A happy student is testament to educational excellence in international schools

It may come as a surprise to many parents that international school children actually seem to rejoice in attending classes everyday.

It is widely acknowledged that they are generally more lively, joyful, confident, open-minded and warm-hearted because the holistic education they receive not only stand them in good stead for further education, whether locally or overseas, but also expand their horizon and hone their character development.

Parents' general dissatisfaction, disappointment and even exasperation with the mainstream education system is reflected vividly in the growing popularity of international schools where the emphasis is on quality as opposed to quantity in both teaching and learning. While traditional schools concentrate on dishing out information en masse to complete a demanding syllabus, international schools provide the facilities, the environment, and the support for students, bringing out the best in individuals. Their interdisciplinary approach with a STEAM focus also equips students to face the challenges of the 21st century.

Parents like what they see in their broader curriculum and well-researched teaching methodology, not to mention well-qualified and caring teachers. In addition to academic pursuits, their students are excellent communicators as they come into contact with school mates of different ethnic backgrounds. With no homework pressures, they have the time to develop such invaluable attributes as reasoning power, creativity, problem-solving skills, teamwork, empathy, self-discipline, and more.

This guidebook contains updated information on international schools, and provides answers to questions to help you make the optimum choice for your children.

Planning and managing school applications doesn't have to be a stressful struggle with spreadsheets

Most parents stress and struggle with spreadsheets to try to analyse school information and make decisions.

Are you one of them?

Getting information is not difficult. All schools publish their fees and curriculum and invite you to the school to learn more and, finally, to apply. If you've not got your hands on our handy Budgeting Guide, get it here (It's free!):

Six Easy Steps to Get into the Best Fit School for your Child

1. Research all schools
2. Eliminate ones you don't like and shortlist those you do like
3. Arrange to visit the schools and visit
4. Apply to 2-3 schools
5. Take your child for the assessment
6. Receive the result

Seems simple, right?!

It's not!! Step 1: Research is fraught with risk.

If you're like most busy working parents, you'll spend a ton of time on the internet looking at schools' websites. That means time not spent with your family. But, more importantly, you are very probably making mistakes. You may need to spend more hours on the phone with schools to clarify the info on their website and you'll get different answers on different days, depending on who you speak to.

And, worse, you may not know the information is faulty and so you are making real, important decisions based on it, which may cost you enormous amounts of money down the road.

And if all six steps go smoothly and the result is 'Accepted', 'Congratulations'! If this is the only school your child is accepted into AND if you are sure you understand and like the school, go ahead and pay your deposit (It's non refundable!)

And here's where so many parents run into a **big problem**.

Wrong information, wrong result, wrong time

Too often, parents get too far along - complete all six steps - based on wrong information only to get the wrong result.

Here are a few comments from real parents in our Facebook group (Hong Kong Schools)/sent to us in Facebook Messenger:

Q: "I applied to XYZ school and honestly I thought he'd get in. He didn't; he was not even waitlisted. And now we've missed the deadlines; what can we do?"

A: You can apply to some schools if you know which ones have spaces AND will accept your son. Or you can try again for next year. It will be very important to understand WHY your son did not get in, so as to address that and get a different result next time.

Problem: This parent did not know that their child's academic level did not match that of their chosen school.

Q: We have offers from ABC, XYZ and 123 school. We've put down deposits at all of them. Which one is better?

A: Honestly, we can't say any one is better than the other; they are all different. Without meeting your child, we can't make recommendations. Unfortunately, you will forfeit two deposits, which could have been avoided with careful planning.

Problem: This parent has spent far too much money on deposits and is still unsure which school best fits their child.

Q: We have an offer from ABC School but the school is quite new and we are not too sure about it. Do you have any advice?

A: You would typically research and visit a school to make sure you are satisfied with the curriculum, the leadership, the staff and students before making an application. Now that you have an offer, you will have around two weeks to accept or decline. If you accept, you'll need to put down a deposit so you should be satisfied it's the right choice.

Problem: This parent failed to plan and raced ahead to generate an offer they are now not sure they want. They will forfeit a deposit at this stage if their child does not attend the school and will not be able to defer.

So, we can see that it is easy to follow the six steps but not necessarily straightforward!! Yes, the information is available (most of it) but ... it's knowing HOW to apply it that's difficult.

And you can't start over - you only have one chance to get this right and meet all the deadlines.

To help parents just like you, please head over to our International Schools Database at www.hongkongschools.com.hk

You can easily research the schools that potentially fit your child, the ability to easily compare details and export a custom report. Oh, did I mention we have a grade calculator too! You're welcome!

Malvern College Hong Kong poised for continued excellence under new leadership

Malvern College Hong Kong is gearing up its momentum for continued progress under the visionary leadership of new headmaster Paul Wickes, as the renowned institution sets the stage to deliver a holistic education of the highest caliber.

In the metropolitan city of Hong Kong, a renowned British educational institution is about to commence an exciting new chapter under the leadership of its new headmaster, Paul Wickes. Malvern College Hong Kong, founded in 2018, is part of the Malvern College Family of Schools that boasts an educational heritage dating back to 1865, when its mother school Malvern College UK was established.

Visionary leadership

Given this legacy of academic excellence and unwavering commitment to nurturing all-rounded students, Malvern College Hong Kong is well-placed for even greater achievements as Wickes takes charge. Wickes brings to the table more than 30 years of educational leadership experience, which include being the Head of Site at The British School in Rio de Janeiro – where he successfully transformed the school's culture and raised academic standards – and the Senior Housemaster at Malvern College UK.

When asked about his motivation for joining Malvern College Hong Kong, Wickes exudes nothing but enthusiasm. "This role is the perfect fit, affording me the opportunity to draw upon my extensive experience. Having been part of the Malvern College

family, and with my youngest daughter currently studying at Malvern College UK (change to: I spent over 12 years at Malvern College UK, where he served as Senior Housemaster and Teacher of Economics, Politics, and Theory of Knowledge (ToK)), I don't need to browse the website to know that the school's vision and mission resonate with me on a profound level," he says.

What Wickes refers to is the school's proven track record of academic success balanced with outstanding co-curricular opportunities and a deep-seated culture of British-style pastoral care. His vision for Malvern College Hong Kong is, fittingly, anchored in three key priorities: "Maintaining our rigorous academic standards, enhancing our British-style pastoral care systems, and strengthening our co-curricular programs."

Beyond the classrooms

According to Wickes, engaging in diverse activities beyond the classrooms allows students to acquire invaluable skills which complement their classroom education. "Education focusing solely on grades and academics is insufficient in preparing pupils for a happy, successful and fulfilled adult life," he emphasizes.

"Co-curricular activities and community service allow students to develop skills like teamwork, perseverance, empathy and

self-discipline, making sure they are well-equipped for the fast-changing world we live in." Wickes plans on building upon the school's strong foundations while tailoring its programs to meet the evolving needs of 21st-century learners.

