Splunk Accelerators

**Solution Guide**

Professional Services

Accelerate success. Be more resilient.

Get expert guidance, best practices, and hands-on deployment expertise at every step of your Splunk journey with Splunk Accelerators. These targeted solutions address key challenges to help your organization mature their Splunk capabilities, accelerating time to value and getting greater return on investment. Accelerators have predefined outcomes, deliverables, timelines and costs, helping your organization accomplish your goals sooner.

✔ **Realize value faster** - Get Splunk products implemented and configured across your digital ecosystem using the latest best practices

✔ **Optimize your solutions** - Take advantage of the full breadth of your existing Splunk solutions to maximize your Splunk investment

✔ **Discover new capabilities** - Unlock competencies and strategies to achieve higher levels of enterprise resilience

Here to help, when you need it, faster.

Accelerators are designed to address your challenges in an expedited engagement with predefined outcomes. Whether you're just starting out with a Splunk product and need help with implementation or want to grow your existing Splunk environment and take advantage of new features and functionality, these tailored solutions are delivered by our Splunk experts applying the latest and greatest best practices.

1. **Smart Starts** - Jumpstarts the ability to get started with new products and features, accelerating time to value
2. **Solution Optimization** - Enables teams to further optimize existing Splunk products in use, unlocking further solution value
3. **Value Expansion and Realization** - Uncovers new capabilities, formulate strategies and define a roadmap to being more resilient as a business

What we'll do and deliver

Discovery & Design

All engagements have a discovery and design phase in which our teams will kick-off to align on goals and conduct a planning workshop to understand your technical environment and challenges.

Installation and Onboarding

Our Accelerators provide you with our experts who will work with you to onboard, implement and configure your Splunk product(s) using best practices and predefined data sets and/or services.

Build and Configure

For optimization and expansion engagements, our teams will work with you to build, configure, optimize, and/or set up relevant frameworks.

Knowledge Transfer and Documentation

Enable your team on core principles and fundamentals relative to the engagement. Deliver a roadmap for stakeholders and conduct a knowledge transfer session with your team.
