THE VIRGINIA REGISTER

OF REGULATIONS

VA
DOC

VOLUME THIRTEEN • ISSUE TEN

FEBRUARY 3, 1997

1997

Pages 1053 Through 1116

THE VIRGINIA REGISTER is an official state publication issued every other week throughout the year. Indexes are published quarterly, and the last index of the year is cumulative. **THE VIRGINIA REGISTER** has several functions. The new and amended sections of regulations, both as proposed and as finally adopted, are required by law to be published in **THE VIRGINIA REGISTER OF REGULATIONS**. In addition, **THE VIRGINIA REGISTER** is a source of other information about state government, including all emergency regulations and executive orders issued by the Governor, the Virginia Tax Bulletin issued periodically by the Department of Taxation, and notices of public hearings and open meetings of state agencies.

ADOPTION, AMENDMENT, AND REPEAL OF REGULATIONS

An agency wishing to adopt, amend, or repeal regulations must first publish in the *Virginia Register* a notice of intended regulatory action; a basis, purpose, substance and issues statement; an economic impact analysis prepared by the Department of Planning and Budget; the agency's response to the economic impact analysis; a summary; a notice giving the public an opportunity to comment on the proposal; and the text of the proposed regulation.

Following publication of the proposal in the *Virginia Register*, the promulgating agency receives public comments for a minimum of 60 days. The Governor reviews the proposed regulation to determine if it is necessary to protect the public health, safety and welfare, and if it is clearly written and easily understandable. If the Governor chooses to comment on the proposed regulation, his comments must be transmitted to the agency and the Registrar no later than 15 days following the completion of the 60-day public comment period. The Governor's comments, if any, will be published in the *Virginia Register*. Not less than 15 days following the completion of the 60-day public comment period, the agency may adopt the proposed regulation.

The appropriate standing committee of each branch of the General Assembly may meet during the promulgation or final adoption process and file an objection with the Registrar and the promulgating agency. The objection will be published in the *Virginia Register*. Within 21 days after receipt by the agency of a legislative objection, the agency shall file a response with the Registrar, the objecting legislative committee, and the Governor.

When final action is taken, the agency again publishes the text of the regulation as adopted, highlighting all changes made to the proposed regulation and explaining any substantial changes made since publication of the proposal. A 30-day final adoption period begins upon final publication in the *Virginia Register*.

The Governor may review the final regulation during this time and, if he objects, forward his objection to the Registrar and the agency. In addition to or in lieu of filing a formal objection, the Governor may suspend the effective date of a portion or all of a regulation until the end of the next regular General Assembly session by issuing a directive signed by a majority of the members of the appropriate standing committees and the Governor. The Governor's objection or suspension of the regulation, or both, will be published in the *Virginia Register*. If the Governor finds that changes made to the proposed regulation have substantial impact, he may require the agency to provide an additional 30-day public comment period on the changes. Notice of the additional public comment period required by the Governor will be published in the *Virginia Register*.

The agency shall suspend the regulatory process for 30 days when it receives requests from 25 or more individuals to solicit additional public comment, unless the agency determines that the changes have minor or inconsequential impact.

A regulation becomes effective at the conclusion of the 30-day final adoption period, or at any other later date specified by the promulgating agency, unless (i) a legislative objection has been filed, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 21-day extension period; (ii) the Governor exercises his authority to require the agency to provide for additional public comment, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the period for which the Governor has provided for additional public comment; (iii) the

Governor and the General Assembly exercise their authority to suspend the effective date of a regulation until the end of the next regular legislative session; or (iv) the agency suspends the regulatory process, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 30-day public comment period.

Proposed regulatory action may be withdrawn by the promulgating agency at any time before the regulation becomes final.

EMERGENCY REGULATIONS

If an agency demonstrates that (i) there is an immediate threat to the public's health or safety; or (ii) Virginia statutory law, the appropriation act, federal law, or federal regulation requires a regulation to take effect no later than (a) 280 days from the enactment in the case of Virginia or federal law or the appropriation act, or (b) 280 days from the effective date of a federal regulation, it then requests the Governor's approval to adopt an emergency regulation. The emergency regulation becomes operative upon its adoption and filing with the Registrar of Regulations, unless a later date is specified. Emergency regulations are limited to addressing specifically defined situations and may not exceed 12 months in duration. Emergency regulations are published as soon as possible in the *Register*.

During the time the emergency status is in effect, the agency may proceed with the adoption of permanent regulations through the usual procedures. To begin promulgating the replacement regulation, the agency must (i) deliver the Notice of Intended Regulatory Action to the Registrar in time to be published within 60 days of the effective date of the emergency regulation; and (ii) deliver the proposed regulation to the Registrar in time to be published within 180 days of the effective date of the emergency regulation. If the agency chooses not to adopt the regulations, the emergency status ends when the prescribed time limit expires.

STATEMENT

The foregoing constitutes a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Article 2 (§ 9-6.14:7.1 et seq.) of Chapter 1.1:1 of the Code of Virginia be examined carefully.

PUBLIC COMMENT PERIODS - PROPOSED REGULATIONS

PUBLIC COMMENT PERIODS REGARDING STATE AGENCY REGULATIONS

Effective July 1, 1995, publication of notices of public comment periods in a newspaper of general circulation in the state capital is no longer required by the Administrative Process Act (§ 9-6.14:1 et seq. of the Code of Virginia). Chapter 717 of the 1995 Acts of Assembly eliminated the newspaper publication requirement from the Administrative Process Act. In *The Virginia Register of Regulations*, the Registrar of Regulations has developed this section entitled "Public Comment Periods - Proposed Regulations" to give notice of public comment periods and public hearings to be held on proposed regulations. The notice will be published once at the same time the proposed regulation is published in the Proposed Regulations section of the *Virginia Register*. The notice will continue to be carried in the Calendar of Events section of the *Virginia Register* until the public comment period and public hearing date have passed.

Notice is given in compliance with § 9-6.14:7.1 of the Code of Virginia that the following public hearings and public comment periods regarding proposed state agency regulations are set to afford the public an opportunity to express their views.

STATE AIR POLLUTION CONTROL BOARD

March 11, 1997 - 10 a.m. -- Public Hearing
Department of Environmental Quality, 629 East Main Street,
First Floor, Training Room, Richmond, Virginia.

April 4, 1997 -- Written comments may be submitted until
4:30 p.m. on this date.

Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Air Pollution Control Board intends to adopt regulations entitled: **9 VAC 5-500-10 et seq. Exclusionary General Permit for Federal Operating Permit Program.** The proposed general permit provides a legally enforceable mechanism for major sources subject to the federal operating permit program (Article 1 of 9 VAC 5 Chapter 80) to be excluded from the program provided they maintain their actual annual emissions at a level that is 75% of the major source, potential to emit applicability thresholds for the federal operating permit program. The regulation does not require any owner to apply for coverage under the general permit but provides the opportunity for an owner to apply for coverage if the stationary source meets the 75% of the threshold criteria and all other requirements of the regulation.

Request for Comments: The purpose of this notice is to provide the public with the opportunity to comment on the proposed general permit.

Localities Affected: There is no locality which will bear any identified disproportionate material air quality impact due to the proposed regulation which would not be experienced by other localities.

Location of Proposal: The proposal and any other supporting documents may be examined by the public at the department's Office of Air Program Development (Eighth Floor), 629 East Main Street, Richmond, Virginia, and the Department's regional offices (listed below) between 8:30 a.m. and 4:30 p.m. of each business day until the close of the public comment period.

STATE AIR POLLUTION CONTROL BOARD

REGISTRAR'S NOTICE: Section 9-6.14:4.1 C 11 of the Code of Virginia excludes from Article 2 of the Administrative Process Act general permits issued by the State Air Pollution Control Board pursuant to Chapter 13 (§ 10.1-1300 et seq.) of Title 10.1 of the Code of Virginia if the board proceeds under the following conditions: (i) provides a Notice of Intended Regulatory Action (NOIRA) in conformance with the provisions of § 9-6.14:7.1 B; (ii) no less than 30 days from publication of the NOIRA, forms a technical advisory committee composed of relevant stakeholders, including potentially affected citizens groups, to assist in the development of the general permit; (iii) provides notice and receives oral and written comment as provided in § 9-6.14:7.1 F; and (iv) conducts at least one public hearing on the proposed general permit. The State Air Pollution Control Board will receive, consider and respond to petitions by any interested person at any time with respect to reconsideration or revision.

