

We are committed to transforming the lives of people affected by muscular dystrophy, ALS and related neuromuscular diseases.

Innovations in Science

We're accelerating the delivery of treatments and cures.

RESEARCH

We're the largest source of funding for neuromuscular disease research outside federal government; \$1B since we started 68 years ago

TECHNOLOGY

We developed a first-of-its-kind data hub that uniquely aggregates healthcare, genetic, and patient-reported data to help accelerate drug development

TREATMENTS

Our research is directly linked to approved, life-changing research therapies across multiple neuromuscular diseases

Innovations in Care

We provide programs and services that transform the lives of people affected by neuromuscular disease.

CARE CENTERS

The largest network of centers providing best-in-class comprehensive care at 150+ leading medical institutions

RESOURCES

One-to-one specialist support and events for individuals, families, researchers and health care professionals

RECREATION

Vital life skills and independence provided through summer camps and other recreational facilities - at no cost to families

An unprecedented number of recent approvals, six (6) in only four (4) years

OUR IMPACT

Is Measured Not in Just Numbers...
