

PEXIP SECURE MEETINGS FOR

Enterprise

Compliant and interoperable meetings with robust security features to guarantee efficient, clear, and uncompromised communication for all users.

Ensuring data privacy and compliance in every meeting

Pexip Secure Meetings for Enterprise is designed specifically for large enterprises that demand greater security for their most confidential meetings.

Emphasizing data privacy and security, Pexip leverages advanced encryption, secure deployment options, and compliance measures to guarantee that information stays confidential. With a user-friendly interface and comprehensive integration capabilities, teams can collaborate efficiently without compromising data protection.

Secure deployment options

Protect intellectual property

Discuss trade secrets, financial data, or other sensitive data, knowing your conversations are private.

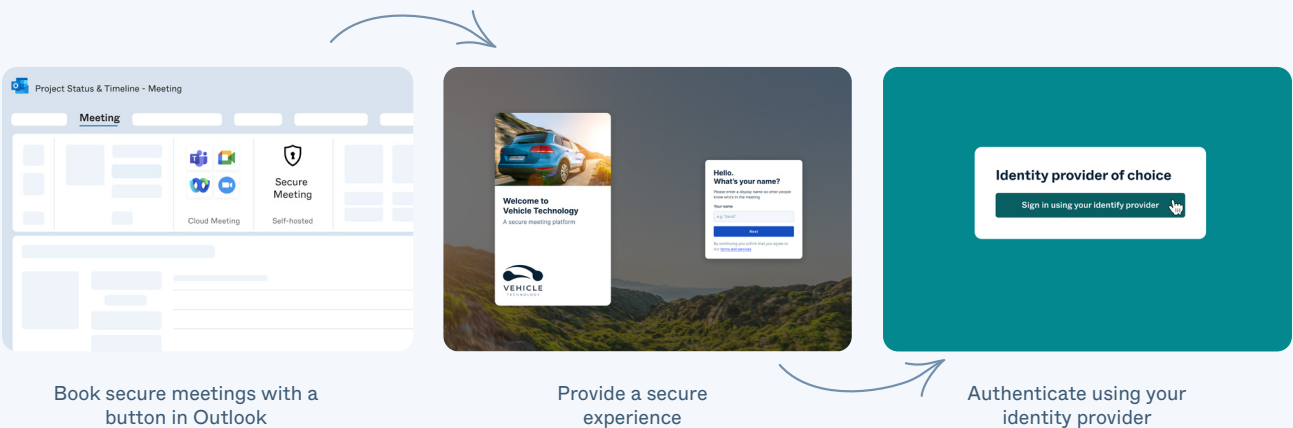

Enhanced client experience

Streamline client engagement with a branded, user-friendly, enterprise-grade meeting solution.

Meet compliance requirements

Mitigate risk and adhere to regulations for privacy, data sovereignty, business continuity and disaster recovery.

Secure and seamless collaboration