Title of Regulation: 9 VAC 5-500-10 et seq. Exclusionary General Permit for Federal Operating Permit Program.

Statutory Authority: § 10.1-1308 of the Code of Virginia.

Public Hearing Date: March 11, 1997 - 10 a.m.

Public comments may be submitted until April 4, 1997.
(See Calendar of Events section
for additional information)

Summary:

Sources that are subject to the federal operating permit program (Article 1 (9 VAC 5-80-50 et seq.) of Part II of 9 VAC 5 Chapter 80), promulgated to meet the requirements of Title V of the Clean Air Act, because they are a major source may be excluded, upon request, from the federal operating permit program if their actual emissions are kept below levels that represent 75% of the major source thresholds for the federal operating permit program. Sources choosing to operate under the general permit must submit annual emissions data, along with a compliance certification, to confirm that their emissions remain below the 75% emissions level. Should a source exceed the 75% emissions level there would be no enforcement actions or penalties; however, the source would be subject to the federal operating permit program unless their potential to emit could be limited by a state operating permit.

CHAPTER 500. EXCLUSIONARY GENERAL PERMIT FOR FEDERAL OPERATING PERMIT PROGRAM.

PART I. DEFINITIONS.

9 VAC 5-500-10. General.

A. For the purpose of this chapter or any orders issued by the board, the words or terms shall have the meanings given them in 9 VAC 5-500-20.

B. Unless specifically defined in the Virginia Air Pollution Control Law (§ 10.1-1300 of the Code of Virginia) or in this chapter, terms used shall have the meaning given them by 9 VAC 5-80-60 (definitions, federal operating permit), 9 VAC 5-10-20 (general definitions, Regulations for the Control and Abatement of Air Pollution), or commonly ascribed to them by recognized authorities, in that order of priority.

9 VAC 5-500-20. Terms defined.

"Actual emissions" means the actual emissions of a pollutant from a stationary source or emissions unit reflecting the rate, in tons per year, at which the source or unit actually emitted the pollutant during the most recent annual period. Actual emissions shall be calculated using the source or unit's actual operating hours; production rates; and types of materials processed, stored, or combusted during the annual period. Valid continuous emission monitoring data or source test data shall be preferentially used to determine actual emissions. In the absence of valid continuous emissions monitoring data or source test data, the basis for determining actual emissions shall be any or all of the following as may be determined by the department: throughputs of process materials; throughputs of materials stored; usage of materials; data provided in manufacturer's product specifications, material volatile organic compound content reports or laboratory analyses; other information required by this chapter and other regulations of the board; or information requested in writing by the department. All calculations of actual emissions shall use U.S. Environmental Protection Agency or department approved methods, including emission factors and assumptions.

"Annual period" means a period of 12 consecutive months determined on a rolling basis with a new 12-month period beginning on the first day of each calendar month.

"Federal operating permit" means a permit issued pursuant to Article 1 (9 VAC 5-80-50 et seq.) or Article 3 (9 VAC 5-80-360 et seq.) of Part II of 9 VAC 5 Chapter 80.

"General permit" means the terms and conditions in Part IV (9 VAC 5-500-150 et seq.) of this chapter that meet the requirements of Part III (9 VAC 5-500-90 et seq.) of this chapter.

Proposed Regulations

"New source review program" means a program for the preconstruction review and permitting of new stationary sources or emissions units or expansions to existing ones in accordance with regulations promulgated to implement the requirements of §§ 110(a)(2)(C) (42 USC § 7410(a)(2)(C)), 165 (42 USC § 7475) and 173 (42 USC § 7503) of the federal Clean Air Act.

"Nonattainment pollutant" means volatile organic compounds or nitrogen oxides (NO_x).

"Regulation of the board" means any regulation adopted by the State Air Pollution Control Board under any provision of the Code of Virginia.

"Regulations for the Control and Abatement of Air Pollution" means 9 VAC 5-10-10 et seq. through 9 VAC 5-80-10 et seq.

"State operating permit" means a permit issued pursuant to 9 VAC 5-80-40.

PART II. GENERAL PROVISIONS.

9 VAC 5-500-30. Purpose.

A. The purpose of the exclusionary general permit is to provide a legally enforceable mechanism for major sources subject to the federal operating permit program (Article 1 (9 VAC 5-80-50 et seq.) of Part II of 9 VAC 5 Chapter 80) to be excluded from the program provided they maintain their actual annual emissions at a specified level that is less than the potential to emit applicability thresholds for the federal operating permit program. This is one of two alternative permit mechanisms the State Air Pollution Control Board has to accomplish this purpose; the other is a state operating permit program (9 VAC 5-80-40).

B. This chapter does not require any owner to apply for coverage under the general permit but provides the opportunity for an owner to apply for coverage if the stationary source meets the criteria in 9 VAC 5-500-90 A and all other requirements of this chapter.

9 VAC 5-500-40. Applicability.

A. Except as provided in subsection E of this section, this chapter applies to any major source.

B. This chapter applies throughout the Commonwealth of Virginia.

C. This chapter applies only to regulated air pollutants.

D. This chapter shall not apply to the following stationary sources:

1. Any stationary source that has applied for a federal operating permit in a timely manner and in conformance with Article 1 (9 VAC 5-80-50 et seq.) or Article 3 (9 VAC 5-80-360 et seq.) of Part II of 9 VAC 5 Chapter 80 and is awaiting final action by the board.

2. Any stationary source required to obtain a federal operating permit under Article 1 (9 VAC 5-80-50 et seq.) or Article 3 (9 VAC 5-80-360 et seq.) of Part II of 9 VAC 5 Chapter 80 for any reason other than being a major

source. This includes, but is not limited to, the following: any source, including an area source, subject to any standard or other requirement adopted pursuant to § 111 or § 112 of the federal Clean Air Act (42 USC § 7411 or 42 USC § 7412).

3. Any stationary source which has a valid federal operating permit.

4. Any stationary source which has a valid state operating permit with federally enforceable conditions or other federally enforceable limits limiting its potential to emit below the applicable thresholds for a major source.

E. Notwithstanding subdivisions D 1 and D 3 of this section, nothing in this section shall prevent any stationary source which has had a federal operating permit from obtaining an authorization to operate under the general permit in lieu of maintaining an application for a federal operating permit or upon rescission of a federal operating permit if the owner demonstrates that the stationary source meets the criteria in 9 VAC 5-500-90 A for two annual periods (24 consecutive months).

F. Notwithstanding subdivision D 4 of this section, nothing in this section shall prevent any stationary source which has had a state operating permit from obtaining an authorization to operate under the general permit in lieu of maintaining an application for a state operating permit or upon rescission of a state operating permit if the owner demonstrates that the stationary source meets the criteria in 9 VAC 5-500-90 A for two annual periods (24 consecutive months).

9 VAC 5-500-50. General.

A. Any owner or other person shall operate the stationary source in conformance with all applicable regulations of the board.

B. Sources desiring authority to operate under the general permit shall register with the department as required under 9 VAC 5-20-160 and certify that they will operate in compliance with the provisions of this chapter. All emissions units or groups of emissions units, other than those units identified in 9 VAC 5-80-720, shall be registered.

C. Sources authorized to operate under the general permit shall be exempt from the requirements of 9 VAC 5-80-40 and Articles 1 (9 VAC 5-80-50 et seq.), 2 (9 VAC 5-80-310 et seq.) and 3 (9 VAC 5-80-360 et seq.) of Part II of 9 VAC 5 Chapter 80.

D. No provision of this chapter shall limit the power of the board to issue an operating permit pursuant to 9 VAC 5-80-40.

E. This chapter shall not relieve any stationary source from complying with requirements of (i) any otherwise applicable permit issued pursuant to the new source review program, (ii) any condition or term of any new source review permit, or (iii) any provision of a new source review permit program. This chapter shall not preclude issuance of any new source review permit with conditions or terms necessary to ensure compliance with this chapter.

F. By the adoption of this chapter, the board confers upon the department the administrative, enforcement and decision making authority enumerated therein.

