and be more productive without any disruption.

With environmental impact considered across the value chain, HP Carbon Neutral MPS covers the lifecycle emissions of everything from raw material extraction, manufacturing, transportation, use, and end of service care.

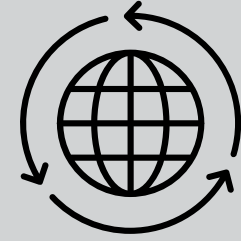

Advance your sustainability goals

HP Carbon Neutral
Managed Print
Services³¹

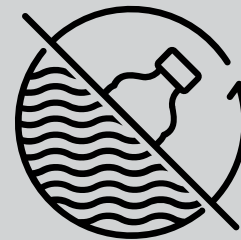

Tackling ocean plastics
in the supply chain

In 2021, HP manufactured over 5.4 billion Original HP and Samsung cartridges using a cumulative **134,000 tonnes** of recycled plastic, including from recycled HP Cartridges.

This has kept post-consumer or post-industrial recycled plastic content **962 million** Original HP Cartridges and an estimated **143 million** apparel hangers and **5.5 billion** postconsumer plastic bottles out of landfills, instead upcycling these materials for continued use.³²

HP use ocean-bound plastics (OBP) in an increasing number of products across their portfolio, and have launched more than 300 new products around the world that contain small quantities of OBP since 2017.³³

Conclusion

As your agency moves to a hybrid workplace model, you need the right devices, services, and technology to manage your increasingly flexible offices and bridge the gap between the physical and digital offices.

Embracing new solutions will support your hybrid workforce to stay productive and achieve success, no matter where they are working from. Ultimately, the goal is enhanced productivity, collaboration, security, and ease of management. HP enables all this and more in a sustainable manner, giving you a competitive edge above the rest.

1 HP Wolf Enterprise Security is an optional service and may include offerings such as HP Sure Click Enterprise and HP Sure Access Enterprise. HP Sure Click Enterprise requires Windows 8 or 10 and Microsoft Internet Explorer, Google Chrome, Chromium or Firefox are supported. Supported attachments include Microsoft Office (Word, Excel, PowerPoint) and PDF files, when Microsoft Office or Adobe Acrobat are installed. HP Sure Access Enterprise requires Windows 10 Pro or Enterprise. HP services are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product. For full system requirements, please visit www.hpdaas.com/requirements.

2 HP Wolf Security for Business requires Windows 10 or 11 Pro and higher, includes various HP security features and is available on HP Pro, Elite, RPOS and Workstation products. See product details for included security features.

3 HP Services are sold separately and are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.

4 HP Sure Click requires Windows 10. See SureClick for complete details.

5 HP Sure Run is available on select HP PCs and requires Windows 10.

6 HP Sure Admin requires Windows 10, HP BIOS, HP Manageability Integration Kit from <http://www.hp.com/go/clientmanagement> and HP Sure Admin Local Access Authenticator smartphone app from the Android or Apple store.

7 HP Sure Start Gen6 is available on select HP PCs and requires Windows 10.

8 See product specifications for availability. Requires an open, wired network connection. Not available on platforms with multiple internal storage drives. You must back up important files, data, photos, videos, etc. before using HP Sure Recover to avoid loss of data. HP Sure Recover (Gen1) does not support platforms with Intel® Optane™.

9 HP Sure Sense is available on select HP PCs and requires Windows 10 Pro or Enterprise.

10 HP Sure View integrated privacy screen is an optional feature that must be configured at purchase and is designed to function in landscape orientation.

11 HP Wolf Security Controller is a management and analytics platform that provides critical data around devices and applications and is not sold as a standalone service. HP Wolf Security Controller follows stringent GDPR privacy regulations and is ISO27001, ISO27017 and SOC2 Type2 certified for Information Security. Internet access with connection to the HP Cloud is required. For full system requirements, please visit <https://www.hpdaas.com/requirements>.

12 Requires the HP Smart app download. For details on local printing requirements see hp.com/go/mobileprinting. Certain features/software are available in English language only.

13 Webcam available on select platforms only and requires configuration at purchase. Internet service required and sold separately.