British pastoral care

Wickes is aware that, in the wake of the pandemic, many students are grappling with a concerning rise in anxiety, depression and other mental health problems. "I believe what's unique about Malvern's pastoral care is that we are able to transfer and interpret the British boarding school system in the context of Hong Kong," he notes.

In addition to broadening the support system of professionally trained counselors, tutors and teachers, he underscores the school's steadfast commitment to ensuring that every student has trusted adults they can confide in comfortably.

"We want to empower pupils with the knowledge that they can reach out to a range of people in the campus whenever needed. And as they grow, they will have developed resilience and perseverance to navigate challenges and support themselves better," he added.

Academically rigorous

As an International Baccalaureate (IB) World School, Malvern College Hong Kong holds critical thinking and academic rigor in high regard. Wickes extols the virtues of the IB curriculum, which equips students with robust research, writing and learning skills and, most importantly, the ability to proactively manage learning, preparing them for the challenges that lie ahead in university, their future careers and lives in general.

Wickes particularly highlights the Theory of Knowledge and Creativity, Action, and Service components of the IB program as instrumental in fostering global competence and social responsibility among students. "The IB curriculum is holistic in nature and it channels the passion we have for developing the whole student at Malvern," he adds.

To facilitate holistic education, Wickes believes that a purpose-built, award-winning campus like that of Malvern College Hong Kong – complete with a 35-metre swimming pool, an inviting library that students want to study in, a rooftop sky pitch, a 450-seat auditorium, among others – combined with expert educators,

will serve as catalysts for realizing the school's ambitions for its students.

The way to excellence

Going forward, Wickes is eager to assure staffs, parents and students that the timeless values of excellence and care will continue to thrive under his leadership at Malvern College Hong Kong.

In an iron-clad commitment to maintaining the highest standards of education, the Malvern College Family of Schools has established a robust system of regular quality assurance inspections. Come next March, Wickes and the school eagerly anticipates the valuable insights and continued support provided by the quality assurance inspection process, further strengthening its dedication to educational excellence and pastoral care.

As the world dusts itself off the pandemic, Wickes looks forward to seizing the opportunities for meaningful exchanges with other Malvern College Family of Schools.

"Very recently, our pupils embarked on an exchange journey to Malvern College Chengdu, immersing themselves in a rich educational experience. Many also had the privilege of attending summer schools hosted by Malvern College UK, expanding their horizons and nurturing global perspectives," he says, adding that forging connections with different schools and leveraging the strengths of these bonds is part of his leadership agenda.

In Wickes, it's clear that Malvern College Hong Kong has found a worthy headmaster to steer the school confidently into the future while holding true to its long-standing values.

Focus on growth mindset and community spirit to kick off new school year

COVID-19 and the resultant remote learning mode have taken a huge toll on students worldwide. And as Hong Kong revs up in preparation for the commencement of the new academic year, CAPCL is planning a range of initiatives to focus on students' growth mindset and enriching its bilingual and character education, as the essential elements of returning to the classroom.

"Now that the city has emerged from the pandemic, there is a rising realization in the community that issues like moral intelligence and character education are more important than ever," notes Dr. Cora Hui, Head of School at CAPCL. "Not only will they better equip students for tomorrow's world, but also encourage them to reflect on their roles in society, and how they can apply their knowledge and skills in a positive way that can benefit themselves and others as well."

Adopting the Canadian Alberta curriculum stands the school in good stead to create this inclusive and empathic spirit. "A cornerstone of the Alberta programme is the multidisciplinary, project-based approach, all the way from science to social studies," Hui notes. "Over the years we have observed that it has led to leaps and bounds and increased engagement from students, because

it makes what they are learning within the curriculum relevant."

In the wake of a prolonged period of home schooling, Hui has taken stock of the unprecedented situation, and believes that helping students feel secure and welcomed by the whole school community is of utmost importance in the new year. "We need to build in time throughout the school day to increase the attention given to our kids, giving them greater support and greater care to meet their academic, social and emotional needs," Hui emphasizes.

Bilingualism through co-homeroom

To this end, one of the new introductions to the academic year 2023/24 is the co-homeroom system, where a classroom is led by a Western and a Chinese teacher. "Think of the two co-teachers as the mother and father of a family. They may bear different responsibilities, but both are dedicated to nurturing the wellbeing of children and their whole person development," Hui notes.

In the dawning of a new, dynamic era in education, Christian Alliance P.C. Lau Memorial International School (CAPCL) will be placing its priorities on cultivating students' growth mindset and strengthening character education, come the new school year.

This integration of co-homeroom enables greater capacity and time to gauge each student's learning needs, allowing the two teachers to individualize their teaching approach, in addition to building closer rapport and partnerships with parents, explains Hui. While bilingual teaching and learning has long been a staple of the CAPCL education, with each teacher now taking on different specialty subjects, it takes the benefits of bilingual education a significant step further.

Hui notes: "Young people have greater brain capacity, and research has shown denser brain matter when children are sorting through and using two languages on a daily basis." Way beyond fluency in two languages, greater memory functions, enhanced problem-solving and multitasking skills, and fostering socio-emotional development are among the distinct advantages of immersive bilingual education.

That the school designates the medium of instruction as 65% English and 35% Chinese (using Mandarin and traditional script) also has substantial backing. "Since some students are non-native English speakers, who already have ample opportunities to communicate in Chinese outside of the classroom, this ratio stretches their exposure to English while ensuring a solid grounding in both languages," Hui elaborates.

STREAM immersion

In the education field globally, STREAM has continued to gain momentum, and it's only apt that CAPCL is also bringing in a new fully-equipped classroom concentrating on Science, Technology, Reading, Engineering, Arts, and Mathematics. Hui is pleased to note that the new STREAM room is "a multi-purpose space for students to express their imagination and creativity, with tablets, electronic software, a wide-ranging collection of books and visual illusions of intercepting lines and shapes to stimulate students' creativity and learning."

To Hui, it's not so much about what's inside this new facility, but how students are going to make use of them that will reap the most benefits. "This new addition is in line with, and a reinforcement of, our multi-disciplinary, play-based approach to learning."

"Students get a relevant problem to solve, work in teams and come up with different solutions under teachers' guidance, while having the freedom to pick and choose the tools to apply," she says, adding that students always come out of the experiences feeling very proud of their achievements.

In Hong Kong where education is predominantly didactic and puts too much emphasis on rote learning, Hui underscores the beauty of this approach in that it allows students to make sense of content: "By engaging young students in challenges and problems they may encounter in

real-life, it maximizes the learning outcomes."

