Practise exams

Exams ready to be copied

INTRODUCTION

Exam with all question types

No specific subject

🔗 COPY THE EXAM

- **Security client:** Unsafe mode.
- **Added resources:** None.
- **Modules:** Auto corrected form questions.

This exam includes a form with sample questions that demonstrate the various question types available in this module. We recommend that you create a copy, add yourself as a student to it, and take the exam. This will give you firsthand experience of answering questions in Trelson and allow you to see how submissions are automatically graded based on student responses.

PRACTICE

Expressions with variables

Math

🔗 COPY THE EXAM

- **Security client:** Unsafe mode.
- **Added resources:** YouTube video and Geogebra.
- **Modules:** Auto corrected form and writing space.

Learn how you and your students can use the math editor in Trelson to document mathematical calculations. The math editor can be used both in the writing space and in question forms, which are illustrated in this example exam. Important to note that in order for the math editor to be accessible to students in the writing space, you have to activate 'Math support' on the settings of the writing space.

CHALLENGE

Visiting Italy virtually

No specific subject

🔗 COPY THE EXAM

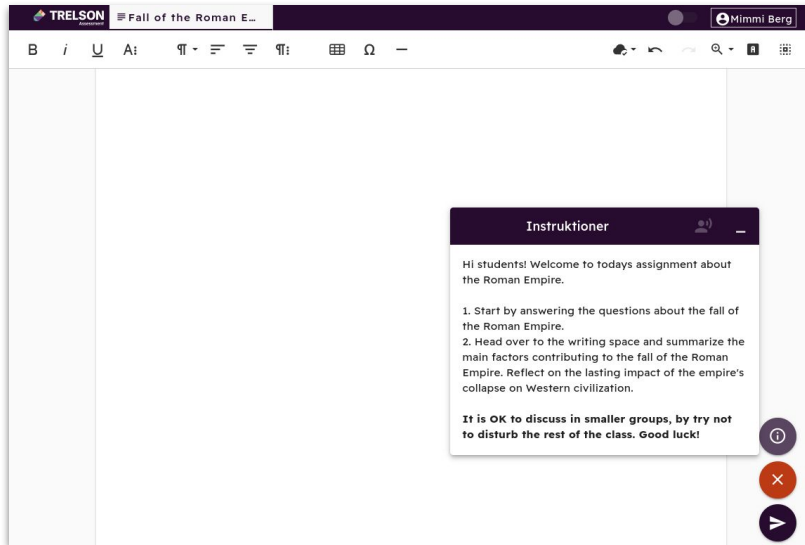

- **Security client:** Trelson Focus (ChromeOS).
- **Added resources:** YouTube video, Google Maps, Wikipedia.
- **Modules:** Writing space with a template.

Trelson Focus is a security client that locks a student's Chromebook browser. This Focus exam allows the students' to explore Italian cities virtually without distractions, restricting access to only permitted resources like Google Maps Street View. To experience this as a student, ensure you have a Chromebook with the Trelson Focus extension installed through Google Workspace.

Profile page

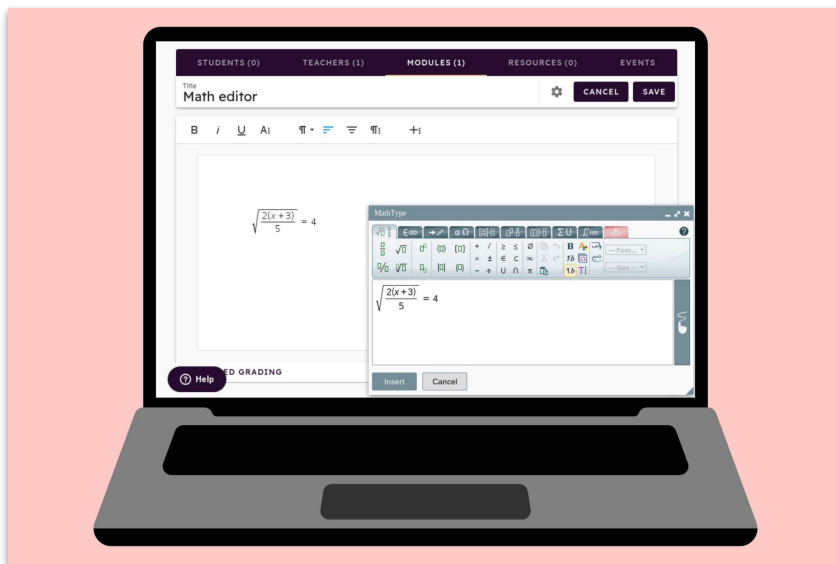

The screenshot displays the TRELSON user interface. On the left is a navigation sidebar with options like Assignments, Archive, Support, and Organization. The main content area is divided into two sections. The top section, titled 'Demo', shows the user's profile with a circular avatar, the name 'Hi, Mimmi Berg!', and the role 'TA superadmin'. Below this are three buttons: 'Change organization', 'My settings', and 'Sign out'. The bottom section, titled 'My settings', is a modal window with a blue header. It contains a blue information banner about default options for new assignments. The settings are organized into sections: 'General settings' with options for 'Anonymize submissions', 'Submit automatically at deadline', 'Time limit' (set to 60 minutes), and 'Anonymize teacher feedback'; 'Security' with 'PIN to start' (1111) and 'PIN to submit'; 'Accessibility' with 'Spell check' (Norwegian (Bokmål)) and 'Basic calculator' (Disabled); and 'Text to speech' (English (British)) and 'Speech to text' (Swedish). A 'SAVE' button is at the bottom right of the settings modal. On the far right, a smaller version of the user profile is visible, including the name 'Hi, Mimmi Berg!' and role 'TA superadmin'.

Basic calculator

Math editor

- Chemical expressions
- Mathematical expressions
- Not a calculator
- Converts drawn calculations to text
