VIRGINIA REGISTER INFORMATION PAGE

THE VIRGINIA REGISTER OF REGULATIONS is an official state publication issued every other week throughout the year. Indexes are published quarterly, and are cumulative for the year. The *Virginia Register* has several functions. The new and amended sections of regulations, both as proposed and as finally adopted, are required by law to be published in the *Virginia Register*. In addition, the *Virginia Register* is a source of other information about state government, including petitions for rulemaking, emergency regulations, executive orders issued by the Governor, and notices of public hearings on regulations.

ADOPTION, AMENDMENT, AND REPEAL OF REGULATIONS

An agency wishing to adopt, amend, or repeal regulations must first publish in the *Virginia Register* a notice of intended regulatory action; a basis, purpose, substance and issues statement; an economic impact analysis prepared by the Department of Planning and Budget; the agency's response to the economic impact analysis; a summary; a notice giving the public an opportunity to comment on the proposal; and the text of the proposed regulation.

Following publication of the proposal in the *Virginia Register*, the promulgating agency receives public comments for a minimum of 60 days. The Governor reviews the proposed regulation to determine if it is necessary to protect the public health, safety and welfare, and if it is clearly written and easily understandable. If the Governor chooses to comment on the proposed regulation, his comments must be transmitted to the agency and the Registrar no later than 15 days following the completion of the 60-day public comment period. The Governor's comments, if any, will be published in the *Virginia Register*. Not less than 15 days following the completion of the 60-day public comment period, the agency may adopt the proposed regulation.

The Joint Commission on Administrative Rules (JCAR) or the appropriate standing committee of each house of the General Assembly may meet during the promulgation or final adoption process and file an objection with the Registrar and the promulgating agency. The objection will be published in the *Virginia Register*. Within 21 days after receipt by the agency of a legislative objection, the agency shall file a response with the Registrar, the objecting legislative body, and the Governor.

When final action is taken, the agency again publishes the text of the regulation as adopted, highlighting all changes made to the proposed regulation and explaining any substantial changes made since publication of the proposal. A 30-day final adoption period begins upon final publication in the *Virginia Register*.

The Governor may review the final regulation during this time and, if he objects, forward his objection to the Registrar and the agency. In addition to or in lieu of filing a formal objection, the Governor may suspend the effective date of a portion or all of a regulation until the end of the next regular General Assembly session by issuing a directive signed by a majority of the members of the appropriate legislative body and the Governor. The Governor's objection or suspension of the regulation, or both, will be published in the *Virginia Register*. If the Governor finds that changes made to the proposed regulation have substantial impact, he may require the agency to provide an additional 30-day public comment period on the changes. Notice of the additional public comment period required by the Governor will be published in the *Virginia Register*.

The agency shall suspend the regulatory process for 30 days when it receives requests from 25 or more individuals to solicit additional public comment, unless the agency determines that the changes have minor or inconsequential impact.

A regulation becomes effective at the conclusion of the 30-day final adoption period, or at any other later date specified by the promulgating agency, unless (i) a legislative objection has been filed, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 21-day objection period; (ii) the Governor exercises his authority to require the agency to provide for additional public comment, in which event the regulation,

unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the period for which the Governor has provided for additional public comment; (iii) the Governor and the General Assembly exercise their authority to suspend the effective date of a regulation until the end of the next regular legislative session; or (iv) the agency suspends the regulatory process, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 30-day public comment period and no earlier than 15 days from publication of the readopted action.

A regulatory action may be withdrawn by the promulgating agency at any time before the regulation becomes final.

FAST-TRACK RULEMAKING PROCESS

Section 2.2-4012.1 of the Code of Virginia provides an exemption from certain provisions of the Administrative Process Act for agency regulations deemed by the Governor to be noncontroversial. To use this process, Governor's concurrence is required and advance notice must be provided to certain legislative committees. Fast-track regulations will become effective on the date noted in the regulatory action if no objections to using the process are filed in accordance with § 2.2-4012.1.

EMERGENCY REGULATIONS

Pursuant to § 2.2-4011 of the Code of Virginia, an agency, upon consultation with the Attorney General, and at the discretion of the Governor, may adopt emergency regulations that are necessitated by an emergency situation. An agency may also adopt an emergency regulation when Virginia statutory law or the appropriation act or federal law or federal regulation requires that a regulation be effective in 280 days or less from its enactment. The emergency regulation becomes operative upon its adoption and filing with the Registrar of Regulations, unless a later date is specified. Emergency regulations are limited to no more than 18 months in duration; however, may be extended for six months under certain circumstances as provided for in § 2.2-4011 D. Emergency regulations are published as soon as possible in the *Register*. During the time the emergency status is in effect, the agency may proceed with the adoption of permanent regulations through the usual procedures. To begin promulgating the replacement regulation, the agency must (i) file the Notice of Intended Regulatory Action with the Registrar within 60 days of the effective date of the emergency regulation and (ii) file the proposed regulation with the Registrar within 180 days of the effective date of the emergency regulation. If the agency chooses not to adopt the regulations, the emergency status ends when the prescribed time limit expires.

STATEMENT

The foregoing constitutes a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2 of the Code of Virginia be examined carefully.

TITLE 12. HEALTH

DEPARTMENT OF MEDICAL ASSISTANCE SERVICES

Emergency Regulation

Title of Regulation: **12VAC30-60. Standards Established and Methods Used to Assure High Quality Care (amending 12VAC30-60-5).**

Statutory Authority: § 32.1-325 of the Code of Virginia; 42 USC § 1396 et seq.

Effective Dates: October 23, 2018, through April 22, 2020.

Agency Contact: Emily McClellan, Regulatory Supervisor, Policy Division, Department of Medical Assistance Services, 600 East Broad Street, Suite 1300, Richmond, VA 23219, telephone (804) 371-4300, FAX (804) 786-1680, or email emily.mcclellan@dmass.virginia.gov.

Preamble:

Section 2.2-4011 of the Code of Virginia states that agencies may adopt emergency regulations in situations in which Virginia statutory law or the appropriation act or federal law or federal regulation requires that a regulation be effective in 280 days or less from its enactment, and the regulation is not exempt under the provisions of § 2.2-4006 A 4 of the Code of Virginia. Item 303 X of Chapter 2 of the 2018 Acts of the Assembly, Special Session I, directs the agency to make changes to the utilization review and provider qualifications for community mental health services in order to ensure appropriate utilization and cost efficiency.

