

PEXIP SECURE MEETINGS FOR

# Healthcare

Secure, reliable video visits for healthcare providers and patients.

## A user-friendly platform for enhanced care and data protection

Pexip Secure Meetings for Healthcare is a custom video solution designed to enhance healthcare accessibility for everyone, whether they live in remote, underserved regions or metropolitan areas. The platform streamlines care delivery and prioritizes the privacy of patient data through robust, secure deployment methods. With a user experience conducive to healthcare consultations, not corporate meetings, Pexip enables healthcare practitioners to do what they do best - provide care.

### Secure deployment options

#### Doctor-patient confidentiality still applies on video

Comply with regulations and maintain full control over your sensitive patient data and consultation records.

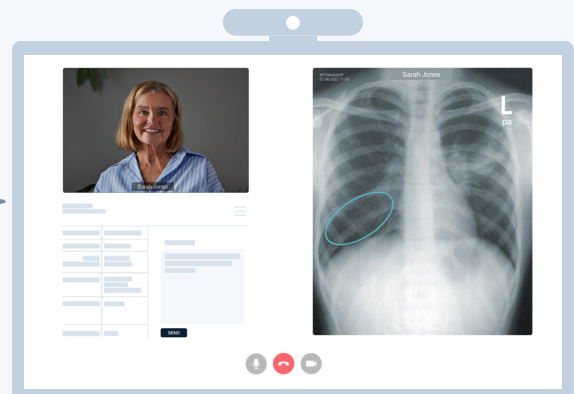

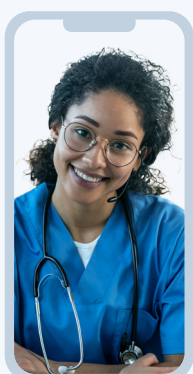

#### Your consultations shouldn't add complexity to your day

Easily integrate with your existing healthcare technologies and electronic healthcare records.

#### Your patients are waiting. Handle high volumes with video.

Deliver reliable, secure, and simple consultations for healthcare providers and patients globally.

### Truly private patient visits

## Product Specifications

Pexip Secure Meetings for Healthcare aligns with key health data protection standards like HIPAA, ensuring secure access controls and audit trails. It ensures correct patient-clinician matching through definable policies and is scalable, efficiently handling numerous concurrent multi-party consultations.

### Key features

- ✓ **Fully interoperable, high quality video meetings:** Patients can access care from any device with full HD video and data sharing
- ✓ **Unique user experience:** Simple for first time users to join a consultation so time can be spent on diagnosis, not the technology
- ✓ **Deployment flexibility:** Align with your security requirements; deploy on-premises, in a private cloud or in a public cloud
- ✓ **Security and Privacy:** Compliance with healthcare regulations such as HIPAA, GDPR and other local data protection laws
- ✓ **Integration with EHR systems:** Integrate video into existing healthcare systems and workflows
- ✓ **Customization:** Build your telehealth platform with custom branding and integrations

### Key specifications

- ✓ Multi-protocol support: SIP, H.323, WebRTC, RTMP, Skype for business
- ✓ Requires no downloads or plugins
- ✓ AES-256, TLS 1.3, FIPS 140-2
- ✓ Enables HIPAA compliance
- ✓ Authentication (OIDC/SAML)
- ✓ GDPR compliant
- ✓ Custom branding
- ✓ Audit trail
- ✓ Secure lobby/waiting area
- ✓ External and local policy
- ✓ Launch video calls from Hyperspace, Haiku, Canto or EpiCare
- ✓ Seamless integration with EPIC's workflow

## Independently verified

Pexip solutions are independently verified by third-party bodies, highlighting its commitment to security, reliability, and compliance with industry standards.

## About Pexip

Pexip, a global leader in video conferencing technology, empowers seamless communication across organizations regardless of technology platforms and security requirements. Pexip offers customizable and flexible solutions that integrate with existing technologies, enabling collaboration and productivity. Pexip is ISO/IEC 27001:2013 certified. Pexip adheres to rigorous regulatory, compliance, and cybersecurity criteria, catering specifically to the privacy and operational requirements of the healthcare sector.