G. The act of granting or denying an application for authority to operate under the general permit shall not be subject to judicial review.

H. Any decisions of the board or department made pursuant to this chapter may be appealed pursuant to 9 VAC 5-20-90 or 9 VAC 5-20-130 B 2.

9 VAC 5-500-60. Existence of permit no defense.

The existence of a permit under this chapter shall not constitute a defense of a violation of the Virginia Air Pollution Control Law or the regulations of the board and shall not relieve any owner of the responsibility to comply with any applicable regulations, laws, ordinances and orders of the governmental entities having jurisdiction.

9 VAC 5-500-70. Circumvention.

A. No owner or other person shall cause or permit the installation or use of any device or any means which, without resulting in reduction in the total amount of air pollutants emitted, conceals or dilutes an emission of air pollutants which would otherwise violate this chapter. Such concealment includes, but is not limited to, either of the following:

1. The use of gaseous diluents to achieve compliance with a visible emissions standard or with a standard which is based on the concentration of a pollutant in gases discharged to the atmosphere.
2. The piecemeal carrying-out of an operation to avoid coverage by a standard that applies only to operations larger than a specified size.

B. This section does not prohibit the construction of a stack.

C. Regardless of the exemptions provided in this chapter, permits shall be required of owners who circumvent the requirements of this chapter by causing or allowing a pattern of ownership or development over a geographic area of a source which, except for the pattern of ownership or development, would otherwise require a permit.

9 VAC 5-500-80. Enforcement of a general permit.

A. The following general requirements apply:

1. Pursuant to § 10.1-1322 of the Code of Virginia, failure to comply with any term or condition of the general permit shall be considered a violation of the Virginia Air Pollution Control Law.
2. Authorization to operate under the general permit may be revoked or terminated if the owner does any of the following:
 - a. Knowingly makes material misstatements in the application for coverage or any amendments thereto.
 - b. Violates, fails, neglects or refuses to comply with (i) the terms or conditions of the permit, (ii) any

applicable requirements, or (iii) the applicable provisions of this chapter.

3. The department may suspend, under such conditions and for such period of time as the department may prescribe, any authorization to operate under the general permit for any of the grounds for revocation or termination contained in subdivision 2 of this subsection or for any other violations of the regulations of the board.

B. The following requirements apply with respect to penalties:

1. An owner who violates, fails, neglects or refuses to obey any provision of this chapter or the Virginia Air Pollution Control Law, any applicable requirement, or any permit term or condition shall be subject to the provisions of § 10.1-1316 of the Virginia Air Pollution Control Law.

2. Any owner who knowingly violates, fails, neglects or refuses to obey any provision of this chapter or the Virginia Air Pollution Control Law, any applicable requirement, or any permit term or condition shall be subject to the provisions of § 10.1-1320 of the Virginia Air Pollution Control Law.

3. Any owner who knowingly makes any false statement, representation or certification in any form, in any notice or report required by a permit, or who knowingly renders inaccurate any required monitoring device or method shall be subject to the provisions of § 10.1-1320 of the Virginia Air Pollution Control Law.

C. The following requirements apply with respect to appeals:

1. The department shall notify the applicant in writing of its decision, with its reasons, to suspend, revoke or terminate the authorization to operate under the general permit in accordance with the Administrative Process Act.

2. Appeal from any decision of the department under subdivision 1 of this subsection may be taken pursuant to 9 VAC 5-20-90, § 10.1-1318 of the Virginia Air Pollution Control Law, and the Administrative Process Act.

D. The following requirements apply with respect to inspections and right of entry:

1. The director, as authorized under § 10.1-1307.3 of the Virginia Air Pollution Control Law and 9 VAC 5-20-150, has the authority to require that air pollution records and reports be made available upon request and to require owners to develop, maintain, and make available such other records and information as are deemed necessary for the proper enforcement of the general permit.

2. The director, as authorized under § 10.1-1307.3 of the Virginia Air Pollution Control Law, has the authority, upon presenting appropriate credentials to the owner, to do the following:

Proposed Regulations

a. Enter without delay and at reasonable times any business establishment, construction site, or other area, workplace, or environment in the Commonwealth; and

b. Inspect and investigate during regular working hours and at other reasonable times, and within reasonable limits and in a reasonable manner, without prior notice, unless such notice is authorized by the department or its representative, any such business establishment or place of employment and all pertinent conditions, structures, machines, apparatus, devices, equipment, and materials therein, and question privately any such employer, officer, owner, operator, agent, or employee. If such entry or inspection is refused, prohibited, or otherwise interfered with, the department shall have the power to seek from a court having equity jurisdiction an order compelling such entry or inspection.

E. The board may enforce the general permit through the use of other enforcement mechanisms such as consent orders and special orders. The procedures for using these mechanisms are contained in 9 VAC 5-20-20 and 9 VAC 5-20-30 and in §§ 10.1-1307 D, 10.1-1309, and 10.1-1309.1 of the Virginia Air Pollution Control Law.

PART III.

GENERAL PERMIT ADMINISTRATIVE PROCEDURES.

9 VAC 5-500-90. Requirements for department issuance of authority to operate under the general permit.

A. The department may issue an authorization to operate under the general permit for a stationary source that does not exceed any of the following levels of actual emissions in the two annual periods (24 consecutive months) preceding submittal of an application under 9 VAC 5-500-100:

1. 75 tons per year of any regulated air pollutant (excluding nonattainment pollutants in serious nonattainment areas and hazardous air pollutants).
2. 37.5 tons per year of volatile organic compounds or nitrogen oxides in a serious ozone nonattainment area.
3. 7.5 tons per year of a single hazardous air pollutant.
4. 18.75 tons per year of any combination of hazardous air pollutants.

B. Stationary sources or emissions units subject to the general permit shall comply with all requirements applicable to other permits issued under 9 VAC 5-80-10 et seq.

C. The general permit shall be issued in accordance with § 9-6.14:4.1 C 11 of the Administrative Process Act.

9 VAC 5-500-100. Applications for coverage under the general permit.

A. Stationary sources that qualify for the general permit may apply to the department for coverage under the terms and conditions of the general permit. Stationary sources that do not qualify for the general permit shall apply for a permit issued under the provisions of 9 VAC 5-80-40 or Article 1 (9

VAC 5-80-50 et seq.) or Article 3 (9 VAC 5-80-360 et seq.) of Part II of 9 VAC 5 Chapter 80.

B. A single application is required identifying each emissions unit or groups of emissions units to be covered by the general permit. The application shall be submitted according to the requirements of this section, 9 VAC 5-500-110 and procedures approved by the department. Where several emissions units are included in one stationary source, a single application covering all units in the source shall be submitted. A separate application is required for each stationary source subject to this chapter.

C. The application shall meet the requirements of this chapter and include all information necessary to determine qualification for and to assure compliance with the general permit.

D. Any application form, report, compliance certification, or other document required to be submitted to the department under this chapter shall be signed by a responsible official and shall include the following certification signed by the responsible official:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering and evaluating the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

E. Subsection D of this section shall be interpreted to mean that the signer must have some form of direction or supervision over the persons gathering the data and preparing the document (the preparers), although the signer need not personally nor directly supervise these activities. The signer need not be in the same line of authority as the preparers, nor do the persons gathering the data and preparing the form need to be employees (e.g., outside contractors can be used). It is sufficient that the signer has authority to assure that the necessary actions are taken to prepare a complete and accurate document.

F. Any applicant who fails to submit any relevant facts or who has submitted incorrect information in an application shall, upon becoming aware of such failure or incorrect submittal, promptly submit such supplementary facts or corrected information.

9 VAC 5-500-110. Required application information.

A. The department shall furnish application forms to applicants. The information required by this section shall be determined and presented according to procedures and methods acceptable to the department.

B. Each application for coverage under the general permit shall include, but not be limited to, the information listed in subsections C through G of this section.

C. Identifying information as follows shall be included:

1. Company name and address (or plant name and address if different from the company name), owner's name and agent, and telephone number and names of plant site manager or contact or both.
2. A description of the source's processes and products (by Standard Industrial Classification Code).
3. Identification of each emissions unit or group of emission units at the stationary source for which the application is submitted.