The amendments provide clarification to providers of the documentation required to establish that services are rendered by individuals with appropriate qualifications and credentials and update the regulations to include Department of Health Professions requirements for registration of qualified mental health professionals.

12VAC30-60-5. Applicability of utilization review requirements.

A. These utilization requirements shall apply to all Medicaid covered services unless otherwise specified.

B. Some Medicaid covered services require an approved service authorization prior to service delivery in order for reimbursement to occur. ~~4~~ To obtain service authorization, all providers' information supplied to the Department of Medical Assistance Services (DMAS), service authorization contractor, or the behavioral health service authorization contractor shall be fully substantiated throughout individuals' medical records.

~~2~~ C. Providers shall be required to maintain documentation detailing all relevant information about the Medicaid individuals who are in providers' care. Such documentation shall fully disclose the extent of services provided in order to support providers' claims for reimbursement for services rendered. This documentation shall be written, signed, and dated at the time the services are rendered unless specified otherwise.

D. Providers shall maintain documentation that demonstrates that individuals providing services have the required qualifications established by DMAS, the Department of Health Professions (DHP), or the Department of Behavioral Health and Developmental Services (DBHDS).

~~E~~ E. DMAS, or its designee, shall perform reviews of the utilization of all Medicaid covered services pursuant to 42 CFR 440.260 and 42 CFR Part 456.

~~D~~ F. DMAS shall recover expenditures made for covered services when providers' documentation does not comport with standards specified in all applicable regulations.

Regulations

~~E. G.~~ Providers who are determined not to be in compliance with DMAS requirements shall be subject to 12VAC30-80-130 for the repayment of those overpayments to DMAS.

~~F. H.~~ Utilization review requirements specific to community mental health services, as set out in 12VAC30-50-130 and 12VAC30-50-226, shall be as follows:

1. To apply to be reimbursed as a Medicaid provider, the required ~~Department of Behavioral Health and Developmental Services (DBHDS)~~ DHBDS license shall be either a full, annual, triennial, or conditional license. Providers must be enrolled with DMAS or the ~~BHSA~~ behavioral health services administrator to be reimbursed. Once a health care entity has been enrolled as a provider, it shall maintain, and update periodically as DMAS requires, a current Provider Enrollment Agreement for each Medicaid service that the provider offers.

2. Health care entities with provisional licenses issued by DBHDS shall not be reimbursed as Medicaid providers of ~~community mental health services~~.

3. Payments shall not be permitted to health care entities that either hold provisional licenses or fail to enter into a Medicaid Provider Enrollment Agreement for a service prior to rendering that service.

4. The behavioral health service authorization contractor shall apply a national standardized set of medical necessity criteria in use in the industry, such as McKesson InterQual Criteria, or an equivalent standard authorized in advance by DMAS. Services that fail to meet medical necessity criteria shall be denied service authorization.

5. Service providers shall maintain documentation to establish that services are rendered by individuals with appropriate qualifications and credentials, including proof of licensure or registration through DHP if applicable. Qualified mental health professional-eligibles shall maintain documentation of supervision and of progress toward the requirements for DHP registration as a qualified mental health professional-child or progress toward the requirements for DHP registration as a qualified mental health professional-adult.

Final Regulation

Titles of Regulations: **12VAC30-50. Amount, Duration, and Scope of Medical and Remedial Care Services (amending 12VAC30-50-130).**

12VAC30-60. Standards Established and Methods Used to Assure High Quality Care (amending 12VAC30-60-61).

12VAC30-80. Methods and Standards for Establishing Payment Rates; Other Types of Care (adding 12VAC30-80-97).

12VAC30-120. Waivered Services (amending 12VAC30-120-380).

Statutory Authority: § 32.1-325 of the Code of Virginia; 42 USC § 1396 et seq.

Effective Date: December 12, 2018.

Agency Contact: Emily McClellan, Regulatory Supervisor, Policy Division, Department of Medical Assistance Services, 600 East Broad Street, Suite 1300, Richmond, VA 23219, telephone (804) 371-4300, FAX (804) 786-1680, or email emily.mcclellan@dmas.virginia.gov.

Summary:

The amendments establish Medicaid coverage for behavioral therapy services for children under the authority of the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) program. EPSDT is a mandatory Medicaid-covered service that offers preventive, diagnostic, and treatment health care services to individuals from birth through the age 21 years. To be covered for this service, an individual must have a psychiatric diagnosis relevant to the need for behavioral therapy services, including autism, autism spectrum disorders, or other similar developmental delays and must meet the medical necessity criteria. The amendments define the behavioral therapy service requirements, medical necessity criteria, provider clinical assessment and intake procedures, service planning and progress measurement requirements, care coordination, clinical supervision, and other standards to assure quality. The behavioral therapy service will be reimbursed by the Department of Medical Assistance Services outside of the Medallion 3 managed care contracts.

The proposed amendments to 12VAC30-120-180 were not adopted in the final regulation; therefore, managed care organizations are allowed to provide services. Changes in that section related to documentation will be addressed in a separate regulatory action.

Regulations

STATE BOARD OF BEHAVIORAL HEALTH AND DEVELOPMENTAL SERVICES

Fast-Track Regulation

Title of Regulation: 12VAC35-190. Regulations for Voluntary Admissions to State Training Centers (amending 12VAC35-190-10, 12VAC35-190-21, 12VAC35-190-30).

Statutory Authority: §§ 37.2-203 and 37.2-806 of the Code of Virginia.

Public Hearing Information: No public hearings are scheduled.

Public Comment Deadline: December 12, 2018.

Effective Date: December 27, 2018.

Agency Contact: Ruth Anne Walker, Regulatory Coordinator, Department of Behavioral Health and Developmental Services, 1220 Bank Street, 11th Floor, Richmond, VA 23219, telephone (804) 225-2252, FAX (804) 786-8623, TTY (804) 371-8977, or email ruthanne.walker@dbhds.virginia.gov.

Basis: Section 37.2-203 of the Code of Virginia authorizes the State Board of Behavioral Health and Developmental Services to adopt regulations that may be necessary to carry out the provisions of Title 37.2 of the Code of Virginia and other laws of the Commonwealth administered by the commissioner and the department.

