Non-GAAP Financial Measures

To supplement its consolidated financial statements, which are prepared and presented in accordance with U.S. GAAP, Wix uses the following non-GAAP financial measures: collections, non-GAAP gross margin, non-GAAP operating income (loss), free cash flow, non-GAAP net income (loss) and non-GAAP net income (loss) per share (collectively the "Non-GAAP financial measures"). Collections represents the total cash collected by us from our customers in a given period and is calculated by adding the change in deferred revenues for a particular period to revenues for the same period. Non-GAAP gross margin represents gross profit calculated in accordance with GAAP as adjusted for the impact of share-based compensation expense, amortization, and acquisition-related costs. Non-GAAP net income (loss) represents net loss calculated in accordance with GAAP as adjusted for the impact of share-based compensation expense, amortization, tax benefit related to exercise of options and acquisition-related costs. Non-GAAP net income (loss) per share represents non-GAAP net income (loss) divided by the weighted average number of shares used in computing GAAP loss per share. Free cash flow represents net cash provided by (used in) operating activities less capital expenditures.

The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. The Company uses these non-GAAP financial measures for financial and operational decision making and as a means to evaluate period-to-period comparisons. The Company believes that these measures provide useful information about operating results, enhance the overall understanding of past financial performance and future prospects, and allow for greater transparency with respect to key metrics used by management in its financial and operational decision making.

For more information on the non-GAAP financial measures, please see the "Reconciliation of GAAP to Non-GAAP Financial Measures" table in this press release. This accompanying table has more details on the GAAP financial measures that are most directly comparable to non-GAAP financial measures and the related reconciliations between these financial measures. The Company has not reconciled its guidance as to free cash flow to cash flow from operations because it does not provide guidance for cash flow from operations. As items that impact cash flow from operations are out of the Company's control and/or cannot be reasonably predicted, the Company is unable to provide such guidance. Accordingly, a reconciliation to cash flow from operations is not available without unreasonable effort.

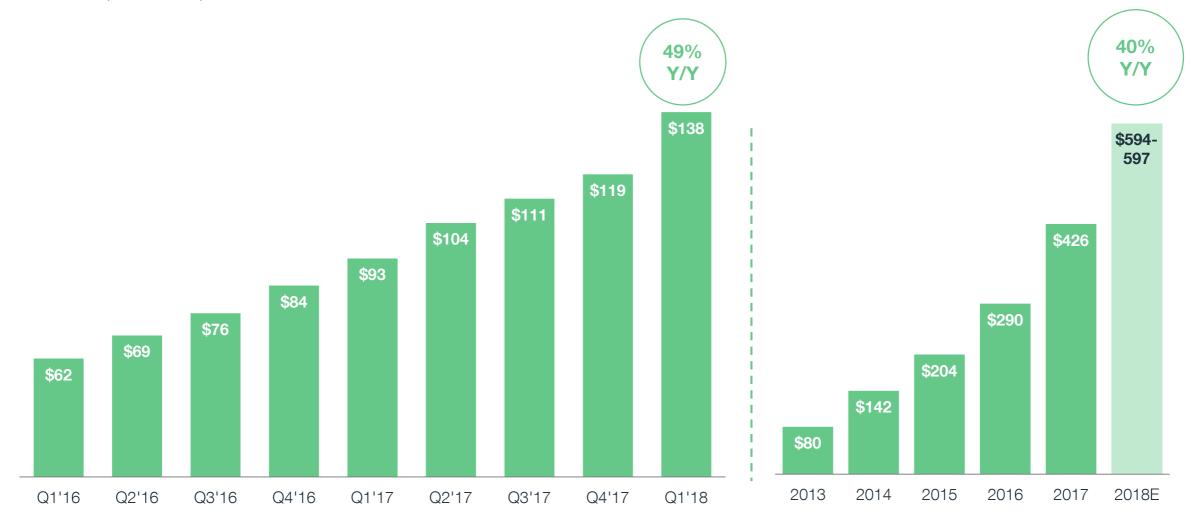

Forward-Looking Statements

This press release contains forward-looking statements, within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties. Such forward-looking statements may include projections regarding our future performance, including, but not limited to revenue, collections and free cash flow, the availability, merchantability or functionality of certain new products or features and their anticipated product demand and customer satisfaction, and may be identified by words like "anticipate," "assume," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "outlook," "future," "will," "seek" and similar terms or phrases. The forward-looking statements contained in this press release, including the full year guidance, are based on management's current expectations, which are subject to uncertainty, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Important factors that could cause our actual results to differ materially from those indicated in the forward-looking statements include, among others, our ability to grow our user base and premium subscriptions; our ability to maintain and enhance our brand and reputation; our ability to manage the growth of our infrastructure effectively; our prediction of the future collections generated by our user cohorts; our ability to effectively execute our initiatives to scale and improve our user support function; customer acceptance of new products and other challenges inherent in new product development, changes to technologies used in our solutions or in global, national, regional or local economic, business, competitive, market, regulatory and other factors discussed under the heading "Risk Factors" in the Company's 2017 annual report on Form 20-F filed with the Securities and Exchange Commission on March 29, 2018. Any forward-looking statement made by us in this press release speaks only a