In much the same way, Hui says CAPCL will also be focusing on "the practical" going forward – specifically, how the school will remain steadfast in integrating all subjects, solidifying its teaching philosophy and gathering the whole school to bring the vision to fruition. "Ultimately, we need to bring the top-down approach down to workable steps."

"This education is grounded in helping students develop good, healthy habits and competencies – especially empathy, self-understanding and the willingness to reach out to others in the community – vital to success in school and life," Hui concludes.

English Schools Foundation (ESF) - A World Class Education From K1 to Y13

The English Schools Foundation (ESF) is the largest English-medium international school organisation in Hong Kong. Our 22 schools and comprehensive programme of extra-curricular activities bring out the best in every student through a personalised approach to learning and by inspiring curious minds.

There are over 18,000 students from 75 different nationalities in ESF kindergartens, primary, secondary and all-through schools. ESF is proud of the high academic and wider achievements of our students. In 2023, we have a 98.1% pass rate in the IB Diploma exams and 11 ESF students achieved the perfect score of 45 points in the IB DP.

Why Choose ESF?

• Outstanding Education

We know that, first and foremost, we are here to help your child have the best education possible. Our results speak for themselves. The education that your child will receive at every stage of their journey, from K1 to Y13, will be designed to help them discover their passions. This is how you prepare them to lead happy, successful lives.

• Outstanding Experiences

From incredible opportunities in sports, the arts and leadership, we work hard to make sure that your child is happy, kind, and always learning.

• Outstanding People

The biggest impact on your child's education comes from their teachers. We have the world's best in our schools, led by exceptional Principals.

Join ESF for the academic year 2024/25

If you're a parent seeking to enrol your child in ESF for the academic year 2024/25, applications for K1 (born 2021), Year 1 (born 2019), and Year 7 (born 2013) will be available from 1 to 30 September 2023. Don't miss out on this opportunity and find out more.

ESF also offers Kindergarten Debentures or Nomination Rights Schemes for parents who wish to gain interview priority. Secure your child's future today!

Outstanding Education

Outstanding Experiences

Outstanding People

Hong Kong Academy Redefining Success

HKA students are intellectually curious, intrinsically motivated and interculturally minded global citizens. Our students enjoy an outstanding international education delivered by caring and knowledgeable faculty and go on to study at prestigious universities around the globe.

We support any student who is interested in completing the full IB Diploma (IBDP) to do so, have an inclusive admissions policy, and encourage students to pursue the pathway to graduation that best aligns with their interests, talents and post-secondary priorities. Candidates for the IBDP can earn a maximum of 45 points, and HKA students consistently outperform the world pass rate and average total points.

The graduating class of 2023 was HKA's 12th graduating class. They surpassed global averages and achieved 100% IB Diploma pass rate, with 25% successfully completing a bi-lingual IB Diploma qualification. Their university and college

application acceptance rates were over 70% and on average each student received 5 offers. The cohort also received nearly US\$700,000 in scholarship offers and are moving on to pursue a diverse range of under-graduate degree courses including; ancient history, biomedical sciences, business, economics, e-sport management, fine and performing arts, law, sport science, psychology, and liberal arts.

Class of 2023 alumna Isabel Valenzuela joined HKA in Grade 1 and attended the school for 12 years. Isabel is a talented vocalist and singer, and also represented the school in local and regional volleyball competitions during her secondary school years. She graduated with a bi-lingual IB Diploma with Spanish, received 5 university offers and will be attending the University of Bristol where she will be studying a degree in Music with Innovation. We are excited about what lies ahead.

Class of 2013 alumni Suhail Bindra also joined HKA in Grade 1 and graduated with a 'perfect' IBDP score of 45. He earned his Bachelor of Laws, Postgraduate Certificate in Laws, and Professional Certificate in Teaching & Learning in Higher Education from the University of Hong Kong as an HKSAR Government Scholar, and obtained a Master of Public and International Law from Melbourne Law School, graduating with First Class Honours. After a brief stint working at a law firm, Suhail went on to work for non-profit organisations in the UK, Australia and Hong Kong and has taught business law, company law and corporate social responsibility at the HKU Business School. In his free time he advocates for and supports ethnically diverse school children by running legal education courses with an NGO called EmpowerU, is a board member at Migrasia Global Solutions Limited, an organization that advocates for ethical migration, and was also recently engaged by Justice Centre Hong Kong to run their summer refugee law education programme. He will commence his pupillage at Denis Chang's Chambers this year to train as a barrister in Hong Kong.

Class of 2023 alumna, Isabel Valenzuela

Class of 2013 alumni, Suhail Bindra

Suhail also serves as an alumni board member of HKA with a focus on school development, and is proud to promote the secondary school scholarship opportunities which the school offers. He shares that "HKA is characterised by its inclusiveness and willingness to put people first. I treasure the skills, values and ideas that my education gave me and encourage students who can demonstrate their aptitude and commitment to their communities through leadership, academics, sports, arts or service to apply to the scholarship programme."

Every graduate of HKA can share stories of how they have been supported to meaningfully contribute to their local and global communities as part of their pathway to graduation. As musicians, artists, elite athletes, social activists, innovators, volunteers and leaders, HKA students are actively engaged in advocating for a better future.

Cultivating critical thinkers with the passion to learn

The Independent Schools Foundation Academy (The ISF Academy) is a not-for-profit private independent primary and secondary school providing a unique inquiry-based Chinese and English bilingual immersion education. We are a Chinese school with a global perspective.

We believe that learning is the active construction of knowledge best experienced through meaningful activities that foster exploration and creativity. An ISF education emphasizes probing discussions, passionate debates and critical thinking. ISF students are cheerful high achievers who exude a joy of learning that drives their development as culturally agile and confident communicators who possess the social, creative and analytical thinking skills necessary to succeed and thrive in a complex world.

We are a strong proponent of learning by doing. Our

hallmark Experiential Learning Program features unfamiliar settings and novel challenges that build character and confidence. An ISF learner is at home building dormitories in Laos, researching ancient texts in Cambridge or exploring the rich history of the Silk Road.

We are an accredited International Baccalaureate (IB) World School. The last three years has seen 188 students taking the IB Diploma exams and achieving an average score of 40 out of a possible 45, enabling our graduates to receive offers from leading universities all around the world.

► **Personalized University Counseling**

Our systematic and personalized university guidance and careers program spans from Grade 9 to 12 and allows our students to make informed decisions about their DP subject choices and subsequent university applications.

► **Bilingual Diploma and Bilingual Theory of Knowledge**

From our very first graduating class, we have had a 100% IB Diploma success rate with at least two thirds of our students each year being awarded the coveted Bilingual IB Diploma. Students also receive Theory of Knowledge instruction in both English and Chinese and may choose either language for their written paper.

► **Exclusive Leadership and Experiential Learning Programs**

Our Virtue and House structures in primary and secondary respectively, together with our Experiential Learning Programs, nurture our students' development as excellent communicators and leaders that empower them to serve as responsible global stewards of tomorrow.