Purpose: This action is the result of a periodic review. No comments were received during the review. With only two exceptions the amendments are not substantive and merely update language to mirror language in the Code of Virginia or in 12VAC35-115, Regulations to Assure the Rights of Individuals Receiving Services from Providers Licensed, Funded, or Operated by the Department of Behavioral Health and Developmental Services. The two substantive changes are (i) the addition of the definition of "regional support team" (RST) and the function of the RST to the discharge planning process, which is initiated at admission, and (ii) the addition of the assistant commissioner having responsibility for the training center as part of the admission process. These two changes mirror practices that have been in place since 2012.

Rationale for Using Fast-Track Rulemaking Process: This action is the result of a periodic review. No comments were received during the review. The amendments merely update language to mirror current language in state law, regulation, or practices that have been in place since 2012.

Substance: The amendments (i) update definitions of authorized representative, community services board, and training center; (ii) add definitions of department, intellectual disability, individual, and regional support team; (iii) add "in consultation with" in two sections to include RSTs in the

process described in 12VAC35-190-21 regarding applications for admission and the assistant commissioner having responsibility for the training center in 12VAC35-190-30 regarding the criteria for admission; and (iv) delete the definition for "mental retardation" and the term throughout the regulation.

Issues: This action is the result of a periodic review, which includes a public comment period. The proposed amendments will provide clarity for interested stakeholders and the system by providing updated language to mirror language in the Code of Virginia, 12VAC35-115, and current practice.

Small Business Impact Review Report of Findings: This fast-track regulatory action serves as the report of the findings of the regulatory review pursuant to § 2.2-4007.1 of the Code of Virginia.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. As the result of a periodic review,¹ the State Board of Behavioral Health and Developmental Services (Board) proposes to: 1) add a definition for "regional support team" (RST),² 2) specify that community services boards (CSB) must consult with the RST prior to preparing a preadmission screening to a state training center,³ 3) specify that the director of the training center consult with the assistant commissioner responsible for the training center in determining whether admission is appropriate, and 4) update language to mirror language in § 37.2-100 of the Code of Virginia⁴ or in 12VAC35-115, Regulations to Assure the Rights of Individuals Receiving Services from Providers Licensed, Funded, or Operated by the Department Of Behavioral Health and Developmental Services.⁵

Result of Analysis. The benefits likely exceed the costs for the proposed regulation.

Estimated Economic Impact:

Background. The Regulations for Voluntary Admissions to State Training Centers are designed to: 1) inform individuals, authorized representatives, Department of Behavioral Health and Developmental Services (DBHDS) employees, community services board staff, and pertinent stakeholders of the process and procedures related to admitting individuals with intellectual disabilities to state training centers, 2) educate responsible persons on the approved criteria for admission to training centers, and 3) inform individuals and authorized representatives of the appeal process if they should disagree with the admission decision.

In 2012, the federal government and Virginia entered into a settlement agreement⁶ concerning how the Commonwealth provides services to its intellectually and developmentally disabled population. As a result of that settlement agreement, RSTs were then created, and CSBs were required to consult

with the RST prior to preparing a preadmission screening to a state training center. Additionally, the director of training centers have been required to consult with the assistant commissioner responsible for the training center in determining whether admission is appropriate.

Analysis. The proposal to update language to mirror the Code of Virginia and 12VAC35-115 provides improved clarity and does not affect requirements in practice. The existence of and requirement for consultation with RSTs, and the requirement for consultation with the assistant commissioner, have been legally required through the settlement agreement since 2012. Thus, the only impact of the proposed language amendments would be to better inform the public of current legal requirements and procedures. Consequently, the benefits of the proposed amendments exceed the costs.

Businesses and Entities Affected. The proposed amendments affect the 40 Virginia CSBs, 3 training centers operated by DBHDS, and 5 RSTs.⁷

Localities Particularly Affected. The proposed regulation does not disproportionately affect particular localities.

Projected Impact on Employment. The proposed amendments do not affect employment.

Effects on the Use and Value of Private Property. The proposed amendments do not affect the user and value of private property.

Real Estate Development Costs. The proposed amendments do not affect real estate development costs.

Small Businesses:

Definition

Pursuant to § 2.2-4007.04 of the Code of Virginia, small business is defined as "a business entity, including its affiliates, that (i) is independently owned and operated and (ii) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million."

Costs and Other Effects. The proposed amendments do not affect costs for small businesses.

Alternative Method that Minimizes Adverse Impact. The proposed amendments do not adversely affect small businesses.

Adverse Impacts:

Businesses. The proposed amendments do not adversely affect businesses.

Localities. The proposed amendments do not adversely affect localities.

Other Entities. The proposed amendments do not adversely affect other entities.

Fast-Track Regulation

Title of Regulation: **12VAC35-200. Regulations for Emergency and Respite Care Admission to State Training Centers (amending 12VAC35-200-10, 12VAC35-200-20, 12VAC35-200-30).**

Statutory Authority: §§ 37.2-203 and 37.2-807 of the Code of Virginia.

Public Hearing Information: No public hearings are scheduled.

Public Comment Deadline: December 12, 2018.

Effective Date: December 27, 2018.

Agency Contact: Ruth Anne Walker, Regulatory Coordinator, Department of Behavioral Health and Developmental Services, 1220 Bank Street, 11th Floor, Richmond, VA 23219, telephone (804) 225-2252, FAX (804) 786-8623, TTY (804) 371-8977, or email ruthanne.walker@dbhds.virginia.gov.

Basis: Section 37.2-203 of the Code of Virginia authorizes the State Board of Behavioral Health and Developmental Services to adopt regulations that may be necessary to carry out the provisions of Title 37.2 of the Code of Virginia and other laws of the Commonwealth administered by the commissioner and the department.

Purpose: This action is the result of a periodic review. No comments were received during the review. With only two exceptions, the amendments are not substantive and merely

update language to mirror language in the Code of Virginia or in 12VAC35-115, Regulations to Assure the Rights of Individuals Receiving Services from Providers Licensed, Funded, or Operated by the Department of Behavioral Health and Developmental Services. The two substantive changes are (i) the addition of the definition of "regional support team" (RST) and the function of the RST to the discharge planning process, which is initiated at admission, and (ii) consultation with the assistant commissioner having responsibility for the training center as a part of the admission process. These two changes mirror practices that have been in place since 2012.