D. Emissions related information as follows shall be included:

1. All emissions of regulated air pollutants for which the stationary source qualifies as a major source.

- a. An application shall describe all emissions units or groups of emissions units. This requirement shall not apply to emissions units listed in 9 VAC 5-80-720.
- b. Emissions shall be determined as provided in the application form or other instructions from the department.
- c. Fugitive emissions shall be included in the application to the extent that the emissions are necessary to determine if the stationary source qualifies as a major source.

2. Calculations on which the information in subdivision 1 of this subsection is based. Any calculations shall include sufficient detail to permit assessment of the validity of the calculations and to enable the department to verify the actual emissions and potential to emit for the stationary source. This may include, but not be limited to, the following:

- a. Actual and potential emissions in tons per annual period for each emissions unit or group of emission units.
- b. Information needed to determine emissions as follows: fuels, fuel use, raw materials, production rates, loading rates, and operating schedules.
- c. Identification and description of air pollution control equipment and compliance monitoring devices or activities.

E. Additional information that the department deems necessary to implement and enforce other requirements of the regulations of the board or to determine the applicability of such requirements.

F. Any additional information or documentation that the department deems necessary to review and analyze the air pollution aspects of the source.

G. Compliance certification information as follows shall be included: a certification of compliance with all applicable requirements by a responsible official.

9 VAC 5-500-120. General permit content.

A. The general permit issued under this chapter shall include the elements listed in subsections B through H of this section.

B. The general permit shall contain terms and conditions setting forth the applicable emissions levels and requirements sufficient to assure compliance with the criteria in 9 VAC 5-500-90 A and the regulations of the board.

C. The general permit shall contain terms and conditions setting forth the following requirements with respect to emission testing sufficient to assure compliance with the emissions levels and requirements of the permit:

1. Requirements providing that owners of stationary sources subject to the general permit may conduct emission tests, establish and maintain records, and make periodic emission reports as necessary to determine the actual emissions for the stationary source.
2. For cases where the owner elects to use the emission testing to determine the actual emissions for the stationary source, the permit shall prescribe the procedures for the conduct of the emission tests.

D. The general permit shall contain terms and conditions setting forth the following requirements with respect to emission monitoring sufficient to assure compliance with the emissions levels and requirements of the permit:

1. Requirements providing that owners of stationary sources subject to the general permit may install, calibrate, operate and maintain equipment for continuously monitoring and recording emissions or process parameters or both, and establish and maintain records, and make periodic emission reports as necessary to determine the actual emissions for the stationary source.
2. For cases where the owner elects to use the emission monitoring to determine the actual emissions for the stationary source, the permit shall prescribe the procedures for the installation, calibration, operation and maintenance of equipment for continuously monitoring and recording emissions or process parameters or both.

E. The general permit shall contain terms and conditions setting forth the following requirements concerning recordkeeping and reporting sufficient to assure compliance with the emissions levels and requirements of the permit:

1. Requirements providing that owners of stationary sources subject to the general permit shall establish and maintain records, provide notifications and reports, revise reports, report emission tests or monitoring results in a manner and form and using procedures as the general permit may prescribe.
2. The permit shall prescribe the procedures for providing notifications and reports, revising reports, maintaining records or reporting emission test or monitoring result.
3. The recordkeeping and reporting provisions in this subsection shall not apply to stationary sources with

Proposed Regulations

actual emissions less than or equal to all of the following for every annual period:

- a. 20 tons per year of a regulated air pollutant (excluding nonattainment pollutants in a serious nonattainment area and hazardous air pollutants).
- b. 10 tons per year of volatile organic compounds or nitrogen oxides in a serious ozone nonattainment area.
- c. 2 tons per year of a single hazardous air pollutant.
- d. 5 tons per year of any combination of hazardous air pollutants.

4. Within 30 days of a written request by the department, the owner of a stationary source not maintaining records pursuant to subdivision 3 of this subsection shall demonstrate that the stationary source's emissions are not in excess of the applicable quantities set forth in subdivision 3 of this subsection.

F. The general permit shall contain terms and conditions with respect to enforcement sufficient to assure compliance with the emissions levels and requirements of the permit.

G. The general permit shall contain terms and conditions setting forth the following requirements with respect to compliance sufficient to assure compliance with the terms and conditions of the permit:

1. Requirements providing for compliance certification, testing, monitoring, reporting, and recordkeeping requirements sufficient to assure compliance with the terms and conditions of the permit.

2. Requirements providing for inspection and entry sufficient to assure compliance with the terms and conditions of the permit. At a minimum the permit shall require that, upon presentation of credentials and other documents as may be required by law, the owner shall allow the department to perform the following:

a. Enter upon the premises where the source is located or emissions related activity is conducted, or where records must be kept under the terms and conditions of the permit.

b. Have access to and copy, at reasonable times, any records that must be kept under the terms and conditions of the permit.

c. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under the permit.

d. Sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements.

H. The permit shall contain terms and conditions pertaining to other requirements as may be necessary to ensure compliance with the regulations of the board, the Virginia Air Pollution Control Law and the federal Clean Air Act.

9 VAC 5-500-130. Issuance of an authorization to operate under the general permit.

A. The department shall grant authorization to operate under the conditions and terms of the general permit to stationary sources that meet the criteria set forth in 9 VAC 5-500-90 A.

B. The issuance of an authorization to operate under the general permit to a stationary source covered by the general permit shall not require compliance with the public participation procedures under § 9-6.14.4.1 C 11 of the Administrative Process Act.

C. A response to each application for coverage under the general permit shall be provided. The general permit may specify a reasonable time period after which a stationary source that has submitted an application shall be deemed to be authorized to operate under the general permit.

D. Stationary sources covered under a general permit shall be issued a letter, a certificate, or any other document which would attest that the stationary source is authorized to operate under the general permit. The document shall be accompanied by a copy of the general permit and the application submitted by the permittee.

E. The letter, certificate or other document, along with the copy of the general permit and application, shall be retained by the department and at the stationary source.

9 VAC 5-500-140. Transfer of authorizations to operate under the general permit.

A. No person shall transfer an authorization to operate under the general permit from one stationary source to another or from one piece of equipment to another.

B. In the case of a transfer of ownership of a stationary source, the new owner shall comply with any permit issued to the previous owner. The new owner shall notify the department of the change in ownership within 30 days of the transfer.

C. In the case of a name change of a stationary source, the owner shall comply with any permit issued under the previous source name. The owner shall notify the department of the change in source name within 30 days of the name change.

PART IV.

GENERAL PERMIT TERMS AND CONDITIONS.

9 VAC 5-500-150. Emissions levels and requirements.

A. Sources operating under this permit shall meet the emissions levels in 9 VAC 5-500-160 in order to continue to operate under the authority of this permit.

B. Sources operating under this permit shall operate in compliance with the standards set in 9 VAC 5-40-10 et seq., 9 VAC 5-50-10 et seq. and 9 VAC 5-60-10 et seq. and other applicable provisions of the regulations of the board.

C. The permittee shall obtain any necessary permits prior to commencing any physical or operational change or activity which will result in actual emissions that exceed the emissions levels specified in 9 VAC 5-500-160.

9 VAC 5-500-160. Emissions levels.

In order to operate under the authority of this permit, a stationary source shall not exceed any of the following levels of actual emissions in any annual period:

1. 75 tons per year of any regulated air pollutant (excluding nonattainment pollutants in serious nonattainment areas and hazardous air pollutants).
2. 37.5 tons per year of volatile organic compounds or nitrogen oxides in a serious ozone nonattainment area.
3. 7.5 tons per year of a single hazardous air pollutant.
4. 18.75 tons per year of any combination of hazardous air pollutants.

9 VAC 5-500-170. Compliance determination and verification by emission testing.

A. The permittee may conduct emission tests, establish and maintain records, and make periodic emission reports as necessary to determine the actual emissions for the stationary source.

B. Upon request of the department, the permittee shall conduct emission tests as are necessary to determine the type or amount or both of the pollutants emitted from the source or whether the source will be in compliance with 9 VAC 5-500-160 or any other provisions of any regulation of the board.

C. The emission testing conducted under this section shall be carried out in accordance with the provisions of 9 VAC 5-40-10 et seq., 9 VAC 5-50-10 et seq. and 9 VAC 5-60-10 et seq., as applicable, or by other means acceptable to the department.