University Offers in the Last Three Years include (by alphabetical order):

- Canada:** McGill University, The University of British Columbia, University of Toronto
- Hong Kong:** Hong Kong University of Science and Technology, The Chinese University of Hong Kong, The University of Hong Kong
- U.K.:** Durham University, Imperial College London, London School of Economics and Political Science, Royal Academy of Music, University of Cambridge, University of Oxford, University of St Andrews
- U.S.A.:** Brown University, Columbia University, Cornell University, Dartmouth College, Harvard College, Johns Hopkins University, Parsons New School of Design, Pomona College, Princeton University, Stanford University, University of California (Berkeley), University of California (Los Angeles), University of Pennsylvania

Discover an Exceptional British Day & Boarding School in GBA

Lady Eleanor Holles International School Foshan (LEH Foshan) is an exceptional British curriculum day and boarding school. With a campus and curriculum tailored to the needs of students, from 6 to 18 years, the school brings together the best of a British boarding school education to the Greater Bay Area of Southern China.

The First Oversea Campus of LEH London in the World

LEH Foshan is the first overseas campus of LEH London in the world. The very close link between two schools is not only reflected in the leadership management but also students' academic exchanges.

An Authentic and Home-Felt British Boarding Experience

LEH Foshan is the only Day and Boarding British International School with House System in Guangzhou and Foshan Area. In addition to a full day of learning hours, boarding students can benefit from evening and weekend activities and teacher-supervised evening school.

A Strong and Highly Experienced Teaching Team

The strong and highly experienced teaching team at LEH Foshan is composed of over 90% British teachers (100% Prep School) with more than 15 years teaching experience on average.

Pathway to the Top Universities around the World

LEH Foshan's students follow an enhanced British International Curriculum leading to the internationally recognised IGCSE and A Level qualification. High academic standards and expectations, combined with a joyful learning environment lead students to entry the top universities around the world.

Individualised Learning and Immersive English-Speaking Environment

LEH Foshan helps students to achieve native-English speaking level by teaching all lessons in English (except Chinese and Spanish lessons) and with its English Language Learning programme which develop students' essential skills.

Exciting Range of Daily Extra-Curricular Activities

Our School offers a holistic education to all students, with daily extra-curricular activities inclusive of sports, arts, robotics, music, drama etc. offering them the opportunity to discover their hobbies and giving them both physical and emotional space to develop and express themselves.

An Award-Winning Learning and Living Space

LEH Foshan Campus designed by Scott Brownrigg - a well-known architectural design company in the UK, won the Sustainable School Design Award in November 2021. The impressive campus, with its expansive teaching, sports, arts, drama, technology and laboratory facilities imported from the UK, has been designed with the needs of students at its heart.

Thinking beyond traditional education to transform learning

You want the best for your child. So do we. Nord Anglia International School Hong Kong (NAIS HK) educates your child for the future, enhancing learning through collaborations with the world's best organisations. We teach the most respected and robust educational programmes through collaborations with MIT and Juilliard, delivered in some of the best facilities in all of Hong Kong. Our individual approach to each child enables them to achieve outstanding academic results whilst developing the skills and mind-set to thrive in an ever-changing world.

NAIS HK offers an all-through education for students aged 3-18, with specialist teachers in Music, Art, PE and Mandarin from the very start of a child's educational journey with us. Our sole focus is on the success of each and every child. We want them to be the best they can be and we encourage them to "Be Ambitious", reflecting our school's philosophy. This means we support each student to progress further than they thought possible, achieving more academically, personally and socially – all of which are equally important.

At the heart of the school's success and excellent reputation, is the very high quality of teaching and learning delivered by our exceptional staff. Our teachers create an atmosphere of curiosity, passion and enjoyment for learning in all students. We are proud to attract the best specialist teachers who are committed to nurturing and inspiring every child they care for. We support them to do this through world-class professional development, amplified by the sharing of international best practice. Nord Anglia Education (NAE) offers our staff the opportunity to study for a fully-funded Master's degree from King's College London, underscoring our commitment to the career progression of each teacher. Teachers here teach children, not classes, so the focus is always on the child as an individual. We bring a new approach to the interdisciplinary subjects of STEAM (science, technology, engineering, arts, and mathematics), putting your child at the forefront of developing skills for the 21st century.

With over 40 nationalities represented in our own school, everyone learns to respect others regardless of differences in opinion, religion, race or ethnicity. All major festivals are celebrated and our annual International Day event is a culmination of the recognition that rich diversity is a strength. At NAIS Hong Kong, every day is an 'international day' as our pupils are part of the greater Nord Anglia Education family, with more than 84 schools in 33 countries, linked by our Global Campus. This allows students to co-operate with each other on projects and learning across the world, making them internationally-minded, effective global citizens of the future.

At NAIS Hong Kong, we offer the IGCSEs and IB Diploma Programme. This curricula provides the greatest success for the largest number of students. With our individualised approach to each child's learning, outstanding teachers and collaborations, and unique opportunities inside and outside the classroom, we promise to nurture your child to love learning and help them to achieve more than they ever thought possible.

We would love to welcome your family to become a valued member of our vibrant and growing global community. Join Nord Anglia International School Hong Kong today and give your child the very best education.

Holistic American & International Education at ASHK

American School Hong Kong (ASHK) is a Reception (age 5) to Grade 12 international school located in the peaceful Tai Po community. With a rigorous American and international program, our inquiry and concept-based approach to teaching and learning promotes the development of 21st-century skills to prepare our students for their future. Students from Reception to Grade 10 are offered the US Common Core curriculum, while students from Grade 11 to Grade 12 are offered the International Baccalaureate® Diploma Programme (IBDP).

At ASHK, students experience a culture of creativity and innovation through the STEAM program. Students are guided through the Engineering Design Process (Ask, Imagine, Plan, Create, and Improve) to encourage innovation and creativity. Students learn to ask critical questions, research the problem, develop possible solutions, build prototypes, test and evaluate their designs, and then redesign as needed. The STEAM program equips students with the necessary skills to succeed in a global economy, such as critical thinking, problem-solving, and collaboration skills. While intellectual development is of paramount importance, significant emphasis is placed on the social, physical, emotional, and creative domains to provide a holistic experience for the development of the whole child. In addition, ASHK provides service opportunities and field trips for students to broaden their horizons, allowing them to become internationally-minded global citizens.

Dedicated to the vision of supporting students to achieve their fullest potential and celebrating the bilingual community, ASHK has a comprehensive English support program catered to every student's needs. Students benefit from an academically rigorous curriculum while being supported to acquire the English language skills they need to succeed. Our experienced specialist language teachers nurture students to success by providing targeted instruction for English language development while enabling them to access the entire curriculum.

