About The i2Coalition
The i2Coalition (Internet Infrastructure Coalition) ensures that those who build the infrastructure of the Internet have a voice in public policy. Founded in 2012, the i2Coalition is the leading voice for web hosting companies, data centers, registrars and registries, cloud infrastructure providers, managed services providers, and related tech. The i2Coalition protects the innovation and continued growth of the Internet's infrastructure, essential to the global economy.