9 VAC 5-500-180. Compliance determination and verification by emission monitoring.

A. The permittee may install, calibrate, operate and maintain equipment for continuously monitoring and recording emissions or process parameters or both, and establish and maintain records, and make periodic emission reports as necessary to determine the actual emissions for the stationary source.

B. Upon request of the department, the permittee shall install, calibrate, maintain and operate equipment for continuously monitoring and recording emissions or process parameters or both as are necessary to determine the type or amount or both of the pollutants emitted from the source or whether the source will be in compliance with 9 VAC 5-500-160 or any other provisions of any regulation of the board.

C. The emission monitoring conducted under this section shall be carried out in accordance with the provisions of 9 VAC 5-40-10 et seq., 9 VAC 5-50-10 et seq. and 9 VAC 5-60-10 et seq., as applicable, or by other means acceptable to the department.

D. Where the applicable requirement cited in subsection C of this section does not require periodic testing or instrumental or noninstrumental monitoring (which may consist of recordkeeping designed to serve as monitoring), periodic monitoring sufficient to yield reliable data from the

relevant time period that are representative of the source's compliance with the general permit, as reported pursuant to 9 VAC 5-500-190 C 1. Such monitoring requirements shall assure use of terms, test methods, units, averaging periods, and other statistical conventions consistent with the applicable requirement. Recordkeeping provisions may be sufficient to meet the requirements of this subsection.

9 VAC 5-500-190. Recordkeeping requirements.

A. The permittee, unless exempted under 9 VAC 5-500-120 E 3, shall comply with the recordkeeping requirements in this section. The recordkeeping requirements of this permit shall not replace any recordkeeping requirement contained in other state or federal rules or regulations.

B. The permittee shall keep and maintain records for each emission unit or groups of emission units sufficient to determine the actual emissions of the stationary source. Such information shall be summarized in a monthly log, maintained on site for five years, and be made available to the department upon request. Any records, notifications, reports, or tests providing the basis for the summary shall be retained by the permittee for at least five years following the date of such records, notifications, reports or tests.

C. To meet the requirements of 9 VAC 5-500-180 with respect to recordkeeping, the permittee shall comply with the following:

1. Records of monitoring information shall include the following:

- a. The date, place as defined in the permit, and time of sampling or measurements.
- b. The date(s) analyses were performed.
- c. The company or entity that performed the analyses.
- d. The analytical techniques or methods used.
- e. The results of such analyses.
- f. The operating conditions existing at the time of sampling or measurement.

2. Records of all monitoring data and support information shall be retained for at least five years from the date of the monitoring sample, measurement, report, or application. Support information includes all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit.

D. The recordkeeping requirements under this section shall be carried out in accordance with the provisions of 9 VAC 5-40-10 et seq., 9 VAC 5-50-10 et seq. and 9 VAC 5-60-10 et seq., as applicable, or by other means acceptable to the department.

9 VAC 5-500-200. Reporting requirements.

A. The permittee, unless exempted under 9 VAC 5-500-120 E 3, shall comply with the reporting requirements in this section. Any document (including reports) required by a permit term or condition to be submitted to the department

Proposed Regulations

shall contain a certification by a responsible official that meets the requirements of 9 VAC 5-500-100 D.

B. The permittee shall submit, according to procedures established by the department, an annual emissions update. Any additional information requested by the department under this subsection shall be submitted to the department within 30 days of the date of request.

C. To meet the requirements of 9 VAC 5-500-180 with respect to reporting, the permittee shall submit reports of any required monitoring at least every six months. All instances of deviations from permit requirements must be clearly identified in such reports.

D. If a stationary source or emissions unit is shut down, the permittee shall notify the board within six months of the date the stationary source or emissions unit is shut down.

9 VAC 5-500-210. Compliance certifications.

A. The department shall evaluate a stationary source's compliance with the emissions levels in 9 VAC 5-500-160 as part of the department's annual compliance process. In performing the evaluation, the department shall consider any annual emission update submitted pursuant to 9 VAC 5-500-200.

B. Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the department to perform the following:

1. Enter upon the premises where the source is located or emissions-related activity is conducted, or where records must be kept under the terms and conditions of the permit.
2. Have access to and copy, at reasonable times, any records that must be kept under the terms and conditions of the permit.
3. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under the permit.
4. Sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements.

C. The permittee shall submit, along with the annual emissions update, to the department an annual compliance certification containing the following:

1. The identification of each term or condition of the permit that is the basis of the certification.
2. The compliance status.
3. Whether compliance was continuous or intermittent, and if not continuous, documentation of each incident of noncompliance.
4. The method or methods used for determining the compliance status of the source at the time of certification and over the reporting period.
5. Such other information as the department may require to determine the compliance status of the source.

9 VAC 5-500-220. Consequences of failure to remain below emissions levels.

A. A stationary source subject to the general permit shall be subject to applicable federal requirements for a major source, including 9 VAC 5-80-40 (state operating permit) and Article 1 (9 VAC 5-80-50 et seq.) or Article 3 (9 VAC 5-80-360 et seq.) of Part II of 9 VAC 5 Chapter 80 (federal operating permit), when either of the following conditions occur:

1. Commencing on the first day following any annual period in which the stationary source exceeds an emissions levels specified in 9 VAC 5-500-160.
2. Commencing on the first day following any annual period in which the owner can not demonstrate that the stationary source is in compliance with the emissions levels specified in 9 VAC 5-500-160.

B. Any stationary source who becomes subject to federal applicable requirements for a major source as provided in subsection A of this section may continue to operate under the authority of the permit until a state operating permit or federal operating permit is issued provided the following conditions are met:

1. At least 30 days prior to the end of any annual period during which the actual emissions of the stationary source is expected to exceed the emissions levels in 9 VAC 5-500-160, the owner has notified the department that he will submit an application for a federal operating permit or state operating permit, and
2. A complete federal operating permit application is received by the department, or the permit action to obtain a state operating permit is completed, within 12 months of the date of notification.

9 VAC 5-500-230. Enforcement.

A. Violation of this permit is subject to the enforcement provisions including, but not limited to, those contained in 9 VAC 5-20-10 et seq. and §§ 10.1-1309, 10.1-1311 and 10.1-1316 of the Virginia Air Pollution Control Law.

B. If any condition, requirement or portion of the permit is held invalid or inapplicable under any circumstance, such invalidity or inapplicability shall not affect or impair the remaining conditions, requirements, or portions of the permit.

C. The permittee shall comply with all conditions of the permit. Any permit noncompliance constitutes a violation of the Virginia Air Pollution Control Law and is grounds (i) for enforcement action or (ii) for termination, revocation and reissuance, or modification of the authorization to operate under the general permit.

D. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

E. The authorization to operate under the general permit may be revoked and reissued or terminated for cause as specified in 9 VAC 5-500-80. The filing of a request by the permittee for authorization revocation and reissuance, or termination, or of a notification of planned changes or

anticipated noncompliance does not stay any permit condition.

F. The owner of the stationary source shall be subject to enforcement action under 9 VAC 5-500-80 for operation without a permit if the stationary source is later determined by the department not to qualify for the conditions and terms of the general permit.

G. The general permit does not convey any property rights of any sort, or any exclusive privilege.

H. The permittee shall furnish to the department, within a reasonable time, any information that the department may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the authorization to operate under the general permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the department copies of records required to be kept by the permit and, for information claimed to be confidential, the permittee shall furnish such records to the department along with a claim of confidentiality.

9 VAC 5-500-240. Review and evaluation of regulation.

A. Prior to (three years after effective date of regulation), the department shall perform an analysis on this chapter and provide the board with a report on the results. The analysis shall include (i) the purpose and need for the chapter, (ii) alternatives which would achieve the stated purpose of this chapter in a less burdensome and less intrusive manner, (iii) an assessment of the effectiveness of this chapter, (iv) the results of a review of current state and federal statutory and regulatory requirements, including identification and justification of requirements of this chapter which are more stringent than federal requirements, and (v) the results of a review as to whether this chapter is clearly written and easily understandable by affected entities.