Chapter 8 (§ 37.2-800 et seq.) of Title 37.2 of the Code of Virginia allows for emergency or respite admissions to state training centers operated by the Department of Behavioral Health and Developmental Services (DBHDS). For an emergency situation that can be supported through a training center admission after all community resources have been exhausted, or family members or caregivers who seek relief through respite, this regulation is essential to protect the health, safety, and welfare of citizens because it makes clear the procedures for individual emergency and respite admissions to state training centers operated by the Department of Behavioral Health and Developmental Services.

Rationale for Using Fast-Track Rulemaking Process: This action is the result of a periodic review. No comments were received during the review. The amendments merely update language to mirror current language in state law, regulation, or practices that have been in place since 2012.

Substance: The amendments (i) update definitions of authorized representative, community services board, individual, and training center; (ii) add definitions of admission, department, intellectual disability, and regional support team; (iii) add "in consultation with" to two sections to include RSTs in the process described in 12VAC35-200-20 regarding the application for admission and to include the assistant commissioner having responsibility for the training center in 12VAC35-200-30 regarding the criteria for admission; and (iv) delete the definition for "mental retardation" and the term wherever it appears throughout the regulation.

Issues: This action is the result of a periodic review, which includes a public comment period. The proposed amendments will provide clarity for interested stakeholders and the developmental services system, including DBHDS, community services boards, individuals receiving services, and their families, by providing updated language to mirror language in the Code of Virginia and 12VAC35-115, and current practice. There are no disadvantages to the public or the Commonwealth.

Small Business Impact Review Report of Findings: This fast-track regulatory action serves as the report of the findings of

Regulations

the regulatory review pursuant to § 2.2-4007.1 of the Code of Virginia.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. As the result of a periodic review,¹ the State Board of Behavioral Health and Developmental Services (Board) proposes to: 1) add a definition for "regional support team" (RST);² 2) specify that community services boards (CSB) must consult with the RST: prior to preparing an application for respite care at a state training center,³ in determining whether respite care for the individual in question is available in the community, and in determining whether an application for emergency admission is appropriate due to a lack of services in the community; 3) specify that the director of the training center consult with the assistant commissioner responsible for the training center: in determining eligibility for respite care services or emergency admission, and whether the training center is able to provide emergency services; and 4) update language to mirror language in § 37.2-100 of the Code of Virginia⁴ or in 12 VAC 35-115, Regulations to Assure the Rights of Individuals Receiving Services from Providers Licensed, Funded, or Operated by the Department Of Behavioral Health and Developmental Services.⁵

Result of Analysis. The benefits likely exceed the costs for the proposed regulation.

Estimated Economic Impact:

Background. The Regulations for Emergency and Respite Care Admission to State Training Centers are designed to: 1) inform individuals, authorized representatives, Department of Behavioral Health and Developmental Services (DBHDS) employees, CSB staff, and pertinent stakeholders of the process and procedures related to admitting individuals with an intellectual disability to state training centers for the purpose of providing emergency and respite supports, 2) educate responsible persons on the approved criteria for emergency and respite admissions to training centers, and 3) inform individuals and authorized representatives of the appeal process if they should disagree with the admission decision.

In 2012, the federal government and Virginia entered into a settlement agreement⁶ concerning how the Commonwealth provides services to its intellectually and developmentally disabled population. As a result of that settlement agreement, RSTs were created, and CSBs were required to consult with the RST for the functions that are proposed to be added in this action. Additionally, the director of training centers have been required to consult with the assistant commissioner as described above.

Analysis. The proposal to update language to mirror the Code of Virginia and 12VAC35-115 provides improved clarity and does not affect requirements in practice. The existence of and

requirement for consultation with RSTs, and the requirement for consultation with the assistant commissioner, have been legally required through the settlement agreement since 2012. Thus, the only impact of the proposed language amendments would be to better inform the public of current legal requirements and procedures. Consequently, the benefits of the proposed amendments exceed the costs.

Businesses and Entities Affected. The proposed amendments affect the 40 Virginia CSBs, 3 training centers operated by DBHDS, and 5 RSTs.⁷

Localities Particularly Affected. The proposed amendments do not disproportionately affect particular localities.

Projected Impact on Employment. The proposed amendments do not affect employment.

Effects on the Use and Value of Private Property. The proposed amendments do not affect the user and value of private property.

Real Estate Development Costs. The proposed amendments do not affect real estate development costs.

Small Businesses:

Definition. Pursuant to § 2.2-4007.04 of the Code of Virginia, small business is defined as "a business entity, including its affiliates, that (i) is independently owned and operated and (ii) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million."

Costs and Other Effects. The proposed amendments do not affect costs for small businesses.

Alternative Method that Minimizes Adverse Impact. The proposed amendments do not adversely affect small businesses.

Adverse Impacts:

Businesses. The proposed amendments do not adversely affect businesses.

Localities. The proposed amendments do not adversely affect localities.

Other Entities. The proposed amendments do not adversely affect other entities.

If the training center is able to provide emergency services, arrangements shall be made to effect the admission as soon as possible.

If the training center is unable to provide emergency services to an eligible individual, the training center director or designee shall provide written notice of this determination to the CSB and may offer in consultation with department staff to try to obtain emergency services from another appropriate facility.

TITLE 19. PUBLIC SAFETY

DEPARTMENT OF STATE POLICE

Fast-Track Regulation

Title of Regulation: 19VAC30-40. Standards and Specifications for the Stickers or Decals Used by Cities, Counties and Towns in Lieu of License Plates (amending 19VAC30-40-30).

NOTICE: Forms used in administering the regulation have been filed by the agency. The forms are not being published; however, online users of this issue of the Virginia Register of Regulations may click on the name of a form with a hyperlink to access it. The forms are also available from the agency contact or may be viewed at the Office of the Registrar of Regulations, 900 East Main Street, 11th Floor, Richmond, Virginia 23219.

Regulations

Statutory Authority: § 46.2-1052 of the Code of Virginia.

Public Hearing Information: No public hearings are scheduled.

Public Comment Deadline: December 12, 2018.