Fully accredited by the Western Association of Schools and Colleges, the Middle States Association of Schools and Colleges, and the International Baccalaureate Organization, ASHK is owned and operated by Esol Education, one of the world's largest operators of international American schools with over 45 years of excellence, serving more than 10,000 students worldwide. Graduates from Esol schools are now attending leading universities worldwide, including Stanford University, Massachusetts Institute of Technology (MIT), Yale University, Columbia University, University of Toronto, and the London School of Economics. In addition, our ASHK first cohort of IBDP students have received extremely positive results from the IBO with the recent release of their May exam results. All of our G12 students successfully met the requirements, so we achieved a 100% pass rate. Our top student achieved an incredible score of 42/45 points in this highly rigorous program.

A rolling admissions scheme is currently in place at ASHK, allowing students to apply at any time throughout the year. The scholarship program also provides students an equal opportunity to enjoy this amazing educational experience, with financial assistance available.

A Future-Oriented, Bilingual School of Innovation

Bloom KKCA Academy, Hong Kong's First School of Innovation, aims to provide a quality bilingual education in combination with our signature project-based approach. We encourage self-exploration and having an inquisitive mindset, as well as an all-rounded development of personal interests and potential to help students face the different challenges of the future.

Daily Project-based Learning

Our teachers are there to inspire students and not just to deliver passive knowledge, and it is up to the students themselves to find solutions and learn independently. We especially emphasise this in our interdisciplinary bilingual project-based learning, where we encourage students to "Explore, Create, and Share". Students will come across different real-life problems, ranging from socio-economic to environmental problems; in combination with weekly field trips where they visit locations that help them build on the knowledge they've acquired during the week. Bloom places an emphasis on sustainability, providing opportunities to learn about biodiversity and experience forest school twice a year.

Personalized, Small Group Learning

Through small-group learning, we aim to also develop student's communication skills, teamwork and delegation skills, encouraging them to think together as a team, while offering unique perspectives to overcome challenges. As part of their positive education learning, not only do students have time to reflect and understand themselves and their emotions better in our twice-a-day campfire, but also develop the empathy to care for their community. Each term, Bloom hosts "Care, Think, Act" days and collaborate with different organizations (such as: Changing Young Lives Foundation, EcoDrive etc.) to spread awareness and to educate our

students on the leading problems in Hong Kong and create a product of change.

STEM Program Taught by Industry Experts

We place an emphasis on STEM. With our advisor who was previously a NASA and Microsoft engineer, our students have weekly coding classes where they learn about game, app, and robotics design. Bloom had 40+ students participating in the Tencent-Wechat AI Innovation Challenge, with three teams reaching the finals, and two teams winning second place and the "Wechat Innovation Award".

As a future-oriented school, we go above and beyond for the things that matter, whether that is finding the best teachers who are both capable and caring or designing an exceptional project-based innovation program, but to also ignite and nurture our students' deepest potential so they blossom into compassionate creators and social innovators.

Cultivating learners with knowledge and integrity

The five core values of Christian Alliance International School (CAIS) can be seen from afar on the hillside of its campus in Butterfly Valley, Lai Chi Kok. The values are Love, Wisdom, Integrity, Service, and Community.

For 2023/2024, CAIS has chosen "Integrity" as its school theme for the year. CAIS Head of School, Richard Vanderpyl, explains, "The bible teaches us in the book of Proverbs: 'The integrity of the upright guides them'. When we act with integrity, we will be guided in making wise decisions." He adds, "In a school community such as CAIS, when integrity is displayed through speaking the truth, acting without ulterior motive, and being true to God's Word, then we have a taste of what a wonderful Christian community looks like."

To foster community engagement and fully utilize the school's impressive facilities in the Amenities Building, CAIS welcomed students from other schools in Hong Kong to participate in various camps and training programs during the summer. Led by professional athletes and coaches, the sports camps provided students with specialized training, while forming new friendships and developing essential skills beyond the classroom.

CAIS celebrated several "firsts" in the 2022/2023 school year. The first student-led musical production of *The Wizard of Oz*, the first theater club performance staged in the Drama Studio, and the first graduating IB cohort. As the class of 2023 continue their studies in some of the top universities around the world, High School Principal of CAIS, Daniel Schick, anticipates, "While there will certainly be new things this year, I think that our focus should not be on doing *more*, but rather on pursuing *better*. Just as every athlete wants to compete at a higher level than last year, every student wants to achieve higher grades, and every musician and performer desires to become more accomplished, at CAIS we desire to develop our traditions, deepen our community, and enhance our programs."

With the opening of the Centre for Innovation, STEM is an area that will be expanded in the school's curriculum. Over the summer, CAIS hosted the Inspirit AI camp for high school students. The program, developed and taught by Stanford and MIT alumni and graduate students, enabled participants to gain fundamental AI knowledge and have hands-on experience in tackling intricate problems.

CAIS is the only international school in Hong Kong that offers three education pathways for its students, including the Alberta (Canada) curriculum, International Baccalaureate Diploma Programme (IBDP), and Advanced Placement courses. As Primary Principal of CAIS, David Best, says, "We are working to enhance our academic programs with the new Alberta Primary curriculum and to continue to develop and improve our extracurricular activities, all the while looking for ways to deepen spiritual formation opportunities for our students."

Cultivating Curiosity, Confidence and Creativity

- Play at Fairchild Builds Core Skills

We all know that play benefits children's development, but how exactly does it support the various skills children need as they navigate an increasingly digital world? Let us explain!

At Fairchild, we follow the Reggio Emilia-inspired approach, which sees children as the protagonists of their own learning. Using the environment as the third teacher to motivate and inspire children's learning, we provide numerous hands-on learning provocations to pique the interests of our students.

As children are engaged in play-based activities such as water play, they are using their curiosity, figuring out mathematical concepts as they measure and pour water, considering the changes in volume and seeing the cause-and-effect relationships. Water play also allows scientific exploration as children have ample opportunity to see water absorption and changes in state as the ice melts!

During sensory play with rice, oats or coffee grounds, children have a tactile experience as these natural resources stimulate the various senses of touch, smell and sound, allowing children to build their sensory integration and processing abilities. At the same time, as children dig, scoop and sift, they refine their fine motor muscles to prepare for later mark-making, and increase their hand-eye coordination and spatial awareness.

Children climbing or running around in our treehouse develop strength and balance as they exercise and practice their gross motor skills. Quality playtime builds confidence, focus and concentration and encourages sustained attention as children are engaged. Further, collaborative play builds social skills and emotional regulation, allowing self-expression and encouraging teamwork, negotiation, turn-taking and communication skills.

Creativity and imagination are equally important today - we encourage imaginative thinking as children create and construct their own scenarios and stories. Language skills are expanded as children talk about their ideas and experiences with their friends and teachers.