B. Upon review of the department's analysis, the board shall confirm the need to (i) continue this chapter without amendment, (ii) repeal this chapter, or (iii) amend this chapter. If the board's decision is to repeal or amend this chapter, the board shall authorize the department to initiate the applicable regulatory process to carry out the decision of the board.

EXCLUSIONARY GENERAL PERMIT FOR FEDERAL OPERATING PERMIT PROGRAM (9 VAC 5 Chapter 500)

The Commonwealth of Virginia has in place a federal operating permit program (Article 1 of 9 VAC 5 Chapter 80) to meet the requirements of Title V of the Federal Clean Air Act.

The Exclusionary General Permit provides a legally enforceable mechanism for major sources subject to the federal operating permit program to be excluded from the program provided they maintain their actual annual emissions at a level that is 75% of the major source, potential to emit applicability thresholds for the federal operating permit program. This is one of two alternative permit mechanisms available to exclude major sources from the federal operating permit program; the other is the state operating permit program (9 VAC 5-80-40). The regulation does not require any owner to apply for coverage under the general permit but provides the opportunity for an owner to apply for coverage if the stationary source meets the 75% of the threshold criteria and all other requirements of the regulation.

Stationary sources that qualify as a major source as defined in the federal operating permit program may apply for an Exclusionary General Permit provided that their actual emissions in the two annual periods (24 consecutive months) preceding submittal of a permit application do not exceed any of the following levels:

1. 75 tons per year of any regulated air pollutant (excluding pollutants cited in item 2 below for the localities cited in item 2 and hazardous air pollutants).
2. 37.5 tons per year of volatile organic compounds or nitrogen oxides in the following localities: Arlington County, Fairfax County, Loudoun County, Prince William County, Stafford County, Alexandria City, Fairfax City, Falls Church City, Manassas City, and Manassas Park City.
3. 7.5 tons per year of a single hazardous air pollutant.
4. 18.75 tons per year of any combination of hazardous air pollutants.

The Exclusionary General Permit may not be issued to any stationary source required to obtain a federal operating permit for any reason other than being a major source. This primarily includes, but is not limited to, any source, including an area source, subject to any standard or other requirement adopted pursuant to § 111 (40 CFR Part 60) or § 112 (40 CFR Parts 61 and 63) of the federal Clean Air Act.

BOARD FOR ACCOUNTANCY

REGISTRAR'S NOTICE: The following fee reductions filed by the Board for Accountancy are exempt from Article 2 of the Administrative Process Act in accordance with § 9-6.14:4.1 C 9 of the Code of Virginia, which excludes regulations of the regulatory boards served by the Department of Professional and Occupational Regulation pursuant to Title 54.1 which are limited to reducing fees charged to regulants and applicants.

Title of Regulation: 18 VAC 5-20-10 et seq. Board for Accountancy Regulations (amending 18 VAC 5-20-30, 18 VAC 5-20-40, 18 VAC 5-20-60, 18 VAC 5-20-90, 18 VAC 5-20-100, and 18 VAC 5-20-110, and 18 VAC 5-20-470).

Statutory Authority: §§ 54.1-201 and 54.1-2003 of the Code of Virginia.

Effective Date: April 1, 1997.

Summary:

The amendments reduce the fees charged to applicants for certificate, licensure, registration, renewal and late filing requirements.

Agency Contact: Copies of the regulation may be obtained from Nancy Taylor Feldman, Assistant Director, Board for Accountancy, 3600 West Broad Street, Richmond, VA 23230-4917, telephone (804) 367-8590.

18 VAC 5-20-30. Original CPA certificate.

A. A CPA certificate will be granted to an applicant who has met all of the qualifications for certification outlined in 18 VAC 5-20-20.

B. The fee for an original CPA certificate shall be ~~\$25~~ *\$15*. All fees are nonrefundable and shall not be prorated.

18 VAC 5-20-40. Certificate by endorsement.

A CPA certificate will be granted to an applicant who holds a like valid and unrevoked certificate issued under the law of any jurisdiction showing that applicant is in good standing in the jurisdiction; provided:

1. The applicant meets all current requirements in Virginia at the time application is made; or
2. At the time the applicant's certificate was issued in the other jurisdiction the applicant met all requirements then applicable in Virginia; or
3. The applicant has met all requirements applicable in Virginia except the education requirement, or has passed the examination under different credit or grade provisions, and either:

a. The applicant has five years of experience in the performance of accounting services within the 10 years prior to application, or

b. The applicant has five years of experience in the performance of accounting services, one year of which was immediately prior to application and, within the 10 years prior to application, had completed 15 semester hours of accounting, auditing and related subjects at an accredited institution.

4. The fee for a certificate by endorsement shall be ~~\$90~~ *\$65*. All fees are nonrefundable and shall not be prorated.

18 VAC 5-20-60. Licensure.

Each certified public accountant who is engaged in or holding himself out to be engaged in the practice of public accountancy in Virginia must hold a valid license. This provision applies to professional staff who are eligible for licensure as set forth in 18 VAC 5-20-80 as well as to sole proprietors, partners, members and shareholders.

1. To be eligible for licensure an individual shall meet the qualifications for certification outlined in 18 VAC 5-20-20 and one of the experience requirements set forth in 18 VAC 5-20-80.

2. The fee for an initial CPA license shall be ~~\$50~~ *\$40*. All fees are nonrefundable and shall not be prorated.

18 VAC 5-20-90. Registration of professional corporations and professional limited liability companies.

A. All professional corporations and professional limited liability companies practicing public accountancy in Virginia shall be registered by the board.

B. The fee for registration shall be ~~\$50~~ *\$40*. All fees are nonrefundable and shall not be prorated.

C. All registered professional corporations and professional limited liability companies shall meet the standards set forth in § 54.1-2005 of the Code of Virginia and Part IV (18 VAC 5-20-120 et seq.) of this chapter.

18 VAC 5-20-100. Requirement for renewal.

A. Effective September 30, 1992, each license to practice public accounting or CPA certificate maintenance shall be renewed annually. A registration certificate of a professional corporation or professional limited liability company shall be renewed biennially.

B. Effective September 30, 1992, each license to practice public accounting shall expire annually on September 30. Maintenance fees for CPA certificates shall also be due on September 30. A registration certificate of a professional corporation or professional limited liability company shall be renewed September 30 of each even-numbered year. The board will mail a renewal notice to the regulant at the last

Final Regulations

known address of record. Failure of the regulant to receive written notice of the expiration does not relieve him of the requirement to renew or pay the required fee.

C. Renewal fees are as follows:

1. The fee for renewal of a CPA license to practice public accounting shall be ~~\$40~~ \$30.
2. The fee for renewal of the registration certificate of a professional corporation shall be ~~\$40~~ \$30.
3. The fee for renewal of the registration certificate of a professional limited liability company shall be ~~\$40~~ \$30.
4. The CPA certificate maintenance fee shall be \$10.
5. All fees are nonrefundable and shall not be prorated.

D. If the required fee is not received by October 30 an additional fee of \$10 for certificate maintenance, ~~\$40~~ \$25 for license renewal, ~~\$40~~ \$25 for professional corporation, and ~~\$40~~ \$25 for professional limited liability company registration shall be required.

E. Applicants for renewal of the CPA certificate maintenance or license to practice public accounting shall certify on a form provided by the board that they continue to meet the standards for entry as set forth in 18 VAC 5-20-20 B.

Applicants for renewal of the license to practice public accounting shall meet the requirements of Part V (18 VAC 5-20-450 et seq.) of this chapter. Failure to comply with Part V will result in the denial of the license renewal.

F. The board, in its discretion, and for just cause, may deny renewal of a license to practice public accounting, registration or certificate maintenance. Upon such denial, the applicant for renewal may request that a hearing be held in accordance with the provisions of the Administrative Process Act (§ 9-6.14:1 et seq. of the Code of Virginia).

18 VAC 5-20-110. Requirement for reinstatement.

A. If the regulant fails to renew his license to practice public accounting or registration or pay his certificate maintenance fee within six months following the expiration, he will be required to present reasons for reinstatement and the board may, in its discretion, grant reinstatement or require a requalification or reexamination or both.