Effective Date: January 1, 2019.

Agency Contact: Kirk Marlowe, Regulatory Coordinator, Bureau of Administrative and Support Services, Department of State Police, P.O. Box 27472, Richmond, VA 23261-7472, telephone (804) 674-4606, FAX (804) 674-2936, or email kirk.marlowe@vsp.virginia.gov.

Basis: Section 46.2-1052 of the Code of Virginia authorizes the Superintendent of State Police to promulgate regulations stipulating size and location of stickers or decals.

Purpose: In 2017, the regulations relating to the placement of the Virginia motor vehicle inspection sticker were amended to shift the placement of that sticker from the lower center to the lower left-hand corner of the windshield when viewed from inside the vehicle. That amendment impacts the optional placement of the sticker and requires this regulation to be amended to reflect the new proper positioning for the county, city, or town sticker. The change is necessary to allow for the lawful placement of the county sticker so that it does not interfere with the operator's vision and will not obstruct the proper placement of the inspection sticker. Improper placement of stickers on the windshield would interfere with the operator's vision and endanger the public by limiting the operator's ability to observe pedestrians, hazards, and other traffic.

Rationale for Using Fast-Track Rulemaking Process: The amendment is intended to ensure that the placement of the county, city, or town sticker does not interfere with the placement of the Virginia inspection sticker and to ensure that any placement does not illegally interfere with the vehicle operator's clear field of vision. The change in placement provides two options and does not add or remove any requirement for such sticker.

Substance: 19VAC30-40-30 is amended to allow the owner of the vehicle an option to place a county, city, or town sticker or decal either next to the Virginia motor vehicle inspection sticker in the lower driver's side corner of the windshield or behind the rear view mirror. The current regulation allows a placement that may interfere with proper display of the inspection sticker.

Issues: The amendment ensures that the placement of the county, city, or town sticker does not interfere with the placement of the mandatory Virginia inspection sticker and prohibits placements that would impair the driver's field of vision. There are no advantages or disadvantages to the public, Commonwealth, or agency in the placement of the sticker other than the improper placement may limit the operator's visibility thereby endangering the public.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. The Department of State Police (DSP) proposes to amend the text concerning where owners of vehicles in localities where stickers or decals are used in lieu of license plates may place the sticker or decal on their vehicle. The proposed change is in response to a change to the Motor Vehicle Safety Inspection Regulations (19VAC30-70) that produced a conflict.

Result of Analysis. The benefits likely exceed the costs for all proposed changes.

Estimated Economic Impact. The current Standards and Specifications for the Stickers or Decals Used By Cities, Counties and Towns in Lieu of License Plates (19VAC30-40) states that the sticker or decal shall be placed at the bottom of the windshield adjacent to the right side of the official inspection sticker when viewed through the windshield from inside the vehicle, or may be affixed at the lower left corner of the windshield.

Through an exempt action¹ that became effective on January 26, 2018, DSP amended the Motor Vehicle Safety Inspection Regulations (19VAC30-70) to shift the required placement of the Virginia motor vehicle inspection sticker from the lower center to the lower left hand corner of the windshield, when viewed from inside the vehicle. That amendment affects the optional placement of the sticker or decal used by counties, cities, and towns in lieu of license plates.

Thus, DSP proposes to amend Standards and Specifications for the Stickers or Decals Used By Cities, Counties and Towns in Lieu of License Plates (19VAC30-40) to reflect a new positioning for the county of city sticker that does not conflict with the Commonwealth's inspection sticker. That location is "the blind spot behind the rear view mirror." The proposed amendment produces a net benefit since it eliminates a conflict with another regulation, and does not produce a cost.

Businesses and Entities Affected. The proposed amendment affects owners of vehicles in the counties and cities that require a county or city sticker or decal.

Localities Particularly Affected. The Counties of Amelia, Buckingham, Caroline, Fairfax, Grayson, Pulaski, Rockbridge, Tazewell, and Warren, and the Cities of Buena Vista, Colonial Heights, Falls Church, and Petersburg, all require stickers or decals. Thus, these localities are particularly affected.

Projected Impact on Employment. The proposed amendment would not affect employment.

Effects on the Use and Value of Private Property. The proposed amendment would not significantly affect the use and value of private property.

Real Estate Development Costs. The proposed amendment would not affect real estate development costs.

Small Businesses:

Definition. Pursuant to § 2.2-4007.04 of the Code of Virginia, small business is defined as "a business entity, including its affiliates, that (i) is independently owned and operated and (ii) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million."

Costs and Other Effects. The proposed amendment would not affect costs for small businesses.

Alternative Method that Minimizes Adverse Impact. The proposed amendment would not adversely affect small businesses.

Adverse Impacts:

Businesses. The proposed amendment would not adversely affect businesses.

Localities. The proposed amendment would not adversely affect localities.

Other Entities. The proposed amendment would not adversely affect other entities.

~~the sticker or decal must be affixed within three inches of the bottom of the windshield placed in the blind spot behind the rear view mirror.~~

Agency's Response to Economic Impact Analysis: The agency has reviewed and concurs with the economic impact analysis prepared and submitted by the Department of Planning and Budget.

Summary:

The amendment specifies the size and location of stickers placed on the windshields of motor vehicles in the cases where a sticker is required by a county, city, or town. A required sticker may be placed either behind the rear view mirror or adjacent to the Virginia motor vehicle inspection sticker located in driver's side lower corner of the windshield.

19VAC30-40-30. Placement.

The sticker or decal shall be placed at the bottom of the windshield adjacent to the right side of the official inspection sticker when viewed through the windshield from inside the vehicle. The side edge adjacent to the official inspection sticker shall not be more than 1/4 inch from the edge of the official inspection sticker. At the option of the motor vehicle's owner, the sticker or decal, provided it measures not more than two and one-half inches in width and four inches in length, may be affixed ~~at the lower left corner of the windshield so that the inside or left edge of the sticker or decal is within one inch of the extreme left edge of the windshield when looking through the windshield from inside the vehicle. EXECUTIVE ORDER NUMBER TWENTY-THREE (2018)

Declaration of a State of Emergency for the Commonwealth of Virginia Due to Hurricane Michael and in Support of States Affected by the Storm

Importance of the Issue

On this date, October 11, 2018, I declare that a state of emergency exists in the Commonwealth of Virginia based on the need to prepare and coordinate our response to potential impacts from Hurricane Michael, a Category 4 storm that will impact Florida, Georgia, South Carolina, North Carolina, and Virginia. This storm could produce heavy rainfall, power outages, and flooding in the Commonwealth and result in severe impacts to the southeastern portions of the United States, including loss of life and infrastructure damage. In order to save lives, restore infrastructure damage, assist other states impacted by this storm, and facilitate the rapid movement of private sector and public resources from and through Virginia, I hereby authorize state preparations under the full authorities of this Office.

