Justice

Enable remote justice procedures with a secure, private, and tailored solution to solve the unique challenges of the court system.

Revolutionizing justice with digital courts

Pexip Secure Meetings for Justice is a video solution designed to transform the judicial system, enabling legal proceedings to be conducted remotely with secure deployment options. It enhances operational efficiency, reduces witness no-shows, and broadens access to the justice system, thereby accelerating the delivery of justice for everyone. This modern approach to justice mimics the traditional court flow by leveraging the convenience and efficiency of digital communication to facilitate hearings, depositions, and trials without the need for physical presence in a courtroom.

🛡 Secure deployment options

Sovereign Cloud　　　　　　　　　Government Cloud　　　　　　　　　On-premises

Extend access to hearings

Improve access to justice systems, safely include vulnerable witnesses and reduce the number of no-shows.
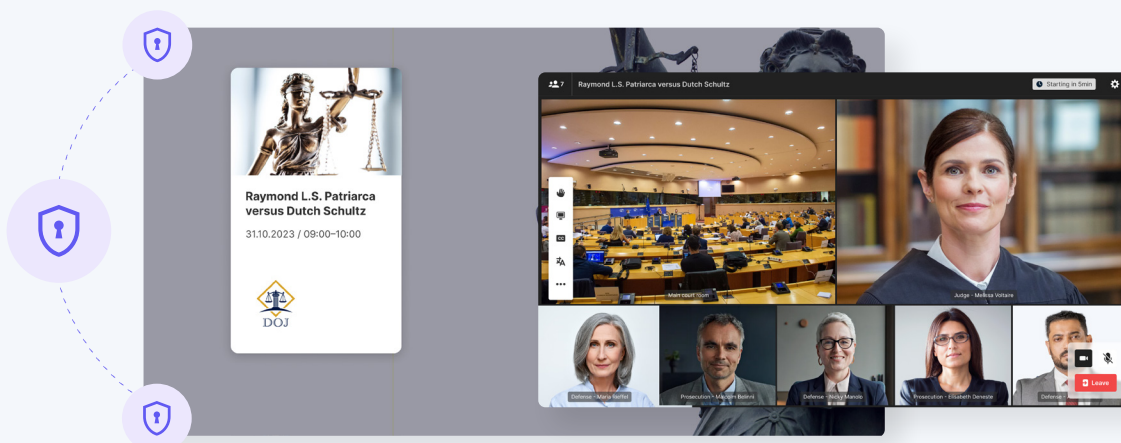

Reduce time to justice

Virtual court hearings are quicker to conduct than traditional hearings, expediting the legal process.

Increase hearing security

Eliminate the need for transportation to and from the court, reducing potential security risks for incarcerated individuals.

Reimagining the courtroom

Product Specifications

Pexip Secure Meetings for Justice incorporate high-definition video and audio capabilities, end-to-end encryption, user authentication, robust data privacy measures, reliable connectivity, and integration with standard court workflows and tools.

Key features

✓ **Fully interoperable, high-quality video meetings:** Users can join meetings from a variety of devices with full HD video and content-sharing