B. The fee for reinstatement of the license to practice public accounting shall be ~~\$450~~ \$60, the fee for reinstatement of the professional corporation registration shall be ~~\$400~~ \$60, the fee for reinstatement of a professional limited liability company registration shall be ~~\$400~~ \$60, and the fee for reinstatement of the certificate maintenance shall be ~~\$50~~ \$20. All fees are nonrefundable and shall not be prorated.

C. Applicants for reinstatement of the CPA certificate or license to practice public accounting shall certify on a form provided by the board that they continue to meet the standards for entry as set forth in 18 VAC 5-20-20 B.

D. If the regulant has failed to renew his license to practice public accounting for a period of up to 12 months, he shall be required in accordance with Part V (18 VAC 5-20-450 et seq.)

of this chapter to complete a minimum of 40 credit hours of Continuing Professional Education (CPE) with a minimum of eight CPE credit hours in accounting and auditing and eight CPE credit hours in taxation within the preceding 12 months prior to application. If the regulant has failed to renew his license in excess of 12 months, he shall be required to complete a continuing education program specified by the board which shall require him to complete 40 hours of CPE if he failed to renew the license for one year, 80 hours of CPE if he failed to renew the license for two years and 120 hours of CPE if he failed to renew the license for three years, minus the hours which he had taken during this time period.

E. If the regulant has failed to maintain his CPA certificate, renew his license, professional corporation or limited liability company registration for a period of 12 months or longer, a late fee, in addition to the reinstatement fees outlined in 18 VAC 5-20-110 B, will be required.

The late fee shall be ~~\$75~~ \$25 for each renewal period in which the regulant failed to maintain his CPA certificate, or failed to renew his license, professional corporation or limited liability company registration.

F. The board, in its discretion, and for just cause, may deny reinstatement of a license to practice public accounting, registration or certificate maintenance. Upon such denial, the applicant for reinstatement may request that a hearing be held in accordance with the provisions of § 9-6.14:8 of the Administrative Process Act (§ 9-6.14:1 et seq. of the Code of Virginia).

18 VAC 5-20-470. Requirements for reporting credit hours.

All CPE credit hours shall be reported to the board on a form provided by the board and subject to a possible audit. The date forms are received, not postmarked, by the board shall be the date used to determine compliance with the CPE reporting requirements.

Failure to complete or report CPE credit hours by January 31 of each succeeding year will result in the following late filing fees:

1. A ~~\$50~~ \$25 late filing fee shall be required for all reporting forms received after January 31 but before June 1.
2. A ~~\$100~~ \$50 late filing fee shall be required for all reporting forms received after May 31 but before August 1.
3. A ~~\$200~~ \$75 late filing fee shall be required for all reporting forms when received after July 31. A license renewal shall be issued to the regulant upon receipt by the board of the late filing fee and evidence of compliance with 18 VAC 5-20-450.
4. CPE credit hours taken during the late filing period to meet the requirement of the previous year shall not be reported for any succeeding year.
5. Individuals failing to meet the CPE requirements may be subject to requalification including possible reexamination and submission of experience qualifications.

6. The board may, at its discretion, waive or defer CPE requirements and late fees for licensees who suffer documented serious illness or injury, or who are prevented from meeting those requirements due to the obligation of military service or service in the Peace Corps, or for other good cause of similar magnitude approved by the board.

Final Regulations

STATE AIR POLLUTION CONTROL BOARD

REGISTRAR'S NOTICE: The amendments to the following regulation are exempt from the Administrative Process Act in accordance with § 9-6.14:4.1 C 3 of the Code of Virginia, which excludes regulations that consist only of changes in style or form or corrections of technical errors. The State Air Pollution Control Board will receive, consider and respond to petitions by any interested person at any time with respect to reconsideration or revision.

Title of Regulation: Regulations for the Control and Abatement of Air Pollution.
9 VAC 5-40-10 et seq. Applicability and Compliance with Air Quality Standards (amending 9 VAC 5-40-3260).

Statutory Authority: § 10.1-1308 of the Code of Virginia.

Effective Date: April 1, 1997.

Summary:

The absence of the term "nonhalogenated" in 9 VAC 5-40-3260 could lead to a misinterpretation of the rule. Therefore, this section of the regulation has been modified to specify that affected facilities are those that use nonhalogenated solvents.

Agency Contact: Copies of the regulation may be obtained from Alma Jenkins, Office of Air Program Development, Department of Environmental Quality, P.O. Box 10009, Richmond, VA 23240, telephone (804) 698-4070.

9 VAC 5-40-3260. Applicability and designation of affected facility.

A. The affected facility to which the provisions of this rule apply is each solvent metal cleaning operation *using nonhalogenated solvents*, including, but not limited to, cold or vapor degreasing at service stations; motor vehicle repair shops; automobile dealerships; machine shops; and any other metal refinishing, cleaning, repair, or fabrication facility.

B. The provisions of this rule apply only to sources of volatile organic compounds in volatile organic compound emissions control areas designated in 9 VAC 5-10-20, Appendix P.

VA.R. Doc. No. R97-230; Filed January 14, 1997, 2:54 p.m.

BOARD FOR ASBESTOS LICENSING AND LEAD CERTIFICATION

REGISTRAR'S NOTICE: The following fee reductions filed by the Board for Asbestos Licensing and Lead Certification are exempt from Article 2 of the Administrative Process Act in accordance with § 9-6.14:4.1 C 9 of the Code of Virginia, which excludes regulations of the regulatory boards served by the Department of Professional and Occupational Regulation pursuant to Title 54.1 which are limited to reducing fees charged to regulants and applicants.

Title of Regulation: 18 VAC 15-20-10 et seq. Asbestos Licensing Regulations (amending 18 VAC 15-20-50 and 18 VAC 15-20-960).

Statutory Authority: §§ 54.1-113 and 54.1-501 of the Code of Virginia.

Effective Date: April 1, 1997.

† Enforcement Action

Proposed Consent Special Order

John B. Enders, d/b/a Shelter Harbor Marine

The State Water Control Board proposes to issue a Consent Special Order to John B. Enders, d/b/a Shelter Harbor Marine, located in Gloucester County, Virginia. The proposed order requires Mr. Enders to implement erosion and sediment controls of the dredge spoils at the Shelter Harbor Marine throughout this winter and spring, until June 30, 1997, at which time the order requires Mr. Enders to complete the county required erosion control measures. The order also requires Mr. Enders to submit an oil spill contingency plan.

Environmental Quality will receive written comments relating to the proposed Consent Special Order until March 5, 1997. Comments should be addressed to Cynthia Akers, Department of Environmental Quality, Piedmont Regional Office, 4949-A Cox Road, Glen Allen, Virginia 23060-6295. Copies of the order may be obtained in person or by mail from the above office.

Enforcement Action

Proposed Consent Special Order

Griffin Pipe Products Company

Lester-Penn Coal & Oil Corporation

H. C. Lester, Inc.

The State Water Control Board and the Department of Environmental Quality propose to issue Consent Special Orders to:

1. Griffin Pipe Products Company for its plant in Lynchburg. The order will require actions to bring the

plant into full compliance with state laws and regulations for wastewater and stormwater treatment and discharge. Specifically, the start date for toxicity management program (TMP) biological monitoring is delayed for two years on stormwater discharges affected by a recent air consent order.

2. The Lester-Penn Coal & Oil Corporation for its aboveground storage tank facility in Martinsville. The order will give Lester-Penn a revised schedule for completing an approvable Oil Discharge Contingency Plan, obtaining containment certification under the Pollution Prevention Regulation, and submitting notification and registration forms for all tank changes. A civil charge of \$1,250 is included as part of the order.

3. H. C. Lester, Inc., for its aboveground storage tank facility in Collinsville, Henry County. This order will give Lester a revised schedule for completing leak detection and fulfilling all requirements for approval of its Oil Discharge Contingency Plan. Because the order is occasioned by violations of a letter of agreement, a civil charge of \$500 is part of this agreement.

On behalf of the State Water Control Board, the Department of Environmental Quality will receive written comments relating to the proposed amendment until February 19, 1997. Comments should be addressed to James F. Smith, West Central Regional Office, Department of Environmental Quality, 3019 Peters Creek Road, N.W., Roanoke, VA 24019, or FAX (540) 562-6725, and should refer to the Griffin Pipe Products Company, Lester-Penn Coal & Oil Corporation, or H. C. Lester, Inc. Order.