State action is required to protect the health and general welfare of Virginia residents. The anticipated effects of this situation constitute a disaster wherein human life and public and private property are, or are likely to be, imperiled, as described in § 44-146.16 of the Code of Virginia.

Therefore, by virtue of the authority vested in me by § 44-146.17 of the Code of Virginia, as Governor and as Director of Emergency Management, and by virtue of the authority vested in me by Article V, Section 7 of the Constitution of Virginia and by § 44-75.1 of the Code of Virginia, as Commander-in-Chief of the armed forces of the Commonwealth, and subject always to my continuing and ultimate authority and responsibility to act in such matters, I hereby proclaim a state of emergency exists. Accordingly, I direct state and local governments to render appropriate assistance to prepare for potential storm impacts, to alleviate any conditions resulting from the situation, and to implement recovery and mitigation operations and activities so as to return impacted areas to pre-event conditions as much as possible.

In order to marshal all public resources and appropriate preparedness, response, and recovery measures to meet this threat and recover from its effects, and in accordance with my authority contained in § 44-146.17 of the Code of Virginia, I order the following:

A. Implementation of the Commonwealth of Virginia Emergency Operations Plan (COVEOP), as amended, by state agencies along with other appropriate state plans.

B. Activation of the Virginia Emergency Operations Center (VEOC) and the Virginia Emergency Support Team (VEST), as directed by the State Coordinator of Emergency Management, to coordinate the provision of assistance to

local governments and emergency services assignments of other agencies as necessary and determined by the State Coordinator of Emergency Management and other agencies as appropriate.

C. Activation of the Virginia National Guard and the Virginia Defense Force to state active duty to assist in providing such aid. This shall include Virginia National Guard assistance to the Virginia Department of State Police to direct traffic, prevent looting, and perform such other law enforcement functions as the Superintendent of State Police (in consultation with the State Coordinator of Emergency Management, the Adjutant General, and the Secretary of Public Safety and Homeland Security) may find necessary. Pursuant to § 52-6 of the Code of Virginia, I authorize the Superintendent of the Department of State Police to appoint any and all such Virginia Army and Air National Guard personnel called to state active duty as additional police officers as deemed necessary. These police officers shall have the same powers and perform the same duties as the Virginia State Police officers appointed by the Superintendent. Any bonds and/or insurance required by § 52-7 of the Code of Virginia shall be provided for these additional police officers at the expense of the Commonwealth. In all instances, members of the Virginia National Guard and Virginia Defense Force shall remain subject to military command as prescribed by § 44-78.1 of the Code of Virginia and are not subject to the civilian authorities of county or municipal governments.

D. Evacuation of areas threatened or stricken by effects of this event, as appropriate. Pursuant to § 44-146.17(1) of the Code of Virginia, I reserve the right to direct and compel the evacuation of all or part of the populace therein from such areas upon a determination by the State Coordinator of Emergency Management. I reserve the right to control the ingress and egress at an emergency area, including the movement of persons within the area and the occupancy of premises therein based upon a determination made by the State Coordinator of Emergency Management. Violations of any order to citizens to evacuate shall constitute a violation of this Executive Order and are punishable as a Class 1 misdemeanor.

E. Activation, implementation, and coordination of appropriate mutual aid agreements and compacts, including the Emergency Management Assistance Compact (EMAC), and the authorization of the State Coordinator of Emergency Management to enter into any other supplemental agreements, pursuant to §§ 44-146.17(5) and 44-146.28:1 of the Code of Virginia. The State Coordinator of Emergency Management is hereby designated as Assistance Compact, § 44-146.28:1 of the Code of Virginia.

F. This Emergency Declaration implements limited relief from the provisions of 49 CFR §§ 390.23 and 395.3 for the

purpose of providing direct relief or assistance as a result of this disaster.

G. Authorization of the Virginia Departments of State Police, Transportation, and Motor Vehicles to grant temporary overweight, over width, registration, license, or hours of service exemptions to all carriers transporting essential emergency relief supplies to, through and from any area of the Commonwealth. This authorization also applies to water, food, heating oil, motor fuels or propane, or agricultural products, agricultural supplies, livestock and poultry, livestock and poultry feed, forest products and salvaged wood, waste, and trees cut in preparation for the storm, or providing restoration of utilities (including but not limited to electricity, gas, phone, water, wastewater, and cable) or removal of waste to, through and from any area of the Commonwealth in order to support the disaster response and recovery, regardless of the point of origin or destination. Weight exemptions are not valid on posted structures for restricted weight. Weight exemptions are also not valid on interstate highways unless there is an associated Federal emergency declaration. The exemption shall not exceed the duration of the motor carrier's or driver's direct assistance in providing emergency relief, or 30 days from the initial declaration of emergency, whichever is less.

1. All over-width loads, up to a maximum of 12 feet, and over-height loads up to a maximum of 14 feet must follow Virginia Department of Motor Vehicles' hauling permit and safety guidelines.

2. In addition to described overweight/over-width transportation privileges, carriers are also exempt from vehicle registration with the Department of Motor Vehicles. This includes vehicles en route or returning to their home base. The agencies cited in this provision shall communicate this information to all staff responsible for permit issuance and truck legalization enforcement.

H. Implementation and discontinuance of the transportation-related provisions authorized above shall be disseminated by the publication of administrative notice to all affected and interested parties. I hereby delegate to the Secretary of Public Safety and Homeland Security, after consultation with other affected Cabinet Secretaries, the authority to implement and disseminate this Order as set forth in § 2.2-104 of the Code of Virginia.

