

# HP Wolf Pro Security

## Datasheet

HP WOLF SECURITY

Comprehensive PC security, made simple.

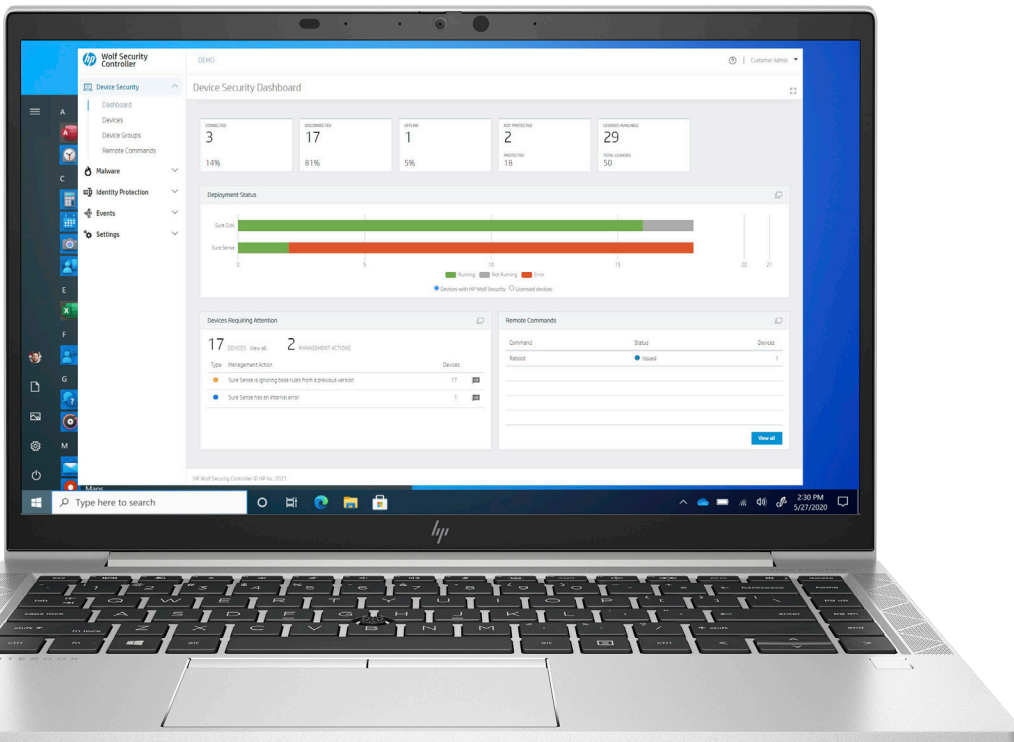

Small to mid-sized businesses are vulnerable to cyberattacks, including phishing and ransomware due to insufficient security staffing and training. These attacks lead to costly problems, including compromised systems, stolen data, and lengthy downtime.

HP Wolf Pro Security (WPS)<sup>®</sup> helps small to mid-sized businesses overcome these challenges with a simple solution that delivers maximum security coverage without increasing IT's workload or disrupting employee productivity.

### Simple security that's easy to deploy and operate

HP WPS is a full-suite endpoint security solution built with simplicity in mind. It includes straightforward policy management, effortless solution maintenance, and ongoing alert management, making it easy to deploy and manage.

### HP Wolf Security Controller

**Cloud-based controller**, known as the HP Wolf Security Controller<sup>1</sup>, offers a central command center for managing the security and health of the business's entire fleet of PCs giving admins the ability to adjust security policies and review threat insights from anywhere.

**Pre-configured "out-of-the-box" policies** enable speedy deployment, are easy to understand and require little ongoing tuning for most environments.

**Ongoing security alerts** make end-users aware of malicious activity, giving them notice only when their attention is needed and making it easy to identify suspicious activity on the PC.

## Protect Employees without slowing them down

Employees are not security experts, and expecting them to be always “on the alert” to spot social engineering attacks is unrealistic. Security measures that impede employees from doing their jobs will not suffice for any business that expects its employees to work securely and be productive.

HP WPS provides comprehensive endpoint security that protects PC users, giving employees a positive user experience, resulting in improved productivity while still working to keep their data, passwords, and the business’ systems safe.

**Employees can work without worry** with a security solution that works behind the scenes, without impeding their day-to-day tasks.

**Employees can stop acting as “security sensors” and open attachments and links with confidence**, knowing that HP WPS uses threat containment technology to isolate threats.

**Employees can work securely from anywhere** with threat containment technology that works even when the PC is disconnected from the Internet, ensuring always-on protection.

## Trustworthy protection that’s proven in the wild

HP WPS uses security technology that’s been proven to successfully protect HP customers. PCs with HP’s Wolf Security technology has opened over 10 billion email attachments, web pages, and downloads without a reported compromise.

HP WPS includes three capabilities, all managed via the Wolf Security Controller.