The proposed orders may be examined at the Department of Environmental Quality, Office of Enforcement and Compliance Auditing, 629 East Main Street, P.O. Box 10009, Richmond, VA 23240-0009 or at the Department of Environmental Quality, West Central Regional Office, 3019 Peters Creek Road, Roanoke, VA 24019. Copies of the orders may be obtained in person or by mail from these offices.

facilities. Under the terms of the proposed Special Orders, the owners of these facilities have agreed to be bound by the terms and conditions of effluent limitations and monitoring and reporting requirements contained in individual appendices within the respective orders.

These requirements contained in the orders bring the facilities into compliance with state law and will protect water quality.

On behalf of the State Water Control Board, the Department of Environmental Quality will receive written comments relating to the Special Orders until March 5, 1997. Comments should be addressed to Dallas Sizemore, Department of Environmental Quality, Southwest Regional Office, P.O. Box 1688, Abingdon, Virginia 24212, and should refer to the Consent Special Order.

The proposed orders may be obtained in person or by mail from, or examined at, the Department of Environmental Quality, 355 Deadmore Street, Abingdon, Virginia 24212.

† Enforcement Action Proposed Consent Special Order Masonite Corporation

The State Water Control Board proposes to issue a Consent Special Order to Masonite Corporation located in Waverly, Virginia. The proposed order requires Masonite to submit and implement an approvable plan and schedule for a new stormwater system to connect Outfall 001 to the Waverly Wastewater Treatment Plant. The order requires that connection of Outfall 001 to the Town of Waverly's Wastewater Treatment Plant be completed no later than May 15, 1998.

On behalf of the State Water Control Board, the Department of Environmental Quality will receive written comments relating to the proposed Consent Special Order until March 5, 1997. Comments should be addressed to Cynthia Akers, Department of Environmental Quality, Piedmont Regional Office, 4949-A Cox Road, Glen Allen, Virginia 23060-6295. A copy of the Order may be obtained in person or by mail from the above office.

† Enforcement Action Proposed Special Order White Packing Company, Inc. Wastewater Treatment

The State Water Control Board proposed to issue a Consent Special Order to White Packing Company, Inc., (WPC) regarding the wastewater treatment at WPC's bacon packing facility located in King George County, Virginia.

The facility is subject to VPDES Permit No. VA0088200. The order provides, among other things, that WPC complete construction of the facility's wastewater treatment system, begin direct discharge of treated wastewater, and cease land application of treated wastewater by March 1, 1997. The order also requires that WPC implement a corrective action plan to remediate any soils or groundwater impacted by the

facility's land application system. WPC has agreed to the issuance of the order.

On behalf of the board, the Department of Environmental Quality's Northern Virginia Regional Office will receive written comments relating to the order until March 5, 1997. Please address comments to Elizabeth Anne Crosier, Northern Virginia Regional Office, Department of Environmental Quality, 13901 Crown Court, Woodbridge, Virginia 22193. Please write or visit the Woodbridge address or call (703) 583-3886 in order to examine or to obtain a copy of the order.

Enforcement Action Proposed Consent Special Order Wrangler, Inc. Stony Run Trailer Park Rockingham Redi-Mix

The State Water Control Board proposes to take enforcement action against the following:

1. Wrangler Inc. The company has agreed to the terms of a Consent Special Order to address violations of the State Water Control Law and regulations as a result of an unpermitted discharge of process wastewater to an unnamed tributary of Hawksbill Creek in Luray, Virginia. Under the terms of this order, the company has made system modifications to prevent future spills to state waters. The company has further agreed to work with the Town of Luray to develop a pretreatment permit with technically-based limits to protect the Luray wastewater treatment facility from any potential interference or pass-through caused by its discharge.
2. Gwynne Jewell and Henry Pettit, d/b/a Stony Run Trailer Park. The owners of the trailer park have agreed to the terms of a Consent Special Order to address violations of the State Water Control Law and regulations as a result of an unpermitted discharge of sewage to Stony Run Creek in Page County, Virginia. Under the terms of this order, the company has reconnected the broken force main connecting the trailer park to the Stanley wastewater treatment facility. The owners have further agreed to the payment of a civil charge in settlement of this violation.
3. Rockingham Redi-Mix in Rockingham County, Virginia. Rockingham Redi-Mix has agreed to the terms of a Consent Special Order to address violations of the State Water Control Law and regulations as a result of an unpermitted discharge of process wastewater from its ready-mix operation to state waters.

Rockingham Redi-Mix has applied for issuance of a VPA Permit to manage pollutants at its facility. The Department of Environmental Quality is currently developing regulations for a VPDES general permit for the ready-mix concrete industry, which will be available within two years. In recognition of this delayed availability, the board and Rockingham Redi-Mix propose to enter into a Consent Special Order designed to assure compliance with all applicable State Water Control Board laws and regulations until the general permit becomes available. The order provides for implementation of Best

Management Practices to prevent discharges from the facility to state waters, and requires the company to comply with the board's VPA Permit Regulation and to register for a general permit as soon as it becomes available.

The board will receive written comments relating to the proposed Consent Special Orders until February 19, 1997. Comments should be addressed to Elizabeth V. Scott, Department of Environmental Quality, Post Office Box 1129, Harrisonburg, Virginia 22801, and should refer to the Consent Special Order for Wrangler, Inc., Stony Run Trailer Park, or Rockingham Redi-Mix.

The proposed orders may be examined at the Department of Environmental Quality, Valley Regional Office, 4411 Early Road, Harrisonburg, Virginia 22801. Copies of the orders may be obtained in person or by mail from this office.

† April 4, 1997 -- Written comments may be submitted until 4:30 p.m. on this date.

Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Air Pollution Control Board intends to adopt regulations entitled: **9 VAC 5-500-10 et seq. Exclusionary General Permit for Federal Operating Permit Program.** The proposed general permit provides a legally enforceable mechanism for major sources subject to the federal operating permit program (Article 1 of 9 VAC 5 Chapter 80) to be excluded from the program provided they maintain their actual annual emissions at a level that is 75% of the major source, potential to emit applicability thresholds for the federal operating permit program. The regulation does not require any owner to apply for coverage under the general permit but provides the opportunity for an owner to apply for coverage if the stationary source meets the 75% of the threshold criteria and all other requirements of the regulation.

Request for Comments: The purpose of this notice is to provide the public with the opportunity to comment on the proposed general permit.

Calendar of Events

Localities Affected: There is no locality which will bear any identified disproportionate material air quality impact due to the proposed regulation which would not be experienced by other localities.

Location of Proposal: The proposal and any other supporting documents may be examined by the public at the department's Office of Air Program Development (Eighth Floor), 629 East Main Street, Richmond, Virginia, and the Department's regional offices (listed below) between 8:30 a.m. and 4:30 p.m. of each business day until the close of the public comment period.

STATE WATER CONTROL BOARD

February 10, 1997 -- Public comments may be submitted until this date.

Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Water Control Board intends to adopt regulations entitled: **9 VAC 25-193-10 et seq. General Virginia Pollutant Discharge Elimination System (VPDES) Permit for Ready-Mixed Concrete Plants.** The proposed regulation establishes a general permit for the ready-mixed concrete plant category of wastewater discharges under the Virginia Pollutant Discharge Elimination System.

Question and Answer Period: A question and answer period will be held one half hour prior to the public hearing at the same location. Interested citizens will have an opportunity to ask questions pertaining to the proposal at that time.

Accessibility to Persons with Disabilities: The public hearing will be held at facilities believed to be accessible to persons with disabilities. Any person with questions should contact Ms. Lily Choi at the address given below. Persons needing interpreter services for the deaf should notify Ms. Choi no later than January 10, 1997.

Request for Comments: The board is seeking written comments from interested persons on both the proposed regulatory action and the draft permit, as well as comments regarding the costs and benefits of the proposal or any other alternatives. Written comments on the proposed issuance of the permit and on the proposed regulation must be received no later than 4 p.m. on February 10, 1997, and should be submitted to Ms. Choi. Comments shall include the name, address, and telephone number of the writer, and shall contain a complete, concise statement of the factual basis for comments. Only those comments received within this period will be considered by the board.

Other Information: The department has conducted analyses on the proposed regulation related to the basis, purpose,