Being aware of the needs of others helps children develop empathy and our pets in school are wonderful opportunities for children to learn how to feed our hamster, turtles and fish! By allowing children to engage more with nature, they are learning how to be kind to our earth, which in turn helps develop their sense of civic responsibility.

Fairchild children have strong transition to excellent primary schools, and are well-prepared for their future, whether in Hong Kong or elsewhere. 90% of the graduates are admitted to elite international schools, such as English Schools Foundation (ESF), Canadian International School (CDNIS), French International School (FIS) and Chinese International School (CIS).

The "perfect place" which is Fairchild builds children's foundational skills for success in whatever they choose. Don't delay, come over to play!

The German Approach - A Bilingual Education

Benefitting from a network of over 135 German Schools Abroad, German Swiss International School (GSIS) is a leading dual-language institution in Hong Kong that has offered through-train education from Kindergarten to Secondary since 1969. Delivering a unique multicultural experience, GSIS is steadfast in pursuing its educational goals and continually evolving to meet the changing needs of 21st century learners. With two successful streams, both curriculums present globally recognised diplomas - the German International Stream (GIS) with the German International Abitur Diploma (DIA) and the English International Stream (EIS) with the IGCSE / International Baccalaureate (IB).

GERMAN INTERNATIONAL STREAM (GIS) & DIA DIPLOMA

Open to all nationalities, the core of the German International Stream is delivering a culturally rich bilingual education through a well-rounded curriculum of languages, sciences, mathematics, and arts. Graduates receive the German International Abitur Diploma (DIA) which is accepted at prestigious universities all over the world and is seen as an advantage over other common school qualifications. Those who choose to continue their academic career in Germany, an economic powerhouse, are given an education resident visa and tuition is offered gratuitously by the German government.

GIS KINDERGARTEN

The German approach promotes a holistic, child-centred journey where each child is unique and understands at their own pace. With an emphasis on learning through play, children ages 3-5 years old are taught through rhymes, songs, movement and colourful games in German and English.

GIS PRIMARY - CLIPPY PROGRAMME

The Cultural and Language Integration Programme in

Primary Years (CLIPPY) presents an immersive German language curriculum for children 6-8 years old. It supports children with no prior knowledge of German with personalised language lessons and fully integrate them into a nurturing community. It delivers an outstanding education that transforms lives, as well as minds, and develops critical thinking.

GIS SECONDARY - FAST TRACK PROGRAMME

For older children ages 11-12 years old, the Fast Track programme is an accelerated German-learning experience designed for Secondary international students where German language courses are integrated into the interdisciplinary curriculum, alongside German speaking students. They are cultivated into a language-rich learning environment and become inquisitive, open minded, and independent thinkers.

BENEFITS:

- Bilingual education in German & English
- Open to all passport holders where no prior knowledge of German is required for CLIPPY and Fast Track programme
- German International Abitur diploma (DIA) accepted at top universities worldwide including Europe, U.K., U.S.A. and Canada
- Education resident visa and tuition offered gratuitously at German universities
- Intimate class size to provide the best learning atmosphere

A through-school international programme that nurtures innovative lifelong learners

Our School

Invictus School Hong Kong was established in 2019 and takes pride in its high quality and accessible education. Invictus aims to nurture individuals in innovative and inspiring ways to become lifelong learners who contribute to a better tomorrow. The modern Tseung Kwan O campus houses the Kindergarten and Primary years (Nursery to Y6 and ages 3 to 11) and offers a bilingual programme through English and Mandarin Chinese. The Secondary School campus in Chai Wan caters for students from Years 7 to 13 (ages 11 – 18), and offers the world-renowned Cambridge curriculum, including IGCSEs and A-Levels.

Our Mission

“Our mission at Invictus is to nurture our students to be future-ready and enable them to skillfully navigate the Volatile, Uncertain, Complex and Ambiguous (VUCA) world that we live in today,” says Julia Woo, Head of Schools. “To this end, strong instructional and curriculum leadership and sound assessment is key to empower students to not only thrive in the classroom, but also skillfully navigate an uncertain and changing world today.”

Beyond equipping students with the skills, knowledge and competence to enable them to succeed, Invictus students will also be anchored in values such as discipline, integrity, resilience and kindness, so that they will grow to be fine young men and women of good character.

Our Curriculum

Learning at Invictus is structured around a rigorous curriculum which spirals up through the Kindergarten, Primary and Secondary years. The Kindergarten follows the International Early Years Curriculum (IEYC), incorporating the Singapore Mathematics programme and bilingual learning approaches in English and Mandarin Chinese. In the Primary section these foundations are built upon, with Cambridge Primary Curriculum providing an international framework alongside a continuation of Singapore Mathematics and bilingual learning, but where the emphasis on English grows during the Primary years. The Secondary programme begins with a core foundation of subjects in Years 7 to 9, before the Cambridge IGCSE programme in Years 10 and 11 offers students some flexibility to align subject

choices and personal strengths. The final step of the Invictus journey is the AS and A-Level programmes in Years 12 and 13. These Cambridge qualifications are world-renowned, offering entry to tertiary institutions around the world.

Our value-proposition

Invictus School Hong Kong is a through school, where a child who joins Invictus at the Kindergarten or Primary levels, is guaranteed a place in the Primary and Secondary sections. The initial application for any year level is made online. The school promotes affordable international school fees, welcoming local and international families, and administrative and teaching staff are familiar with successfully transitioning students into Invictus from a variety of other school systems.

Connect With Us

Parents and students who are keen to learn more about Invictus are welcome to visit the school and meet with members of the admissions and teaching teams. We offer visits, tours and also a one-day taster class for students who want to have a glimpse of a Secondary School experience before joining the school. Please reach out to the admissions team via the following details to save a spot.

Kingston - The first step makes the difference.

Quality bilingual education from Playgroup to Year 6

Kingston is a leading educational institution in Hong Kong that offers an exceptional bilingual programme for Playgroup to Primary. We take pride in being the first authorised IBPYP school in Hong Kong, and we are committed to providing our students with a well-rounded education that prepares them for the challenges of the 21st century.

Our bilingual English and Putonghua programme is one of the highlights of our school, as we believe that learning two languages is a valuable asset that will benefit our students in the future. Our programme is designed to help our students become proficient and literate in both English and Chinese.

Kingston offers Playgroup and Pre Nursery classes and the IB Primary Years Programme from Kindergarten to Year 6. The PYP is designed to develop the whole child and prepare them for lifelong learning. Our PYP programme is centred around inquiry-based learning, where students are encouraged to ask questions, investigate, and find solutions to real-world problems. This approach to learning fosters a love for learning and helps our students become independent thinkers and problem-solvers. As an authorised IB World School, we are committed to implementing the IB's philosophy and mission, which is to develop inquiring, knowledgeable, and caring young people who help create a better and more peaceful world through intercultural understanding and respect.