**Hardware-enforced threat containment<sup>2</sup>** isolates and contains malware attacks via social engineering or other methods, preventing it from infecting the PC, or anything else on the network.

**Anti-phishing credential protection** prevents credential theft by blocking phishing attacks attempting to trick users into entering their passwords on fake websites.

**Next-generation antivirus** detects emerging threats with deep learning AI, in addition to stopping known malware.

## The benefits of a simple security solution designed for ease of use and employee productivity

HP Wolf Pro Security is best suited for businesses seeking to focus IT support investment and staff on maximizing user experience and productivity. By replacing traditional antivirus with HP WPS, the organization is better protected, and the requirement for keeping security experts on staff is reduced, freeing up resources to focus on higher-value tasks.

**Low level of effort for deployment, and ongoing maintenance is centralized and simplified**

**Lower risk with a prevention-first approach to endpoint security, including real-time AI protection and zero-trust, hardware-enforced isolation**

## Flexible options for any situation

HP Wolf Pro Security is available in multiple consumption options to deliver a consistent security solution that fits your needs. Buy it pre-loaded on HP Wolf Pro Security Edition PCs<sup>3</sup> or as a standalone software.<sup>4</sup> It is also available for non-HP PCs, giving you greater flexibility to deploy enterprise-grade security on the device of your choice.

# HP Wolf Security system requirements and components

<b>HP Wolf Security Controller</b>	Available for all customer installations of at least 25 PCs.
<b>Security Software Elements</b>	HP Wolf Pro Security client for Windows and HP Wolf Security cloud controller (cloud)
<b>Supported Operating Systems</b>	Windows 10/11 Home 64-bit, Windows 10/11 Pro 64-bit; Windows 10/11 Enterprise; Windows 10/11 Enterprise LTSC
<b>Memory/Disk Space Required</b>	Minimum 8 GB of system memory (16GB recommended) / 10-20 GB of free disk space
<b>Language Support (endpoint)</b>	English, Dutch, French, German, Italian, Japanese, Portuguese (Brazilian), Spanish, Swedish, Serbian, Croatian, Bulgarian, Lithuanian, Thai, Greek, Traditional Chinese, Czech, Turkish, Danish, Finnish, Hungarian, Norwegian, Russian, Polish, Portuguese (Portugal), Romanian, Slovenian, Latvian, Ukrainian, Estonian, Slovakian, Korean, Simplified Chinese
<b>Language Support (controller)</b>	English, Dutch, French, German, Italian, Japanese, Portuguese (Brazilian), Spanish, Swedish
<b>Network Requirements</b>	An internet connection is required for communications between the managed device and the cloud management service for threat analytics. Protection will function normally while offline, however, and do not require network connectivity.
<b>Onboarding Requirements</b>	To use the service, it needs to be registered after purchase following the instructions from HP. During the onboarding process, you will be required to provide information needed to set up the accounts and security policies.
<b>Terms of Service for HP Wolf Pro Security Edition</b>	HP Wolf Pro Security Edition is available preloaded on select SKUs and, depending on the HP product purchased, includes a paid 1-year or 3-year license. The HP Wolf Pro Security Edition software is licensed under the license terms of the HP Wolf Security Software - End-User license Agreement (EULA) that can be found at: <a href="https://support.hp.com/us-en/document/ish_3875769-3873014-16">https://support.hp.com/us-en/document/ish_3875769-3873014-16</a> as that EULA is modified by the following: "7. Term. Unless otherwise terminated earlier pursuant to the terms contained in this EULA, the license for the HP Wolf Pro Security Edition is effective upon 4 months after the date the HP Product was shipped by HP and will continue for the term communicated to you at purchase and in your order confirmation email ("Initial Term"). At the end of the Initial Term you may either (a) purchase a renewal license for the HP Wolf Pro Security Edition from HP.com, HP Sales or an HP Channel Partner, or (b) continue using the standard versions of HP Sure Click and HP Sure Sense at no additional cost with no future software updates or HP Support. Notwithstanding the foregoing, the license shall expire no later than one year after the fixed term of the subject license ends."
<b>for HP Wolf Pro Security (Subscription)</b>	HP Wolf Pro Security is available as a yearly subscription. Every year, the credit card you provide will be automatically charged \$36.00 + tax per quantity ordered unless you cancel your subscription. You may cancel your subscription by emailing <a href="mailto:smbcs@hp.com">smbcs@hp.com</a> with "cancel WPS" in the subject line; or, beginning in early 2022, you will also be able to cancel your subscription within your online account by going to My Subscriptions, then Manage My Subscriptions. Cancellations must be submitted at least two (2) business days prior to your auto-renewal date. For complete terms of service see <a href="https://www.hp.com/us-en/shop/cv/wolfprosecuritysubscriptiontermsofservice">https://www.hp.com/us-en/shop/cv/wolfprosecuritysubscriptiontermsofservice</a> .