I. Authorization of the Commissioner of Agriculture and Consumer Services to grant a temporary waiver of the maximum vapor pressure prescribed in regulation 2VAC5-425 et seq., and to prescribe a vapor pressure limit the Commissioner deems reasonable. The temporary waiver shall remain in effect until emergency relief is no longer necessary, as determined by the Commissioner of Agriculture and Consumer Services.

J. Provision of appropriate assistance, including temporary assignments of non-essential state employees to the Adjunct Emergency Workforce, be rendered by state agencies to respond to this situation.

K. Authorization for the heads of executive branch agencies, with the concurrence of their Cabinet Secretary, to act, when appropriate, on behalf of their regulatory boards to waive any state requirement or regulation when the federal government has waived the corresponding federal or state regulation based on the impact of events related to this situation.

L. Authorization for the State Veterinarian to grant exemptions for specific requirements for the importation of agricultural and companion animals into the Commonwealth from affected areas.

M. Activation of the statutory provisions in § 59.1-525 et seq. of the Code of Virginia related to price gouging.

N. Authorization of a maximum of \$2,000,000 in state sum sufficient funds for state and local government mission assignments authorized and coordinated through the Virginia Department of Emergency Management that are allowable as defined by The Stafford Act, 42 USC § 5121 et seq. and the EMAC. Such funding shall be based on the reimbursements anticipated under the Emergency Management Assistance Compact (EMCA). This funding is also available for state response and recovery operations and incident documentation. Out of this state disaster sum sufficient, an amount estimated at \$250,000 is authorized for the Department of Military Affairs for the state's portion of the eligible disaster-related costs. Such costs include any amounts incurred for salaries, travel, and meals during mission assignments authorized and coordinated through the Virginia Department of Emergency Management.

O. Authorization of up to \$100,000 in sum sufficient funds shall be made available for operation of the VEOC.

P. Implementation by public agencies under my supervision and control of their emergency assignments as directed in the COVEOP without regard to normal procedures pertaining to performance of public work, entering into contracts, incurring of obligations or other logistical and support measures of the Emergency Services and Disaster Laws, as provided in § 44-146.28(b) of the Code of Virginia. Section 44-146.24 of the Code of Virginia also applies to the disaster activities of state agencies.

STATE BOARD OF BEHAVIORAL HEALTH AND DEVELOPMENTAL SERVICES

Small Business Impact Review - Report of Findings

Pursuant to § 2.2-4007.1 of the Code of Virginia, the State Board of Behavioral Health and Developmental Services conducted a small business impact review of **12VAC35-180, Regulations to Assure the Protection of Subjects in Human Research**, and determined that this regulation should be retained in its current form. The State Board of Behavioral Health and Developmental Services is publishing its report of findings dated October 9, 2018, to support this decision in accordance with § 2.2-4007.1 F of the Code of Virginia.

This regulation needs to remain in place to ensure the health, safety, and welfare of the individuals involved in human research. There is no reason to delay the adoption of these changes by using the standard process; there were no comments received during the public comment period of the periodic review. The structure set out in the regulation is in accordance with other applicable federal and state laws and regulations. It is not legally possible to minimize compliance and reporting requirements. This type of research is rare in the behavioral health and developmental services system, and the framework within which the research can be conducted is narrow. Thus, the impact to the provider is negligible and the edits represent only existing statute or regulation.

Administrative Letter 2018-06

TO: All Carriers Licensed to Market Credit Life Insurance or Credit Accident and Sickness Insurance in Virginia and Interested Parties

RE: Credit Life Insurance and Credit Accident and Sickness Insurance Premium Rates Effective January 1, 2019

This Administrative Letter Withdraws and Replaces Administrative Letter 2015-12.

On August 22, 2018, the Virginia State Corporation Commission (the "Commission") issued an Order Adopting Adjusted Prima Facie Rates for the Triennium Commencing January 1, 2019, Case No. INS-2018-00030. All insurers licensed to market credit life insurance or credit accident and sickness insurance in Virginia were mailed a copy of the Order and the adopted rates on August 24, 2018. Pursuant to § 38.2-3725 D and E of the Code of Virginia, the adjusted prima facie rates for the triennium commencing January 1, 2019 will remain in effect until January 1, 2022.

Each company marketing credit life insurance or credit accident and sickness insurance in Virginia must submit the rates and refund formulas applicable to the upcoming triennium to the Bureau for approval if its rates currently on file exceed the adjusted prima facie rates set forth in Case No. INS-2018-00030. Each filing should include the following information:

- The specific single premium and monthly outstanding balance (MOB) rates and rate formulas, and examples of the rate formulas;
- All refund formulas, including examples;
- Any other information required to document the development of the rates and refund formulas;
- The date of previously approved formulas;
- The form number to which each rate or formula will apply; and
- A description of the referenced forms.

A request for approval of a deviated premium rate or rates to be effective on or after January 1, 2019 may be included as part of the filing referenced above. It should be noted that previously approved deviated premium rates can only be used through December 31, 2018, in accordance with § 38.2-3728 C 1 of the Code of Virginia.

The filing requirement checklists for credit life insurance and credit accident and sickness insurance filings may be found on the Bureau's website at http://www.scc.virginia.gov/boi/co/health/lh_check.aspx.

My staff will review filings as promptly as possible; however, companies that delay making filings until after December 1, 2018 cannot be assured that our review will be completed by January 1, 2019. Any insurer with rates currently on file that exceed the adjusted prima facie rates set forth in Case No. INS-2018-00030 that has not received the Bureau's approval of its revised rates and refund formulas on or before January 1, 2019 must cease marketing credit life insurance or credit accident and sickness insurance in Virginia as of January 1, 2019 and must cease charging premiums for existing MOB contracts as of January 1, 2019 until such date that it has received the Commission's approval, as noted above.

Any questions with regards to any of the above matters should be directed to Amanda G. McCauley, Principal Insurance Market Examiner, Life and Health Division, State Corporation Commission, telephone (804) 371-0034, or email amanda.mccauley@scc.virginia.gov.

STATE BOARD OF SOCIAL SERVICES

Small Business Impact Review - Report of Findings

Pursuant to § 2.2-4007.1 of the Code of Virginia, the State Board of Social Services conducted a small business impact review of **22VAC40-411, General Relief Program**, and determined that this regulation should be retained in its current form. The State Board of Social Services is publishing its report of findings dated December 13, 2017, to support this decision in accordance with § 2.2-4007.1 F of the Code of Virginia.