Kingston also offers a through train option to ICHK Secondary, which means that our students can continue their education with us from Playgroup all the way to secondary school. This provides our students with a seamless transition between schools and ensures that they receive a consistent and high-quality education throughout their academic journey.

Our through train education also allows us to develop a

strong sense of community within our school, as our students and teachers build long-lasting relationships that extend beyond the classroom. Our school culture is centred around respect, responsibility, and kindness, and we strive to create a nurturing and supportive environment that encourages our students to reach their full potential.

Kingston is an outstanding educational institution that offers a unique and comprehensive bilingual PYP programme. We invite parents who are looking for a school that offers a well-rounded education to visit us and see for themselves what makes our school so special.

First Class Education - All Through School

Korean International School (KIS) has been successfully running for 29 years in Hong Kong, providing students with an excellent standard of education and a well-rounded learning experience.

Since its establishment in 1994, KIS has been committed to providing a first-class education to students from diverse backgrounds. The school has a strong reputation for academic excellence, with students consistently achieving outstanding results in external exams such as the International General Certificate of Secondary Education (IGCSE) and Cambridge International AS & A Levels

KIS prides itself on providing a student-focused education that values individuality, creativity, and critical thinking. The school's dedicated faculty is composed of experienced and highly qualified teachers who are committed to providing a supportive and nurturing learning environment for all students.

One of the unique aspects of KIS is its commitment to bilingual education. The school offers a Korean, Chinese and Spanish language program for students, as well as Chinese language classes for those who wish to study Mandarin or Cantonese. This approach allows students to develop their language skills and cultural understanding, which is essential in today's globalized world.

The school's facilities with modern classrooms, science labs, a library, an art studio, a performing arts center, and many sports facilities. The school's campus is located in the Sai Wan Ho area of Hong Kong, providing a peaceful and conducive environment for learning. We recognize the importance of extracurricular activities in a student's overall development and offer a wide range of extracurricular activities, including sports, music, drama, and community service. The school's diverse student body allows for a rich cultural exchange and provides students with a global perspective.

KIS is committed to providing a safe and inclusive learning environment for all students. The school's policies

and practices are designed to promote diversity, respect, and understanding, and to ensure that all students feel valued and supported.

Over the past 29 years, KIS has established itself as a leading institution for British curriculum education in Hong Kong. The school's commitment to academic excellence, student-focused education, and a supportive learning environment has earned it a well-deserved reputation as one of the top schools in the region.

Great Learning Inside and Outside the Classroom

Norwegian International School (NIS) is a school like no other in Hong Kong. It's a school where you'll find wide open spaces, lush greenery, and students who love to spend time learning both in and out of doors. It's a school where the students, families, and staff are a learning community.

At both its Primary School and Kindergarten campuses, NIS showcases the best of life in Tai Po. Learning about the world around them in the classroom seamlessly leads to time spent outdoors, where students help grow vegetables over the course of weeks, and study with wonder the decades-old trees that tower above them in the playground.

An active, healthy lifestyle is vital to a child's development, and at NIS, it's an essential part of daily life. The primary campus's sizable outdoor playing field has led not only to impressive inter-school sports results but, more importantly, to students' enjoyment of the environment around them, causing them to be more active. When the time comes to return to the classroom, NIS students benefit from all the positive effects that sunshine and activity have on their developing intellects.

A strong sense of community is also crucial to NIS's identity. There's plenty of opportunity for parents to be involved in classroom life, and it's a common sight to see parents and children laughing, talking, and playing together in the school playground long after the school day has ended. As a member of Generations Christian Education, NIS provides parent education opportunities throughout the year to strengthen families and help them support learning at home.

Learning at NIS is based on the International Primary Curriculum and International Early Years Curriculum. Both are enquiry-based programmes that use creative, thematic units to demonstrate how different subjects relate to each other. NIS Principal Luis Mak says of these units, "Our students

can learn about subjects through different lenses—so, for example, we view the topic from a scientist's perspective, an artist's perspective, and a historian's perspective."

NIS offers weekly school tours and would be delighted to introduce all interested families to this vibrant community.

The Best of British education for a global future

Oxbridge School is a popular British curriculum school providing personalised learning in deliberately small class sizes with strong academics, built upon our outstanding thematic learning programme. English language and literacy are prioritised through daily guided reading lessons and all students study Mandarin. There is experienced professional support for English as an additional language.

Our **school values** pervade all that we do: Good manners, Hard Work, Care for the environment, and Selflessness are at our core. And we aim to develop students who Care, Learn and Aspire, guided by our dedicated teachers who Nurture, Educate and Inspire

We prioritise the **mental wellbeing** of our students and in regular Assemblies and weekly class tutorials and individual sessions we help our students to remain healthy, happy and excited about the possibilities of the future. **Sport** makes students fitter, happier and healthier and more satisfied with life and in our curriculum, there are weekly sports lessons alongside further opportunities after school such as La Liga football.

Our bespoke **curriculum** allows us to teach with an emphasis on inquiry and students are encouraged to analyse, question, think about, create, take apart ideas, and ask "why?" In this way, they understand and develop skills that enable them reach their true potential, go beyond expectations, and be fully prepared for the future.

We great importance on **ECA's** such as team sports and performing arts, that help students develop skills in leadership and teamwork and to understand the intricacies of competition and camaraderie and we encourage students to participate in activities that deepen their understanding of academic subjects such as international maths competitions.

The unique **Oxbridge Activity Passport** provides 20 different opportunities for students in each year group to learn new skills, participate in different activities and to visit new places outside of school, helping our students gain wider skills to become well rounded citizens of the future.

Oxbridge School **works closely with our parents**. Teachers are in daily communication, and parents regularly come into school and classrooms at our monthly Coffee Mornings, our fortnightly reading sessions and at regular social events such as our Concerts, Sports Day and Family Fun Days.

All in all, Oxbridge School provides the best British education to prepare students for a global future

Friendly, family-like International Curriculum (PYP) School on Hong Kong Island - where children love coming to school!

HKCA Po Leung Kuk School is a friendly, affordable (no debenture, no capital levy), high-quality international-curriculum private school conveniently located near Tin Hau MTR Station. As an IB World School authorized to offer the world-renowned Primary Years Programme (PYP) for children aged 3 -12, we strive to exemplify the PYP philosophy – a commitment to high-quality, challenging, holistic international education – that we believe is important for our students and will serve them well throughout all aspects of their lives.

At HKCA Po Leung Kuk School, each child’s personal learning journey includes support designed to build confidence and encourage lifelong learning. Individual interests, strengths, and abilities are nurtured in an environment where children have voice, choice and ownership in their learning - a hallmark of the PYP!

