

# Satisfy Auditors, Secure the Enterprise, Become a Hero

Minimize the time and stress of audit preparation and compliance checks while strengthening your company's security posture. Netwrix compliance solution supports a wide range of regulatory mandates and frameworks and cover all the critical layers: data, identity and infrastructure. Forget the time-consuming hustle of manually preparing and compiling reports for auditors, and quickly answer any ad-hoc questions during an audit. Even better, get significant value beyond compliance.

## ACHIEVE AND MAINTAIN COMPLIANCE

Jump-start your compliance efforts with out-of-the-box templates, hardened build standards, password policies and more. Quickly spot and shut down threats, meet incident reporting deadlines, and respond promptly to DSARs.

## PROVE COMPLIANCE WITH FAR LESS EFFORT AND EXPENSE

Reclaim the nights and weekends you used to spend collating cryptic logs, juggling spreadsheets and manually compiling reports. Prepare the evidence auditors require in just a few clicks, and answer any ad hoc questions on the spot.

## REAP VALUE FAR BEYOND COMPLIANCE

Invest once and get solutions that not only satisfy auditors but deliver a mature, multi-layered approach to security; automate workflows to relieve the burden on IT teams; and empower your business to thrive by minimizing downtime and enhancing user productivity.

## CUSTOMER FEEDBACK

"[Netwrix] saves us about 40–60 hours on preparation for each audit and even more in our daily work. But most importantly, we know that our environment is secure."

— Jeff Williams, Systems Integration Branch Chief,  
National Weather Service Southern Region

# Key features

## HOW IS THE NETWRIX COMPLIANCE SOLUTION DIFFERENT?

### DATA SECURITY

Know exactly what regulated, sensitive and business-critical content you have, and make sure that it is stored only in secure locations and that only the right users have access to it.

### ACCESS CONTROL

Prove that each user has only the access they need with automated access request workflows and regular attestation by data owners. Replace standing privilege with temporary accounts that provide only the access required for the task at hand.

### COMPLETE

Solve a multitude of challenges — without creating additional ones by trying to cobble together siloed products from different vendors. Enjoy the simplicity of just one annual subscription, one information center, one support line and so on.

### STRONG PASSWORD POLICIES

Satisfy password requirements with out-of-the-box policy templates based on CIS, HIPAA, NERC CIP, NIST and PCI DSS that prevent the use of weak or compromised passwords without frustrating business users.

### EFFICIENT DSAR PROCESSING

Build a scalable approach to the growing deluge of DSARs. Reduce costs and avoid penalties by responding accurately and promptly, thanks to a streamlined workflow and complete visibility into the data you possess on any individual.

### PROVEN

More than 10,000 companies across a wide range of industries worldwide rely on Netwrix solutions to achieve, maintain and prove IT compliance.

### PREDEFINED COMPLIANCE REPORTS

Slash audit preparation time by up to 85% with prebuilt reports tailored to common mandates that provide hard evidence of your compliance in human-readable format.

### INTERACTIVE SEARCH

Stop living in dread of unexpected requests from auditors. Enjoy being confident you can locate the specific pieces of information required to satisfy them in just a few clicks.

### SUPPORTED

Have your issues promptly resolved by a first-class technical support team with a 97% satisfaction rating.

### INTEGRATED

Interoperability with your current systems and processes maximizes the value of your existing investments.