No comments were received during the periodic review. The regulation was last amended in July 2013, when certain components of the program were eliminated. Upon review, it was determined that this regulation remains necessary to protect the welfare of citizens who are in need of general relief assistance. However, the regulation omits critical

General Notices/Errata

information in the eligibility determination process, and therefore, it is necessary to amend the regulation. As this is a state and local program, there are no overarching federal regulations.

VIRGINIA WASTE MANAGEMENT BOARD

Small Business Impact Review - Report of Findings

Pursuant to § 2.2-4007.1 of the Code of Virginia, the Virginia Waste Management Board conducted a small business impact review of **9VAC20-90, Solid Waste Management Permit Action Fees and Annual Fees**, and determined that this regulation should be retained in its current form. The Virginia Waste Management Board is publishing its report of findings dated October 1, 2018, to support this decision in accordance with § 2.2-4007.1 F of the Code of Virginia.

The current regulation continues to be needed. This regulation is consistent with the requirements of state law and partially funds the oversight of permitted solid waste management facilities. There is no corresponding federal regulation concerning the assessment of a solid waste permit application or the assessment of solid waste permit oversight fees. No public comments were received during the periodic review comment period. The regulation details the fees for permit actions as well as annual permit fees. The regulation may be viewed as complex by some readers since it details the adjustment by the consumer price index (inflation); however, the agency calculates the adjusted fees and amount due from the permit holder as part of the annual billing process. This regulation was last amended in 2013 in response to changes in state law.

Businesses that undertake activities requiring a solid waste management permit are subject to this regulation. Some fees are based on the amount of time to issue a permit action. Other fees are based on the amount of waste material managed. Small businesses generally manage less waste than businesses that are not small businesses and therefore would be subject to smaller annual fees than larger businesses.

Small Business Impact Review - Report of Findings

Pursuant to § 2.2-4007.1 of the Code of Virginia, the Virginia Waste Management Board conducted a small business impact review of **9VAC20-170, Transportation of Solid and**

Medical Wastes on State Waters, and determined that this regulation should be retained in its current form. The Virginia Waste Management Board is publishing its report of findings dated October 1, 2018, to support this decision in accordance with § 2.2-4007.1 F of the Code of Virginia.

The primary goal of this regulation is to protect the environment from discharges of solid wastes, regulated medical wastes, and municipal and industrial sludge from vessels transporting these wastes on state waters. The regulation contains specific container standards that must be met to transport these wastes. These requirements are continued to be needed to protect the environment from spills of these wastes that may occur during the transportation of these wastes. No comments were received during the public comment period for this periodic review. Due to the testing requirements for containers, the regulation is very specific concerning standards containers must meet prior to transportation of wastes on state waters. The standards included in the regulation make the regulation appear to be complex and technical; however, the regulated community is accustomed to implementing and using technical container standards in everyday practice. There are no applicable federal requirements for waste to be containerized to be transported on state waters.

The regulation was originally adopted in November of 2003. The regulation was amended in 2006, 2010, 2011, and 2012. The agency believes the regulation should not be amended or repealed to minimize the economic impact of the regulation on small businesses. The standards for transporting solid waste on Virginia waterways are necessary to protect Virginia waterways from the release of waste into state waters, and the regulation is consistent with the requirements of state law.

Public Meeting and Public Comment for Total Maximum Daily Loads for the Blacks Run and Cooks Creek Watersheds

The Department of Environmental Quality (DEQ) will host a public meeting for the modification of total maximum daily loads (TMDLs) for the Blacks Run and Cooks Creek watersheds in Rockingham County, the Town of Bridgewater, and the City of Harrisonburg. The meeting will be held on November 28, 2018, at 1:30 p.m. at the Department of Environmental Quality, Valley Regional Office, 3000 Early Road, Harrisonburg, VA 22801.

Blacks Run and Cooks Creek were first listed as impaired on Virginia's § 303(d) TMDL Priority List and Report due to violations of the state's water quality standard for bacteria and the general standard (benthics) in 1998. The creeks have remained on the § 303(d) list for these impairments since then. A stressor analysis conducted by DEQ for both creeks indicated that sediment and phosphorous are the primary stressors responsible for the benthic impairment.

The impaired segment of Cooks Creek extends 13.32 miles from the headwaters downstream to its confluence with the North River. The impaired segment of Blacks Run extends 10.74 miles from its headwaters downstream to its confluence with Cooks Creek.

Section 303(d) of the Clean Water Act and § 62.1-44.19:7 C of the Code of Virginia require DEQ to develop TMDLs for pollutants responsible for each impaired water contained in Virginia's § 303(d) TMDL Priority List and Report. DEQ completed sediment, phosphorous, and bacteria TMDLs for Cooks Creek and Blacks Run in April 2002. The TMDLs were approved by the U.S. Environmental Protection Agency in 2004. The TMDL reports are available on the DEQ website at <http://www.deq.virginia.gov/programs/water/waterqualityinformationtmdls/tmdl/tmdldevelopment/approvedtmdlreports.aspx>.

In order to address new and expanding discharges from permitted facilities in the watersheds since 2002, the TMDLs for these waterbodies required modification. This modification will ensure that discharge permits issued within the watersheds remain consistent with the wasteload allocations in the TMDLs. The modification process began in August of 2017. A public meeting was held on November 15, 2017, to present the draft TMDL study and initiate a 30-day public comment period on the modified study. Since this meeting, additional changes have been made to the TMDLs pertaining to the establishment of sediment and phosphorous wasteload allocations for industrial stormwater permitted facilities in the watersheds. The purpose of this public meeting is to share these modifications with the public and to initiate an additional public comment period on the revised wasteload allocations.

The public comment period will begin on November 29, 2018, and will end on December 28, 2018. Written comments should include the name, address, and telephone number of the person submitting the comments and should be sent to Nesha McRae, Department of Environmental Quality, Valley Regional Office, P.O. Box 3000, Harrisonburg, VA 22801, telephone (540) 574-7850, FAX (540) 574-7878, or email nesha.mcrae@deq.virginia.gov.

For questions about the upcoming meeting or the project in general, please contact Nesha McRae at the phone number or email address listed above.