Our Vision: Our students will become creative, critical thinkers who are internationally-minded* lifelong learners

*internationally-minded people manifest the values and resulting behavior that enable them to respect and embrace differences in cultures, opinions and perspectives, care for others and the environment, and take action to make the world a better place.

We also believe significant amounts of play and adventure foster children's innate desire to learn and imagine, thus allowing them to naturally acquire knowledge, skills and, most importantly, an understanding of the world around them. We offer this both on campus and off, with daily recess time, extra-curricular activities, numerous field trips, and overnight camp opportunities for upper grade levels.

We are committed to offering a holistic education for children that not only includes academic rigor, but also develops students’ social skills, self-management skills, thinking skills, communication skills and research skills that can be used throughout life. These are the IB PYP’s 5 Approaches to Learning!

Please make an appointment to tour our beautiful campus at 62 Tin Hau Temple Road. In what we refer to as our “hideaway”, we are surrounded by trees and greenery, but with abundant outside play areas for both our Kindergarten and Primary learners. We look forward to seeing you here soon!

The Best Primary School in Hong Kong

Shrewsbury International School Hong Kong was set up in recognition of the profound influence childhood experiences have upon adult lives. The only premium provider of primary education in the region, we offer a unique and uncompromised range of opportunities for children between the ages of 3 and 11, because we only have one chance to get it right.

"We are a Primary School and the vast majority of benefits our students enjoy stem from this critical distinction: they are the sole occupants of our beautiful campus and the most significant consideration of school leaders and governors." Mr Ben Keeling, Principal

Learning at Shrewsbury is founded upon a thematic programme that encourages subject interconnection and runs in close alignment with the English National Curriculum. As a result, students develop their ability to think both creatively and critically within a safe, nurturing and inspiring space, designed for and exclusively used by young learners.

Weekly aquatics lessons supplement an ambitious physical education and performing arts programme facilitated by the availability of an incredible range of exceptional spaces, while a three-tiered Chinese language programme ensures that children of all ages and abilities develop confidence and practical fluency.

Home to a broad and diverse community of international families, the majority of students join Shrewsbury at the age of 3 or 5 and enter into a Nursery or Year 1 class, respectively.

A play centred framework defines the experiences of the youngest students. Children in Nursery classes learn through a process of personalised investigation guided by a highly skilled academic team who act to inspire purposeful, considered and conscious engagement - graduated access to a full specialist programme of study and a carefully managed series of interactions with older students provides a bedrock for further interconnection and the steady development of a supporting network.

"Nursery students love school - they engage boldly and with confidence, empowered by their continually developing linguistic skills. The close and trusting relationships we share act to guide personalised exploration and stir deep fascination." Aileen Doyle, Early Years Leader

The widening of capacity also supports seamless early entry to our Primary School. During Year 1, students are encouraged to develop an interconnected network of meaningful relationships, a passion for learning and an informed view of the world around them. The simultaneous introduction of a House

system and the widening of an already expansive Co-Curricular programme broadens social and intellectual contact during a critical phase of childhood development.

"Students in Year 1 are required to interconnect, both formally and incidentally - they rehearse and refine their social skills and in doing so develop the positive learning habits required for critical analysis and creative solution." Ellie Woods, KS1 Leader

Parents keen to learn more about what makes Shrewsbury sparkle are encouraged to reach out direct via their admissions team.

'You only get one childhood and the experiences on offer at Shrewsbury have a life-defining influence. We provide each of our students with the attributes to thrive both within their primary years and beyond.' Mr Ben Keeling, Founding Principal

Empowering Students to Ignite Bright Futures

How to develop a love of learning in children?

At YMCA Christian Academy (YCA), they believe that instilling a love of learning in children is important to children's future successes and achievements. They want their students to stay curious and passionate about the things around them and even things that are far beyond their reach. They believe that this attitude towards learning is the key to success as students continue on their education journey and career paths.

YCA follows the International Primary Curriculum (IPC), a comprehensive, thematic, creative curriculum for 5-12 years old. It has a clear process of learning and specific learning goals for every subject as well as personal learning goals. The IPC units are designed to appeal to children's interest and help them understand more about the world around them. With the IPC as the framework for learning, their passionate teachers use the following ways to ignite their students' interest and engage them in everyday learning.

Discovering their interest and passion

With every IPC unit, their teachers begin with the Entry Point and Knowledge Harvest. Through these stages, teachers will have a good understanding of what their students already know and what they are interested in learning more about. The flexibility and adaptability of the IPC allows their teachers to adjust according to the class' interest and level of understanding while meeting learning goals and statutory requirements.

An example would be their Year 3's unit on chocolate. Students were very excited to learn about a topic they are

very familiar with but had no idea where it came from and how it is made. They asked lots of questions and the class conducted research together. They held experiments where they tested and described the different types of chocolate and looked into how chocolate is made from a cocoa bean. They also went as far as researching what "Fair Trade" means on chocolate bars. At the end of their unit, at their Exit Point, they set-up a Chocolate Museum where they invited their family and friends to attend. Each student created a presentation - a game, a drama, a video, a book. They used these presentations to share knowledge they had acquired in this unit with their family and community. It was a good opportunity for the students to demonstrate their learning and develop presentation skills. They also feel proud to be teaching others what they have learned.

Join YCA's weekly School Tour to learn more about their vibrant and future-ready curriculum where people come first. Their mission is the development of personal skills and qualities in preparing children with the confidence they need for secondary school, university, and the future workplace. YCA is now accepting applications for the 2024-25 academic year and mid-year entry to the current school year.

Carmel School Offers the Framework to Becoming Well Rounded Community Leaders

Our School's Jewish ethos and philosophy underpins both the academic excellence and the unique opportunities and breadth provided by the International Baccalaureate (IB) curriculum (PYP, MYP and DP), developing well rounded students who care about contributing to their community.

Carmel School students' achievements include charitable projects and community service both local and international. The IB requires students to partake in community driven actions as part of their study through Creativity, Activity and Service (CAS), which encourages independent learning within a wellbeing focused framework. Their accomplishments and their consistently admirable academic successes are a testament to the value in which students place in both learning and service.

Innovation is ongoing at Carmel School, where we lead in Robotics and Plastic Upcycling, a sophisticated recycling and manufacturing programme. Delivered by passionate, highly skilled faculty, our small class sizes enable us to offer individualized learning strategies and inspire students to strive for excellence. Here, students thrive in an environment of communication, collaboration, and support of others.

Carmel School's academic results demonstrate a consistent track record of offers from top Universities worldwide including Oxford University, University of Cambridge, NYU, Durham University, McGill University, Duke University, HKU, HKUST, Monash University, The Technion (Israel Institute of Technology) and more.

We are proud to have recently celebrated our 30th year in operation and invite you to meet our students, faculty, and tour our facility. To schedule a visit please contact us.
